Marxism An Autopsy:

Marxism Henry Bamford Parkes (historien.),1964 **Marxism, an Autopsy** Henry Bamford Parkes,1964 *Marxism* Michael Curtis,1997-01-01 *Marxism The Inner Dialogues* covers a wide range of basic issues and problems arising from what has been said for against and about Marxism This is a rich and systematic collection of writings by the foremost authorities on the subject in the world The book provides the most inclusive and lasting analysis of Marxist thought available Curtis has confronted current problems in Marxist studies in the context of the classic concerns of Western thought **The Open Society and Its Enemies** Karl R. Popper,2013-04-21 One of the most important books of the twentieth century Karl Popper s *The Open Society and Its Enemies* is an uncompromising defense of liberal democracy and a powerful attack on the intellectual origins of totalitarianism Popper was born in 1902 to a Viennese family of Jewish origin He taught in Austria until 1937 when he emigrated to New Zealand in anticipation of the Nazi annexation of Austria the following year and he settled in England in 1949 Before the annexation Popper had written mainly about the philosophy of science but from 1938 until the end of the Second World War he focused his energies on political philosophy seeking to diagnose the intellectual origins of German and Soviet totalitarianism *The Open Society and Its Enemies* was the result An immediate sensation when it was first published in two volumes in 1945 Popper s monumental achievement has attained legendary status on both the Left and Right and is credited with inspiring anticommunist dissidents during the Cold War Arguing that the spirit of free critical inquiry that governs scientific investigation should also apply to politics Popper traces the roots of an opposite authoritarian tendency to a tradition represented by Plato Marx and Hegel In a substantial new introduction written for this edition acclaimed political philosopher Alan Ryan puts Popper s landmark work in biographical intellectual and historical context Also included is a personal essay by eminent art historian E H Gombrich in which he recounts the story of the book s eventual publication despite numerous rejections and wartime deprivations **Karl Marx and Friedrich Engels (RLE Marxism)** Cecil L. Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels *The Open Society and Its Enemies* Karl Popper,2012-11-12 If in this book harsh words are spoken about some of the greatest among the intellectual leaders of mankind my motive is not I hope to belittle them It springs rather from my conviction that if our civilization is to survive we must break with the habit of deference to great men Karl Popper from the Preface Written in political exile during the Second World War and first published in two volumes in 1945 Karl Popper s *The Open Society and Its Enemies* is one of the most influential books of all time Hailed by Bertrand Russell as a vigorous and profound defence of democracy its now legendary attack on the philosophies of Plato Hegel and

Marx exposed the dangers inherent in centrally planned political systems and through underground editions become an inspiration to lovers of freedom living under communism in Eastern Europe Popper s highly accessible style his erudite and lucid explanations of the thoughts of great philosophers and the recent resurgence of totalitarian regimes around the world are just three of the reasons for the enduring popularity of *The Open Society and Its Enemies* and why it demands to be read today and in years to come *The Open Society and Its Enemies* Karl Raimund Popper,2002 Popper s legendary attack on the philosophies of Plato Hegel and Marx prophesied the collapse of communism in Eastern Europe and exposed the fatal flaws of socially engineered political systems Available here in a special single volume edition **From Dialogue to Epilogue Marxism and Catholicism Tomorrow** Frederick J. Adelman,2012-12-06 This is an authentic book Its style fits its situation The encounter between Marxism and Catholicism was yesterday diatribe is today dialogue and tomorrow will be epilogue The virtue of Father Adelman s writing is to make us aware that we are in via Happenings are everywhere not just in hippieland In Salzburg and South Bend in Chiem see and Cambridge conversations are going on conversations that are no less than confessions For Catholics and Marxists are listening to each other and are changing their minds It has been the peculiar good fortune of the author of this book to have been both recorder and participant in these changes He has experienced the transition from diatribe to dialogue in his own thoughts and feelings and he has here written not an outsider s account but an insider s recounting He is not simply this volume s author but also one of its case of characters Hence the style of his writing is apperceptively autobiographical It fits the situation He is a character in a play who is also that drama s author His essay then is not simply a discussion of the relation between Catholicism and Marxism today but is a contribution to ward a new relation between them and tomorrow **Karl Marx and Friedrich Engels** Cecil Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels **The Failure of Marxism** David Campbell,1996 A study on the concept of inversion in Marx s critique of capitalism This volume includes references to Hegel on the unity of subject and object Smith and Ricardo on the falling rate of profit and the concepts of capitalism and socialism
