Andrew Bradstock, Christopher Rowland, 2002-03-01 This volume which fills a gap in the current literature will be essential reading for third year undergraduates and above in Biblical studies **Public Theology for the 21st Century**

Duncan B. Forrester, William Storrar, Andrew Morton, 2004-01-01 The book is a unique stocktaking by a leading international group of theologians social scientists and other scholars on issues facing public theology at the beginning of the 21st century It combines retrospect and prospect in that it reflects on the issues and approaches that have characterized public theology in the 20th century especially its latter half and attempts to anticipate those which will or should come to the fore in the 21st century seeking to discern continuities and changes Three opening chapters deal with the overall theme of public or political theology with Jurgen Moltmann giving a critical historical account from the Second World War onwards Raymond Plant relating such theology to cultural pluralism and Andrew Morton illustrating it from the work of Duncan Forrester These are followed by pairs of contributions relating public theology to more specific topicsr History Technology and Creation Globalization Spirituality Punishment and Forgiveness Medical Ethics Tolerance and Human Rights Social Exclusion and Equality **The Cambridge Companion to Christian Political Theology** Craig Hovey, Elizabeth Phillips, 2015-11-18

Interest in political theology has surged in recent years and this accessible volume provides a focused overview of the field Many are asking serious questions about religious faith in secular societies the origin and function of democratic polities worldwide economic challenges the shift of Christianity's center of gravity to the global south and anxieties related to bold and even violent assertions of theologically determined political ideas In fourteen original essays authors examine Christian political theology in order to clarify the contemporary discourse and some of its most important themes and issues These include up to date critical engagements with historical figures like Augustine Thomas Aquinas and Immanuel Kant discussions of how the Bible functions theopolitically and introductions to key movements such as liberation theology Catholic social teaching and radical orthodoxy An invaluable resource for students and scholars in theology the Companion will also be beneficial to those in history philosophy and politics *Faith-based Radicalism* Christiane Timmerman, 2007 Terror attacks against Western symbols of power suicide terrorism in Chechnya or bombing of abortion clinics in the United States these are a few of the violent religious outbursts that the media never seem to stop broadcasting While these outbursts are mostly linked to Islamic extremism it should however be acknowledged that every religion has its own violent side Despite all the events the media are too prompt to show us it would be dishonest and insensible not to accept that every religion has also a potential for religious peace building and communal renewal How can it be explained then that religions sometimes react violently against the society surrounding them by trying to overthrow it while at some other times they

willingly help and try to build a better world for everyone The University Centre Saint Ignatius Antwerp organised an interdisciplinary summer seminar in September 2005 and gathered senior scholars all experts in their own fields and junior scholars who will be the experts of tomorrow from all over the world to discuss these burning issues The seminar focused on miscellaneous topics all pointing towards the question of religion and society like literalism and the Holy texts the ambivalence of faith based radicalism the psychology of religion and terrorism nationalism and religion and religious social movements Publisher A Theology of Community Organizing Chris Shannahan,2013-11-12 The rising importance of community organizing in the US and more recently in Britain has coincided with the developing significance of social movements and identity politics debates about citizenship social capital civil society and religion in the public sphere At a time when participation in formal political process and membership of faith groups have both declined dramatically community organizing has provided a new opportunity for small community groups marginalized urban communities and people of faith to engage in effective political action through the developments of inter faith and cross cultural coalitions of groups In spite of its renewed popularity little critical attention has been paid to community organizing This book places community organizing within debates about the role of religion in the public sphere and the rise of public theology in recent years The book explores the history methodology and achievements of community organizing engaging in a series of conversations with key community organizers in the US and Britain This volume breaks new ground by beginning to articulate a cross cultural and inter faith Theology for Community Organizing that arises from fresh readings of Liberation Theology **Theological Reflection: Methods, 2nd Edition** Elaine Graham,Heather Walton ,Frances Ward ,2019-02-27 Theological Reflections Methods offers a comprehensive collection of models of theological reflection By bringing this diverse collection together in one place the editors create a unique reference work that allows a clear and visible contrast and comparison as each model is treated formally and in a standard format Throughout each chapter the distinguishing features of the model are examined the geneology and origins are discussed worked examples of the model applied to contemporary theology are provided and critical commentary future trends and exercises and questions are provided Now firmly established as an essential text on theological reflection this new edition has been revised and updated with a new introduction updated examples and refreshed bibliographies *Cultures of Eschatology* Veronika Wieser,Vincent Eltschinger,Johann Heiss,2020-07-20 In all religions in the medieval West as in the East ideas about the past the present and the future were shaped by expectations related to the End The volumes Cultures of Eschatology explore the many ways apocalyptic thought and visions of the end intersected with the development of pre modern religio political communities with social changes and with the emergence of new intellectual and literary traditions The two volumes present a wide variety of case studies from the early Christian communities of Antiquity through the times of the Islamic invasion and the Crusades and up to modern receptions from the Latin West to the Byzantine Empire from South Yemen to the Hidden Lands of Tibetan

