Martyrs Conviction A Sociological Analysis:

The Martyr's Conviction Eugene Weiner, Anita Weiner, 1990 **The Oxford Handbook of the Sociology of Religion** Peter Clarke, 2011-02-04 The Oxford Handbook of the Sociology of Religion draws on the expertise of an international team of scholars providing both an entry point into the sociological study and understanding of religion and an in depth survey into its changing forms and content in the contemporary world The role and impact of religion and spirituality on the politics culture education and health in the modern world is rigorously discussed and debated The study of the sociology of religion forges interdisciplinary links to explore aspects of continuity and change in the contemporary interface between society and religion Using a combination of theoretical methodological and content led approaches the fifty seven contributors collectively emphasise the complex relationships between religion and aspects of life from scientific research to law ecology to art music to cognitive science crime to institutional health care and more The developing character of religion irreligion and atheism and the impact of religious diversity on social cohesion are explored An overview of current scholarship in the field is provided in each themed chapter with an emphasis on encouraging new thinking and reflection on familiar and emergent themes to stimulate further debate and scholarship The resulting essay collection provides an invaluable resource for research and teaching in this diverse discipline The Martyr's Conviction Eugene Weiner, Anita Weiner, 2002 About the linkage between convictions and the individual's willingness to die for them **Rethinking Christian Martyrdom** Matthew Recla, 2022-10-20 This book argues that we have been mistaken about the fundamental assumption that Christianity is the key to understanding the Christian martyr Examining martyrdom in early Christian history Matt Recla argues that the violent deaths of martyrs real and imagined were appropriated for Christian institutional life Through deconstructing martyrdom and appreciating the complexity of the martyr we recognize martyrdom not as a socio historical phenomenon inherent to particular ideologies and not as a religious identity but as the institutional co optation of violence The Christian apologist Tertullian argued that the blood of the martyrs was the seed of the Church but while the seed may be the key to martyrdom the blood is the key to the martyr The book shows how martyrs exceed the bounds of institutional narrative Centering analysis of martyrdom first around the martyr's existential difference and the complex biological psychological and socio cultural factors that lead to willing death this book sheds new light on the motivations of martyrs our fascination with them and the parasitic relationship of religion to violent death In challenging long held beliefs about the praiseworthiness of martyrdom this book is of interest to scholars of religion as well as those concerned about the relationship between religion and violence Jewish Martyrs in the Pagan and Christian Worlds Shmuel Shepkaru, 2006 This book presents a linear history of Jewish martyrdom from the Hellenistic period to the high Middle Ages Following the chronology of sources the study challenges the general consensus that martyrdom was an original Hellenistic Jewish idea Instead Jews like Philo and Josephus internalized the idealized Roman concept of voluntary death and presented it as an old Jewish practice The

centrality of self sacrifice in Christianity further stimulated the development of rabbinic martyrology and the talmudic guidelines for passive martyrdom However when forced to choose between death and conversion in medieval Christendom Ashkenazic Jews went beyond these guidelines sacrificing themselves and loved ones Through death not only did they attempt to prove their religiosity but also to disprove the religious legitimacy of their Christian persecutors While martyrs and martyrologies intended to show how Judaism differed from Christianity they in fact reveal a common mindset

Irenaeus, Joseph Smith, and God-Making Heresy Adam J. Powell, 2015-10-30 Irenaeus Joseph Smith and God Making Heresy seeks both to demonstrate the salience of heresy as a tool for analyzing instances of religious conflict far beyond the borders of traditional historical theology and to illuminate the apparent affinity for deification exhibited by some persecuted religious movements To these ends the book argues for a sociologically informed redefinition of heresy as religiously motivated opposition and applies the resulting concept to the historical cases of second century Christians and nineteenth century Mormons Ultimately Irenaeus Joseph Smith and God Making Heresy is a careful application of the comparative method to two new religious movements highlighting the social processes at work in their early doctrinal developments

