Marxism In Our Time:

And in Our Time Antony Shuttleworth, 2003 This book brings together essays which in diverse ways not only revise existing views on thirties writing but also provide ways of accounting for its critical neglect The essays examine from a variety of theoretical and critical perspectives a body of work that reflects the true diversity of the literary and cultural contexts of the thirties and includes studies on the work of Louis MacNeice Frank Sheed Christopher Dawson Alick West Christopher Caudwell Stevie Smith Storm Jameson Phyllis Bottome Ivy Compton Burnett Graham Greene Eric Ambler George Orwell Christina Stead Randall Swingler and Ralph Fox **Marxism in Our Time** Isaac Deutscher, 1971 Human Rights

In Our Time Marc F. Plattner, 2019-03-04 In the past decade human rights as a component of U S foreign policy has been the subject of intense debate First brought to the forefront by President Carter it has also turned out to be one of the most controversial aspects of foreign policy during the Reagan administration Policymakers who attempt to cope with human rights issues are immediately confronted with questions not only about the basic purposes of U S foreign policy but also about the essential nature of our political system they are compelled to reflect upon the interrelationship between domestic public opinion and the pursuit of U S interests abroad The complexity of human rights issues is reflected in the diverse contributions to this book The authors examine the philosophical foundations of human rights the lessons of history that are relevant to today's concerns and contemporary policy A concluding essay provides a critical analysis of the arguments made by the authors In Our Time Verity Burgmann, 1985-01-01 For many Australian working men and women in the closing

days of the nineteenth century SOCIALISM IN OUR TIME was no mere slogan The deepening economic depression cut living standards increased class conflict and tested the newborn trade unions to breaking point In this climate the message of socialist agitators made sense of the experience of the most vulnerable capitalism was doomed socialism was not only inevitable it was imminent This is the story of a crucial time in the political history of Australia told from the perspective of the agitators and their followers By uncovering state by state the hitherto ignored faith and work of the tribunes of the people and the organisations created by their working class supporters In Our Time challenges the accepted versions of the social and political ferment which gave rise to the labour movement and its parliamentary expression the Labor parties

Great Speeches Of Our Time Hywel Williams, 2014-08-12 Let each know that for each the body the mind and the soul have been freed to fulfill themselves These powerful words spoken by Nelson Mandela in his inaugural address as the new president of South Africa are taken from just one of the forty important and thought provoking speeches in this collection Ranging from 1945 to the present day they provide an important insight into the modern world Inspirational speeches by Winston Churchill Mikhail Gorbachev Martin Luther King Barack Obama and many others are supplemented with biographies of each speaker as well an exploration of their words significance and an historical account of the consequences of their oratory This is a history of the recent and contemporary world told through the speeches that shaped it **America**

in Our Time Godfrey Hodgson, 2005 With a new afterword by the author **Politics, Ethics and Culture in Our Time** Harry Redner, 2023-01-30 Global capitalism is effecting changes in human life as momentous as those that occurred during the Neolithic Revolution the Axial Age 700 300 BC and the modern era post 1500 when industrial capitalism state power and science reshaped the civilized world The transformation is paradoxical however Science and technology ensure material progress but the market promotes cultural obsolescence and erodes belief in the Enlightenment ideals that inspired the quest for progress In Western democracies liberty and equality are proving irreconcilable citizens becoming demoralized fraternity fractured meanwhile despotic Eurasian states are recycling old faiths and concocting neo imperialist ideologies These contradictions must be confronted if the cultural values that sustain civilized life are to be conserved **Revolution in Our Time: The Black Panther Party's Promise to the People** Kekla Magoon, 2021-11-08 A National Book Award Finalist A Coretta Scott King Author Award Honor Book A Michael L Printz Honor Book A Walter Dean Myers Honor Book With passion and precision Kekla Magoon relays an essential account of the Black Panthers as militant revolutionaries and as human rights advocates working to defend and protect their community In this comprehensive inspiring and all too relevant history of the Black Panther Party Kekla Magoon introduces readers to the Panthers community activism grounded in the concept of self defense which taught Black Americans how to protect and support themselves in a country that treated them like second class citizens For too long the Panthers story has been a footnote to the civil rights movement rather than what it was a revolutionary socialist movement that drew thousands of members mostly women and became the target of one of the most sustained repression efforts ever made by the U S government against its own citizens Revolution in Our Time puts the Panthers in the proper context of Black American history from the first arrival of enslaved people to the Black Lives Matter movement of today Kekla Magoon's eye opening work invites a new generation of readers grappling with injustices in the United States to learn from the Panthers history and courage inspiring them to take their own place in the ongoing fight for justice **Trotsky, Trotskyism and the Transition to Socialism** Peter Beilharz, 2019-11-19 First published in 1987 Trotskyists have long dominated the revolutionary tradition on the Western left Written from a critical socialist standpoint this book provides an analysis of Trotskyism and argues that Trotskyism is increasingly irrelevant as a means of achieving socialism It argues that as the realisation grows that the revolutionary tradition and the authoritarianism which necessarily result from it are wrong the importance of the problem of the transition to socialism increases It argues that on this point Trotskyism is weak that Trotskyism's proposals for socialist transition are largely rhetorical and that its democratic impulse is weak It supports this argument by showing that Trotsky's philosophy of history implicit in his writings which the author characterises as evolutionary and necessitarian coupled with a failure to grasp the moral basis of the socialist case has a disabling effect on Trotsky's account of the transition to socialism and on his explanation of Stalinism Moreover it argues that Trotsky's intellectual and political heirs have been unable to escape from the contradictions inherent in his thought

Menace of Our Time Aaron J. Leonard, 2025 Beginning at the turn of the century and ending only with communism's collapse the US government and major elements in the wider society undertook an unrelenting effort to suppress and criminalize domestic communism This book tracks those efforts from the state laws of the twenties that imprisoned the fledgling communist leadership the efforts by police and local authorities against communists as they fought for unions racial equality and the unemployed the trials and imprisonment of communist leaders mid century the extra legal efforts of the Counterintelligence Program COINTELPRO in the sixties and the ongoing relentless attention by the FBI afterward This is a long overdue book about the most extensive repressive effort ever undertaken by US authorities against a political organization that however problematic was largely operating within the scope of constitutionally mandated freedoms