Buddhism Examining apocalypticism messianism and eschatology in medieval Christian Islamic Hindu and Buddhist communities the contributions paint a multi faceted picture of End Time scenarios and provide their readers with a broad array of source material from different historical contexts The first volume Empires and Scriptural Authorities examines the formation of literary and visual apocalyptic traditions and the role they played as vehicles for defining a community s religious and political enemies The second volume Time Death and Afterlife focuses on key topics of eschatology death judgment afterlife and the perception of time and its end It also analyses modern readings and interpretations of eschatological concepts Wiley Blackwell Companion to Political Theology William T. Cavanaugh, Peter Manley

Scott, 2019-03-11 Offers a comprehensive survey and interpretation of contemporary Christian political theology in a newly revised and expanded edition This book presents the latest thinking on the topic of contemporary Christian political theology with original and constructive essays that represent a range of opinions on various topics With contributions from expert scholars in the field it reflects a broad range of methodologies ecclesial traditions and geographic and social locations and provides a sense of the diversity of political theologies It also addresses the primary resources of the Christian tradition which theologians draw on when constructing political theologies and surveys some of the most important figures and movements in political theology This revised and expanded edition provides the most comprehensive and accessible introduction to this lively and growing area of Christian theology Organized into five sections Wiley Blackwell Companion to Political Theology Second Edition addresses the many changes that have occurred over the last 15 years within the field of political theology It features new essays that address social developments and movements such as Anglican Social Thought John Milbank Anabaptist Political Theologies African Political Theologies Postcolonialism Political Economy Technology and Virtuality and Grass roots Movements The book also includes a new essay on the reception of Liberation Theology Offers essays on topics such as the Trinity atonement and eschatology Features contributions from leading voices in the field of political theology Includes all new entries covering fresh developments and movements like the urgency of climate change virtuality and the digital age the economic crisis of 2008 the discourse of religion and violence and new modalities of war Addresses some important social movements from a theological point of view including postmodernism grass roots movements and more Provides both Islamic and Jewish responses to political theology Written for academics and students of political theology Wiley Blackwell Companion to Political Theology 2nd Edition is an enlightening read that offers a wide range of authoritative essays from some of the most notable scholars in the field *Reading Texts, Seeking Wisdom* David F. Ford, Graham Stanton, 2004 Eighteen leading scripture scholars and theologians engage with key issues and texts to do with scripture and theology They look at how the Bible and theology have come together in the past in Judaism the early Church the Middle Ages early modernity and the 20th century How is current biblical scholarship to be related to past insights and modern methods Contributors debate how wisdom is to be related to faith and to reason **Voices from the Borderland**