The Wiley Blackwell Companion to Christian Martyrdom Paul Middleton, 2020-01-27 A unique wide ranging volume exploring the historical religious cultural political and social aspects of Christian martyrdom Although a well studied and researched topic in early Christianity martyrdom had become a relatively neglected subject of scholarship by the latter half of the 20th century However in the years following the attack on the Twin Towers on September 11 2001 the study of martyrdom has experienced a remarkable resurgence Heightened cultural religious and political debates about Islamic martyrdom have in a large part prompted increased interest in the role of martyrdom in the Christian tradition The Wiley Blackwell Companion to Christian Martyrdom is a comprehensive examination of the phenomenon from its beginnings to its role in the present day This timely volume presents essays written by 30 prominent scholars that explore the fundamental concepts key questions and contemporary debates surrounding martyrdom in Christianity Broad in scope this volume explores topics ranging from the origins influences and theology of martyrdom in the early church with particular emphasis placed on the Martyr Acts to contemporary issues of gender identity construction and the place of martyrdom in the modern church Essays address the role of martyrdom after the establishment of Christendom especially its crucial contribution during and after the Reformation period in the development of Christian and European national building as well as its role in forming Christian identities in Asia Africa and the Americas This important contribution to Christian scholarship Offers the first comprehensive reference work to examine the topic of martyrdom throughout Christian history Includes an exploration of martyrdom and its links to traditions in Judaism and Islam Covers extensive geographical zones time periods and perspectives Provides topical commentary on Islamic martyrdom and its parallels to the Christian church Discusses hotly debated topics such as the extent of the Roman persecution of early Christians The Wiley Blackwell Companion to Christian

Martyrdom is an invaluable resource for scholars and students of religious studies theology and Christian history as well as readers with interest in the topic of Christian martyrdom *Early Christian Literature* Helen Rhee, 2005-04-28 Helen Rhee's outstanding work is the first book to bring together The Apologies and the semi fictional Apocryphal Acts and Martyr Acts in a single study Filling a significant gap in the scholarship she looks at Christian self definition and self representation in the context of pagan Christian conflict Using an interdisciplinary approach historical literary theological sociological and anthropological Rhee studies the Christians in the formative period of their religion from mid first to early third centuries She examines how the forms of Greco Roman society were adapted by the Christians to present the superiority of Christian monotheism Christian sexual morality and Christian dis loyalty to the Empire Tackling broad topics including theology asceticism sexuality and patriotism this book explores issues of cultural identity and examines how these propagandist writings shaped the theological moral and political trajectories of Christian faith and contributed largely to the definition of orthodoxy This thorough study will benefit all students of early Christianity and Greco Roman literary culture and civilization

Hellenism, Early Judaism, and Early Christianity Radka Fialová, Jiří Hoblík, Petr Kitzler, 2022-11-07 Papers collected in this volume try to illuminate various aspects of philosophical theology dealt with by different Jewish and early Christian authors and texts e g the Acts of the Apostles Philo Origen Gregory of Nazianzus rooted in and influenced by the Hellenistic religious cultural and philosophical context and they also focus on the literary and cultural traditions of Hellenized Judaism and its reception e g Sibylline Oracles Prayer of Manasseh including material culture Elephant Mosaic Panel from Huqoq synagogue By studying the Hellenistic influences on early Christianity both in response to and in reaction against early Hellenized Judaism the volume intends not only to better understand Christianity as a religious and historical phenomenon with a profound impact on the development of European civilization but also to better comprehend Hellenism and its consequences which have often been relegated to the realm of political history *Radical Martyrdom and Cosmic Conflict in Early Christianity* Paul Middleton, 2006-06-30 Several view of martyrdom co existed in the early Church The orthodox position generally accepted by scholars was that a Christian should choose martyrdom rather than deny the Faith but should not on any account court death Although it has been recognised that some in the early Church did seek a glorified death by giving themselves over to arrest most scholars have dismissed such acts as differing from the accepted attitude to martyrdom in the early Church Therefore instances of volitional or radical martyrdom have been largely overlooked or sidelined in scholarly investigations into the theology and origins of Christian martyrdom Paul Middleton argues that far from being a deviant strand of early Christianity radical martyrdom was a significant and widely held idealised form of devotion in the late first to early third centuries Christian martyrdom is placed within the heritage of Jewish War tradition with each martyr making an important contribution to the cosmic conflict between Satan and God Radical Martyrdom re examines the presentation theology and origins of Christian martyrdom up to the beginning of the Decian persecutions in the light of new perspectives
