Marriage Contracts From Chaucer To The Renaissance Stage:

Marriage Contracts from Chaucer to the Renaissance Stage Kathryn Elisabeth Jacobs, 2001 A fine historic exploration of why marriage treatments in literary texts are transformed between the 14th and 16th centuries This volume has the power and evidence both historic and textual to revamp our understanding of crucial texts I will never read Chaucerian texts of wives and widows the same again Jean E Jost Bradley University An extremely readable study of literary responses to changing marriage law including an in depth study of Chaucer and a wide ranging examination of Renaissance dramatists Emily A Detmer Millikin University From the 14th century to the middle of the 17th changes in marriage law affected literary depictions of marriage in marked ways according to Kathryn Jacobs s astute interdisciplinary treatment of nuptial contracts She relates the changes in marriage law and also the enforcement policies of church courts to the changing literary treatment of marriage in Chaucer s work in medieval mystery plays and in the Renaissance plays of the late 16th and early 17th centuries When Chaucer was writing his Canterbury Tales Jacobs argues the marriage contract was well known to his audience He could therefore count on them to recognize the parallels he draws between this familiar contract and the extramarital or postmarital contracts he designed The mystery plays meanwhile were popular precisely because they violated the marriage contract as it was commonly known By the Renaissance however church law had changed drastically and the drama reflected public resentment and confusion about the new policies One of the unexpected results of this was the birth of the lusty widow as a stage fantasy figure Focusing first on Chaucer and then on drama Jacobs offers a bridge between the late Middle Ages and the Renaissance showing how the lives of everyday people in each age were affected by the handling of marriage law in the ecclesiastical courts Kathryn Jacobs associate professor of literature and languages at Texas A M University in Commerce Texas is the author of articles in such journals as Chaucer Review and Mediaevalia Women and Geography on the Early Modern English Stage Katja Pilhuj, 2025-10-01 In a late 1590s atlas proof from cartographer John Speed Queen Elizabeth appears crowned and brandishing a ruler as the map s scale of miles Not just a map key the queen s depiction here presents her as a powerful arbiter of measurement in her kingdom For Speed the queen was a formidable female presence authoritative ready to measure any place or person The atlas finished during James reign later omitted her picture But this disappearance did not mean Elizabeth vanished entirely her image and her connection to geography appear in multiple plays and maps Elizabeth becomes like the ruler she holds an instrument applied and adapted Women and Geography on the Early Modern English Stage explores the ways in which mapmakers playwrights and audiences in early modern England could following their queen s example use the ideas of geography or world writing to reshape the symbolic import of the female body and territory to create new identities The book demonstrates how early modern mapmakers and dramatists men and women conceived of and constructed identities within a discourse of fluid ideas about space and gender

Marriage, Sex, and Civic Culture in Late Medieval London Shannon McSheffrey, 2013-04-23 Awarded honorable

mention for the 2007 Wallace K Ferguson Prize sponsored by the Canadian Historical Association How were marital and sexual relationships woven into the fabric of late medieval society and what form did these relationships take Using extensive documentary evidence from both the ecclesiastical court system and the records of city and royal government as well as advice manuals chronicles moral tales and liturgical texts Shannon McSheffrey focuses her study on England's largest city in the second half of the fifteenth century Marriage was a religious union one of the seven sacraments of the Catholic Church and imbued with deep spiritual significance but the marital unit of husband and wife was also the fundamental domestic social political and economic unit of medieval society As such marriage created political alliances at all levels from the arena of international politics to local neighborhoods Sexual relationships outside marriage were even more complicated McSheffrey notes that medieval Londoners saw them as variously attributable to female seduction or to male lustfulness as irrelevant or deeply damaging to society and to the body politic as economically productive or wasteful of resources Yet like marriage sexual relationships were also subject to control and influence from parents relatives neighbors civic officials parish priests and ecclesiastical judges Although by medieval canon law a marriage was irrevocable from the moment a man and a woman exchanged vows of consent before two witnesses in practice marriage was usually a socially complicated process involving many people McSheffrey looks more broadly at sex governance and civic morality to show how medieval patriarchy extended a far wider reach than a father's governance over his biological offspring By focusing on a particular time and place she not only elucidates the culture of England's metropolitan center but also contributes generally to our understanding of the social mechanisms through which premodern European people negotiated their lives