Chris Shannahan,2016-04-01 Urban theology affirms the importance of context notably the place of the city in theological reflection However it has often been confined to particular contexts or theological camps and thus failed to engage with the fluidity of contemporary urban societies Voices from the Borderland presents an overview of urban theology arguing that the twenty first century demands a dialogical model of theology that enacts progressive change The volume draws on studies of the multicultural and multi faith British urban experience and situates these within the wider international context The works of influential theologians in the field are examined and the dialogue between theology globalisation post colonialism postmodernism and post religious urban culture critically explored The volume is unique in bringing together urban liberation theology urban black theology reformist urban theology globalisation urban theology and post religious urban theology A Theology of International Development Thia Cooper,2020-02-05 Religion and development have been

intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world s poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian practices It will be an important read for religion and development researchers practitioners and students **Encyclopedia of New Religious Movements** Peter

Clarke,2004-03-01 New Religious Movements NRMs can involve vast numbers of followers and in many cases are radically changing the way people understand and practice religion and spirituality Moreover many are having a profound impact on the form and content of mainstream religion The Encyclopedia of New Religious Movements provides uniquely global coverage of the phenomenon with entries on over three hundred movement from almost every country in the world Coverage includes movements that derive from the major religions of the world and to neo traditional movements movements often overlooked in the study of NRMs In addition to the coverage of particular movements there are also entries on topics themes key thinkers and key ideas for example the New Age Movement Neo Paganism New Religion and gender NRMs and cyberspace NRMs and the law the Anti Cult Movement Swedenborg Jung Teilhard de Chardin Lovelock Gurdjieff al Banna Qutb The marked global approach and comprehensiveness of the encyclopedia enable an appreciation of the innovative

energy of NRMs of their extraordinary diversity and the often surprising ways in which they can propagate geographically. The most ambitious publication of its sort the Encyclopedia of New Religious Movements is a major addition to the reference literature for students and researchers of the field in religious studies and the social sciences. Entries are cross referenced with short bibliographies for further reading. There is a full index.

Post-Colonial Theology Robert S. Heaney, 2019-05-08
 Hate is unveiled on our streets. Politics is polarized and the cohesion of communities is under stress and threat. Religious and theological leaders appear compromised or paralyzed. Robert S. Heaney grew up in a Northern Ireland where enmity paraded itself and policed the boundaries between segregated identities and aspirations. Such conflict with deep historic roots is inextricably linked to religion and colonization. The theologizing of colonialism and the ongoing implications of colonialism cannot be ignored by those who wish to understand the most intractable of human conflicts. Religious adherents and scholars are increasingly seeking to understand colonialism and decolonization in theological terms. The field of post colonial studies across a range of contexts and in a complex network of inter disciplinary analyses has emerged as a major scholarly movement seeking to provide resources for such a task. Theologians have increasingly seen the field as a resource and have made their own contributions to its development. However depending as it does on a series of theoretical and technical commitments post colonialism remains inaccessible to the uninitiated. Beginning with his own particular context of formation in this book Heaney provides an accessible introduction to post colonial theology.

Orthodoxy and Anarchism Davor Džalto, 2024-03-26 This book brings together essays by contemporary Orthodox theologians and scholars on Orthodox Christianity that analyze various aspects of the complex relationship between anarchism both as a concept and as a political philosophy and Orthodoxy As many studies have already shown the dominant theological approaches in Orthodox political theology have been characterized by the search for some kind of symphonia where a harmonious and mutually beneficial cooperation between the Church and the State has been sought Although one can see many alternative attempts in contemporary Orthodox political theology to move away from traditional monarchical and autocratic symphonic models the fact remains that most of those approaches still tend to provide theological articulations that rationalize and ultimately defend the dominant ideological systems such as those of the nation state or liberal democracy for instance There has been however another marginal and marginalized tradition in Orthodox Christian political theology which can be labelled as anarchist The purpose of this volume is to gather contemporary voices in and on Orthodox theology that explore this tradition in the history of Orthodox Christianity or that themselves employ an anarchist approach to the socio political sphere including the Church in its institutional functioning
