Marvelous Encounters:

Marvelous Encounters Willard Bohn, 2005 The concept of poe^sie critique poetry that possesses both a poetic and a critical function has an extensive history in modern literature Written in response to another work of art be it a painting a film a poem or a piece of music the critical poem comments on the latter in various ways but refuses to abandon its poetic mission *Marvelous Encounters* examines surrealist poets writing in French Spanish and Catalan who experimented with this intriguing genre The first three chapters are concerned with the French surrealists who began to cultivate critical poetry toward the end of World War I Chapter 2 considers how Louis Aragon and Philippe Soupault appropriated the critical poem as they reviewed books of poetry and films starring Charlie Chaplin Chapter 3 which examines how Benjamin Peret and Paul Eluard conceived of critical poetry analyzes their response to poems by Tristan Tzara and paintings by Giorgio de Chirico and Joan Miro Chapter 4 is devoted entirely to Andre Breton

Irony in Action James Fernandez, Mary Taylor Huber, 2001-06 Irony today extends beyond its classification as a figure of speech and is increasingly recognized as one of the major modes of human experience This idea of irony as an integral force in social life is at the center of this provocative book The result of a meeting where anthropologists were invited to explore the politics of irony and the moral responsibilities that accompany its recognition this book is one of

the first to lend an anthropological perspective to this contemporary phenomenon The first group of essays explores the limits to irony's liberating qualities from the constrained use of irony in congressional hearings to its reactive presence amid widening disparities of wealth despite decades of world development The second section presents irony's more positive dimensions through an array of examples such as the use of irony by Chinese writers and Irish humorists Framed by the editors' theoretical introduction to the issues posed by irony and responses to the essays by two literary scholars *Irony in Action* is a timely contribution in the contemporary reinvention of anthropology *Missions of Interdependence*, 2021-11-01

At the beginning of the twenty first century it is necessary to combine into a productive programme the striving for individual emancipation and the social practice of humanism in order to help the world survive both the ancient pitfalls of particularist terrorism and the levelling tendencies of cultural indifference engendered by the renewed imperialist arrogance of hegemonial global capital In this book thirty five scholars address and negotiate in a spirit of learning and understanding an exemplary variety of intercultural splits and fissures that have opened up in the English speaking world Their methodology can be seen to constitute a seminal field of intellectual signposts They point out ways and means of responsibly assessing colonial predicaments and postcolonial developments in six regions shaped in the past by the British Empire and still associated today through their allegiance to the idea of a Commonwealth of Nations They show how a new ethic of literary self assertion interpretative mediation and critical responsiveness can remove the deeply ingrained prejudices silences and taboos established by discrimination against race class and gender *Alien Kind* Rania Huntington, 2003

The China of the Ming and Qing dynasties was well populated with foxes shape changing creatures who transgressed the boundaries of species gender and the metaphysical realm Each section of this book traces a particular boundary violated by the fox and examines how manoeuvres across that boundary change over time **Culture** Martin Puchner, 2023-02-07

A writer of genius William Dalrymple Can anyone really own a culture This magnificent account argues that the story of global civilisations is one of mixing sharing and borrowing It shows how art forms have crisscrossed continents over centuries to produce masterpieces From Nefertiti's lost city and the Islamic Golden Age to twentieth century Nigerian theatre and Modernist poetry Martin Puchner explores how contact between different peoples has driven artistic innovation in every era whilst cultural policing and purism have more often undermined the very societies they tried to protect Travelling through Classical Greece Ashoka's India Tang dynasty China and many other epochs this triumphal new history reveals the crossing points which have not only inspired the humanities but which have made us human *Encountering Ephemera 1500-1800* Joshua B. Fisher, Rebecca Steinberger, 2014-07-24

This volume addresses two key questions 1 How can ephemera be understood as a critical category of literary and historical inquiry and 2 How can ephemera serve pedagogical purposes in the classroom Each of the essays in *Encountering Ephemera 1550-1800* Scholarship Performance Classroom addresses these questions by exploring a diverse range of materials as well as periods The essays collectively work to define ephemera as a

complex and multi faceted critical category in terms of its literary cultural and historical significance Each contributor works to complicate the traditional binary opposition between the ephemeral transitory and the canonical enduring in part by recognizing how attending to the material processes of textual production transmission and dissemination highlights the potential instability and mutability of texts and textual relationships whether discussing broadside ballads or coterie poetry By shifting the focus to the processes by which texts are constructed and construed the prospect of recognizing any text regardless of its canonical status as a static and fixed entity becomes difficult and in turn the ephemeral qualities that define and constitute the text s materiality come more sharply into focus Along these lines the ephemeral spaces across and between discourses what might be called the ephemera of cultural poetics play a key role in shaping literary texts Thus early modern and eighteenth century ephemera constitute both the material texts not intended to last or designed for limited cultural life and the process fleeting and transitory aspects of cultural production Whether discussing the circulation of cheap print the performative traces of music and gesture in Shakespeare s plays or the diffuse cultural influences that both surround and pervade literary texts attending to ephemeral matters underscores the dynamic unfixedness of early modern and eighteenth century cultural practices
