Spectacular Blackness Amy Abugo Ongiri, 2010 Exploring the interface between the cultural politics of the Black Power and the Black Arts movements and the production of postwar African American popular culture Amy Ongiri shows how the reliance of Black politics on an oppositional image of African Americans was the formative moment in the construction of authentic blackness as a cultural identity While other books have adopted either a literary approach to the language poetry and arts of these movements or a historical analysis of them Ongiri's captures the cultural and political interconnections of the postwar period by using an interdisciplinary methodology drawn from cinema studies and music theory She traces the emergence of this Black aesthetic from its origin in the Black Power movement's emphasis on the creation of visual icons and the Black Arts movement's celebration of urban vernacular culture **Norman Podhoretz** Thomas L. Beyond Fred M. Frohock, 2010-03-03 Is death the final event in human life or does another existence follow What are the signs and possible proofs of such continuity Such questions have sparked speculation in philosophy religion art and science

throughout human history and remain a familiar concern for even the most casual observer of the human condition In his provocative new book Fred Frohock explores the possibility that our existence is neither defined by nor limited to the purely physical nor is it terminated at death Fearlessly pursuing such a sensitive subject Frohock suggests that death's domain may not be quite the undiscovered country lamented by Hamlet He wades boldly into the debates between hardcore materialists and devout spiritualists provides glimpses of recent findings in brain research the so called mind body problem and consciousness studies and in general offers an idiosyncratic introduction to some of the most provocative and least understood aspects of what we call conscious life In the process he provides fresh insights into the narratives claims and conundrums associated with life after death near death and out of body experiences reincarnation and a host of psychic phenomena that continue to puzzle the experts Demonstrating a keen grasp of subjects ranging from neurochemistry to popular culture Frohock is a sure footed tour guide through a richly diverse field of research He considers what past life regression therapy suggests about reincarnation assessing the credibility of pioneering research by Brian Weiss and Ian Stevenson He introduces readers to the work of the University of Virginia's Near Death Experience Project with reports stretching back 35 years and the Human Consciousness Project's study of 1 500 survivors of cardiac arrest And he contemplates whether people in permanent vegetative states like Terri Schiavo and Sunny von Blow are alive or not and what these transitional states tell us about death Leavened with humor and a Renaissance style intellect that draws in Tolstoy and Hemingway along with films like Solaris and Blade Runner Frohock's deep meditations are deftly interposed with brief fictional interludes that humanize his book's more abstract dimensions while exploring claims about the supernatural Approaching the world's most baffling subjects with a critical eye an open mind and an agnostic's heart Beyond looks beyond the last threshold and points the way toward a better understanding of human existence

**Relations in Public** Erving Goffman, 2017-07-28 Until recently to be in a public place meant to feel safe That has changed especially in cities Urban dwellers sense the need to quickly react to gestural cues from persons in their immediate presence in order to establish their relationship to each other Through this communication they hope to detect potential danger before it is too late for self defense or flight The ability to read accurately the informing signs by which strangers indicate their relationship to one another in public or semi public places without speaking has become as important as understanding the official written and spoken language of the country In Relations in Public Erving Goffman provides a grammar of the unspoken language used in public places He shows that the way strangers relate in public is part of a design by which friends and acquaintances manage their relationship in the presence of bystanders He argues that taken together this forms part of a new domain of inquiry into the rules for co mingling or public order Most people give little thought to how elaborate and complex our everyday behavior in public actually is For example we adhere to the rules of pedestrian traffic on a busy thoroughfare accept the usual ways of acting in a crowded elevator or subway car grasp the delicate nuances of conversational behavior and respond to the rich vocabulary of body gestures We behave differently at weddings at meals in crowds in couples and when alone Such everyday behavior though generally below the level of awareness embodies unspoken codes of social understandings necessary for the orderly conduct of society
