Marriage on Trial Ziba Mir-Hosseini, 2000-09-22 Taking an inter disciplinary approach which straddles law anthropology sociology and women s studies Mir Hosseini shows how women can turn even the most patriarchal elements of Islamic law to their advantage and achieve their personal marital aims *Islamic Family Law in a Changing World* 'Abd Allāh Aḥmad Na'im, 2002-08 In *Islamic Family Law in a Changing World* Abdullahi A An Na im explores the practice of the Shari a commonly known as Islamic Family Law An Na im shows that the practical application of Shari a principles is often modified by theological differences of interpretation a country s particular customary practices and state policy and law

Issues in Islamic Law Mashood A. Baderin, 2017-07-05 Islamic substantive law otherwise called branches of the law *furu al fiqh* covers the textual provisions and jurisprudential rulings relating to specific transactions under Islamic law It is to Islamic substantive law that the rules of Islamic legal theory are applied The relationship between Islamic legal theory and Islamic substantive law is metaphorically described by Islamic jurists as a process of cultivation *istithmar* whereby the qualified jurist *mujtahid* as the cultivator uses relevant rules of legal theory to harvest the substantive law on specific issues in form of fruits *thamarat* from the sources The articles in this volume engage critically with selected substantive issues in Islamic law including family law law of inheritance law of financial transactions criminal law judicial procedure and international law *al siyar* These areas of substantive law have been selected due to their contemporary relevance and application in different parts of the Muslim world today The volume features an introductory overview of the subject as well as a comprehensive bibliography to aid further research **Arab Family Studies** Suad Joseph, 2018-07-10 Family remains the most powerful social idiom and one of the most powerful social structures throughout the Arab world To engender love of nation among its citizens national movements portray the nation as a family To motivate loyalty political leaders frame themselves as fathers mothers brothers or sisters to their clients parties or the citizenry To stimulate production economic actors evoke the sense of duty and mutual commitment of family obligation To sanctify their edicts clerics wrap religion in the moralities of family and family in the moralities of religion Social and political movements from the most secular to the most religious pull on the tender strings of family love to recruit and bind their members to each other To call someone family is to offer them almost the highest possible intimacy loyalty rights reciprocities and dignity In recognizing the significance of the concept of family this state of the art literature review captures the major theories methods and case studies carried out on Arab families over the past century The book offers a country by country critical assessment of the available scholarship on Arab families Sixteen chapters focus on specific countries or groups of countries seven chapters offer examinations of the literature on key topical issues Joseph s volume provides an indispensable resource to researchers and students and advances Arab family studies as a critical independent field of scholarship *Adjudication in Religious Family Laws* Gopika Solanki, 2011-04-25 This book argues that the shared adjudication model in which the state splits its

adjudicative authority with religious groups and other societal sources in the regulation of marriage can potentially balance cultural rights and gender equality In this model the civic and religious sources of legal authority construct transmit and communicate heterogeneous notions of the conjugal family gender relations and religious membership within the interstices of state and society In so doing they fracture the homogenized religious identities grounded in hierarchical gender relations within the conjugal family The shared adjudication model facilitates diversity as it allows the construction of hybrid religious identities creates fissures in ossified group boundaries and provides institutional spaces for ongoing intersocietal dialogue This pluralized legal sphere governed by ideologically diverse legal actors can thus increase gender equality and individual and collective legal mobilization by women effects institutional change
