Martian Enigmas:

Martian Enigmas Mark J. Carlotto, 1993-01-29 On the surface of Mars lies a formation that looks remarkably like a humanoid face. Forever staring up into the vastness of space, it has attracted our attention. For some, that is why it is there, beckoning us to come and explore. Others believe that it is simply an odd-looking geological landform, a formation carved over the ages by the random forces of nature. It is our imagination and our desire to find other life in the universe that makes us see it as an intelligently crafted object. Opinions about the possibility of life on Mars have changed over the years, from Percival Lowell's canals to the dead planet image by the early Mariner missions to Mars, to the enormous volcanoes, great canyon systems, and channels carved by water seen by Mariner 9 and Viking. In the first edition of *The Martian Enigmas*, Dr. Mark J. Carlotto presented a detailed analysis of the controversial Viking photographs. The revised edition greatly expands on his early work, containing new research results that add further support to the claim that these objects may be precisely what many scientists have sought for decades: the first hard evidence that we are not alone.

The Martian Enigmas Mark J. Carlotto, 1998 **Mars Geological Enigmas** Richard Soare, Susan Conway, Jean-Pierre Williams, Dorothy Oehler, 2021-05-23 *Mars Geological Enigmas* From the Late Noachian Epoch to the Present Day presents outstanding questions on the geology of Mars and divergent viewpoints based on varying interpretations and analyses. The result is a robust and comprehensive discussion that provides opportunities for planetary scientists to develop their own opinions and ways forward. Each theme opens with an introduction that includes background on the topic and lays out questions to be addressed. Alternate perspectives are covered for each topic, including methods, observations, analyses, and in-depth discussion of the conclusions. Chapters within each theme reference each other to facilitate comparison and deeper understanding of divergent opinions. Offers a transchronological view of the geological history of Mars, addressing thematic questions from a broad temporal perspective. Discusses outstanding questions on Mars from diverging perspectives. Includes key questions and answers as well as a look

ahead to which puzzles remain to be solved **The Martian Codex** George J. Haas, William R. Saunders, 2009-09-22 In this provocative book *The Cydonia Codex* authors George J Haas and William R Saunders use archaeological research discoveries and photographs from NASA and other space programs to document the uncanny similarities between Martian and now extinct Earth cultures *The Martian Codex* begins with a review of the thirty year history of documenting the famous Face on Mars landform from NASA's first photographs in 1976 to the Mars Reconnaissance Orbiter's HiRISE shots in 2007 Detailed analysis shows it as a split faced structure that precisely resembles a set of masks from a temple in Cerros Mexico Part two provides additional examples of two faced and composite structures all over the red planet Haas and Saunders explore a series of recurring motifs by providing side by side views of the Martian geoglyphs with their terrestrial pre Columbian counterparts The results substantiate a commonality between two worlds in that both depict specific gods and characters from the creation mythology of the Mayan people as recorded in the sacred Popol Vuh This fact based book represents the most persuasive argument yet that extraterrestrials may indeed have appeared on Earth during an earlier era [Mars/Earth Enigma](#) DeAnna Emerson, 1996 [The Martians](#) Nick Redfern, 2020-10-01 This provocative and exciting book makes a startling case for there being life on Mars Whitley Strieber 1 New York Times bestselling author of *Communion* *The Martians* is an in depth study of the theory that Mars was once a world that teemed with life Perhaps even life not too dissimilar to ours Incredibly the Martians may still be there Alive The questions that this book asks and answers include the following What kind of society did the Martians have What caused their world to become harsh and desert like Did global warming or nuclear war ensure the extinction of the Martians Are Martian artifacts strewn about the surface just waiting to be found by the likes of NASA Has NASA already found such evidence but chosen to withhold such monumental finds from the public and the media Could some form of the Martians still exist deeply below the surface of the planet in secure installations that allow them to ensure their civilization continues What do we know about the Martian environment its atmosphere and its landscape *The Martians* explores the CIA's top secret search for the Martians multiple photos of strange anomalies and the latest revelations about the environment and water on Mars And most tantalizing of all Did an ailing Martian race come to Earth in past eons and were they confused with gods The questions concerning life on Mars then and now are many The answers are astounding **The Mars Mystery** Graham Hancock, 2010-08-11 An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell Is Earth condemned to the same fate or can we protect ourselves and our planet from extinction In his most riveting and revealing book yet Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers lakes and oceans Could Mars have sustained life and civilization Megaliths found on the parched shores of Cydonia a former Martian ocean mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis Especially startling is a Sphinx like structure depicting a face with distinguishable diadem teeth mouth and an Egyptian style headdress Might there be a connection between the structures of

Egypt and those of Mars Why does NASA continue to dismiss these remarkable anomalies as a trick of light Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it The Mars Mystery is both an illumination of our ancient past and a warning that we still have time to heed about our ultimate fate

Maps of the Ancient Sea Kings Charles H. Hapgood, 1966 Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the 18th century Hapgood believes that they mapped all the continents This would mean that the Americas were mapped thousands of years before Columbus Antarctica would have been mapped when its coasts were free of ice Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when Alaska was still connected with Siberia by the

Pleistocene Ice Age land bridge
