David MacGregor

Marxism And Hegel:

Marx and Hegel on the Dialectic of the Individual and the Social Sevgi Dogan, 2018-08-15 Marx and Hegel on the Dialectic of the Individual and the Social is a detailed investigation of the major works of Hegel and the young Marx with exploring how the concept of the individual is positioned within their ontologies and how this positioning is reflected in their related political views Instead of contrasting a Marxist understanding of the individual with that of a liberal thinker Sevgi Dogan chooses to take Hegel's theory of the state as representative of the modern state which Marx criticizes The decision to be in opposition to Hegel rather than some other liberal thinkers is important for two reasons First since Marx has developed many of his early ideas in critical interaction with Hegel this comparative approach enables the book to present a more thorough and well grounded exposition of Marx's arguments Second since Hegel himself has also criticized the concepts of liberal ideology in many respects differentiating Marx's arguments from those of Hegel's enables the book to underline how and why Hegel's critique of liberal ideology falls short of actually empowering individuals in the way that Marx's account does *Marxism and Hegel* Lucio Colletti, 1979 **Hegel, Marx and Dialectic** Richard J. Norman, Sean Sayers, 1980 A lively and provocative debate on the nature of Hegelian and Marxist dialectic and the relation between them A direct and explicit definition of dialectic is given and by sustained debate the dialectical idea of the fruitfulness of contradiction is exemplified in practice The author relate their accounts of dialectic both to recent discussion in the Marxist tradition Sartre Colletti Althusser and to work in the analytical tradition of philosophy thus initiating a dialogue between two as yet hardly related philosophical traditions The clarity and directness of this collection and its complete avoidance of dogmatism make it an invaluable work for anyone interested in the fundamental questions of philosophy Back cover **Divergent Paths: The Hegelian foundations of Marx's method** Norman Levine, 2006-01-01 Divergent Paths is the first in a series of three volumes that explores the historiography of the relationship between Hegel and Marx it sets the terms of the relationship between Marx and Engels and explores the genesis of the theories of Marxism and Engelsism from the late 19th century to the present day Given the vast pool of contemporary post Marxist theoretical work a study like this is sorely needed This is the most thorough exploration of Marx's ideas from Hegel through to the present day and is absolutely essential reading Marx's Discourse with Hegel N. Levine, 2012-02-21 The end of Stalinist Russia China's change under Deng Xiaoping and the publication of previously unexplored documents of Marx in the MEGA2 opened a new epoch in the analysis of Marx Marx's Discourse With Hegel is both a product and contribution to this rebirth of Marxism by its reformulation of the relationship between Hegel and Marx From Marx to Hegel George Lichtheim, 1971 From Marx to Hegel and Back Victoria Fareld, Hannes Kuch, 2020-01-09 The relation between Hegel and Marx is among the most interpreted in the history of philosophy Given the contemporary renaissance of Marx and Marxist theories how should we re read the Hegel Marx connection today What place does Hegel have in contemporary critical thinking Most schools of Marxism regard Marx's

inversion of Hegel's dialectics as a progressive development leaving behind Hegel's idealism by transforming it into a materialist critique of political economy. Other Marxist approaches argue that the mature Marx completely broke with Hegel. By contrast, this book offers a wide-ranging and innovative understanding of Hegel as an empirically informed theorist of the social, political, and economic world. It proposes a movement from Marx to Hegel and back by exploring the intersections where the two thinkers can be read as mutually complementing or even reinforcing one another. With a particular focus on essential concepts like recognition, love, revolution, freedom, and the idea of critique, this new intervention into Hegelian and Marxian philosophy unifies the ethical content of Hegel's philosophy with the power of Marx's social and economic critique of the contemporary world.

Studies on Marx and Hegel Jean Hyppolite, 1969

The Communist Ideal in Hegel and Marx (RLE Marxism) David MacGregor, 2015-04-24

One reader has called this study, first published in 1984, easily the best book on the relation of Hegel to Marx. With spirited argument, MacGregor demonstrates that Hegelian logic suited Marx's purpose so well because it already contained the unique elements that later appeared in Marx's social theory, including the notions of surplus value and the transition to communism. The most exciting thing about the book is the clear demonstration that the mature Marx gets ever closer to Hegel and is increasingly indebted to him. In short, the author gives us a new Hegel and a new Marx. In a manner both original and penetrating, MacGregor shows that dialectical logic is pre-eminently social logic, a reconstruction in thought of social relationships and social structure. Central to the work is the examination of the Philosophy of Right in which Hegel delineated a theory of modern capitalist society. MacGregor provides a compelling analysis of Hegel's importance for Lenin and a strong caveat that contemporary Marxism ignores Hegel to its own peril. MacGregor establishes that Hegel's absolute idealism is founded on a theory of the dialectics of labour, similar to Marx's historical materialism. Another significant discovery elucidates Hegel's concept of poverty as the missing link which joins Marx's formulation to classical liberal theory.

The Power of Negativity Raya Dunayevskaya, 2001-11-13

Raya Dunayevskaya is hailed as the founder of Marxist Humanism in the United States. In this new collection of her essays, co-editors Peter Hudis and Kevin B. Anderson have crafted a work in which the true power and originality of Dunayevskaya's ideas are displayed. This extensive collection of writings on Hegel, Marx, and dialectics captures Dunayevskaya's central dictum: that contrary to the established views of Hegelians and Marxists, Hegel was of signal importance to the theory and practice of Marxism. *The Power of Negativity* sheds light not only on Marxist Humanism and the rooting of Dunayevskaya's Marxist Humanist theories in Hegel but also on the life of one of America's most penetrating and provocative critical thinkers.