Performing Widowhood on the Early Modern English Stage Asuka Kimura, 2023-01-30 The deaths of husbands radically changed women's lives in the early modern period While losing male protection widows acquired rare opportunities for social and economic independence Placed between death and life female submissiveness and male audacity chastity and sexual awareness or tragedy and comedy widows were highly problematic in early modern patriarchal society They were also popular figures in the theatre arousing both male desire and anxiety Now how did Shakespeare and his contemporaries represent them on the stage What kind of costume props and gestures were employed What influence did actors spectators and play space have This book offers a fresh and incisive examination of the theatrical representation of widows by discussing the material conditions of the early modern stage It is also the only comprehensive study of this topic covering all three phases of Elizabethan Jacobean and Caroline drama

Courtships, Marriage Customs, and Shakespeare's Comedies L. Giese, 2016-04-30 Loreen L Giese's study of over 5000 important folios of court depositions contemporary with Shakespeare's plays demonstrates the complex ways those plays participate in and comment upon their culture rather than stand apart from it Both the court records and the plays present women as agents who are capable of challenging their traditional roles Chaucer and Fame Isabel Davis, Catherine Nall, 2015 Fama or fame is a central concern of late medieval literature Where fame came from who deserved it whether it was desirable how it was acquired and kept were significant inquiries for a culture that relied extensively on personal credit and reputation An interest in fame was not new being inherited from the classical world but was renewed and rethought within the vernacular revolutions of the later Middle Ages The work of Geoffrey Chaucer shows a preoccupation with ideas on the subject of fama not only those received from the classical world but also those of his near contemporaries via an engagement with their texts he aimed to negotiate a place for his own work in the literary canon establishing fame as the subject site at which literary theory was contested and writerly reputation won Chaucer's place in these negotiations was readily recognized in his aftermath as later writers adopted and reworked postures which Chaucer had struck in their own bids for literary place This volume considers the debates on fama which were past present and future to Chaucer using his work as a centre point to investigate canon formation in European literature from the late Middle Ages and into the Early Modern period Isabel Davis is Senior Lecturer in Medieval Literature at Birkbeck University of London Catherine Nall is Senior Lecturer in Medieval Literature at Royal Holloway University of London Contributors Joanna Bellis Alcuin Blamires Julia Boffey Isabel Davis Stephanie Downes A S G Edwards Jamie C Fumo Andrew Galloway Nick Havely Thomas A Prendergast Mike Rodman Jones William T Rossiter Elizaveta Strakhov *Annotated Chaucer bibliography* Mark Allen, Stephanie Amsel, 2015-11-01 An extremely thorough expertly compiled and crisply annotated comprehensive bibliography of Chaucer scholarship between 1997 and 2010 **Renaissance Papers 2009** Christopher Cobb, 2010 Renaissance Papers is a collection of the best scholarly essays submitted each year to the Southeastern Renaissance Conference The Conference accepts papers on all subjects relating to the Renaissance from scholars all over North America and the world Widows and Suitors in Early Modern English Comedy Jennifer Panek, 2004-10-14 The courtship and remarriage of a rich widow was a popular motif in early modern comic theatre Jennifer Panek brings together a wide variety of texts from ballads and jest books to sermons and court records to examine the staple widow of comedy in her cultural context and to examine early modern attitudes to remarriage She persuasively challenges the critical tendency to see the stereotype of the lusty widow as a tactic to dissuade women from second marriages arguing instead that it was deployed to enable her suitors to regain their masculinity under threat from the dominant wealthier widow The theatre as demonstrated by Middleton Dekker Beaumont and Fletcher and others was the prime purveyor of a fantasy in which a young man's sexual

mastery of a widow allowed him to seize the economic opportunity she offered
