A History of Modern Political Thought in East Central Europe Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, 2018-10-18 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond

Authoritarian Diffusion and Cooperation André Bank, Kurt Weyland, 2020-04-02 To shed light on the global reassertion of authoritarianism in recent years this volume analyses transnational diffusion and international cooperation among non democratic regimes How and with what effect do authoritarian regimes learn from each other For what purpose and how successfully do they cooperate The volume highlights that present day autocrats pursue mainly pragmatic interests rather than ideological missions Consequently the connections among authoritarian regimes have primarily defensive purposes especially insulation against democracy promotion by the West As a result the authors do not foresee a major recession of democracy as occurred with the rise of fascism during the interwar years The chapters in this book were originally published in a special issue of Democratization

Party System Closure Fernando Casal Bértoa, Zolt Enyedi, 2021-05-09 Party System Closure maps trends in interparty relations in Europe from 1848 until 2019 It investigates how the length of democratic experience the institutionalization of individual parties the fragmentation of parliaments and the support for anti establishment parties shape the degree of institutionalization of party systems The analyses presented answer the questions of whether predictability in partisan interactions is necessary for the survival of democratic regimes

and whether it improves or undermines the quality of democracy The developments of party politics at the elite level are contrasted with the dynamics of voting behaviour The comparisons of distinct historical periods and of macro regions provide a comprehensive picture of the European history of party competition and cooperation The empirical overview presented in the book is based on a novel conceptual framework and features party composition data of more than a thousand European governments Party systems are analysed in terms of poles and blocs and the degree of closure and of polarization is related to a new party system typology The book demonstrates that information collected from partisan interactions at the time of government formation can reveal changes that characterise the party system as a whole The empirical results confirm that the Cold War period 1945 1989 was exceptionally stable while the post Berlin Wall era shows signs of disintegration although more at the level of voters than at the level of elites After three decades of democratic politics in Europe 1990 2019 the West and the South are looking increasingly like the East especially in terms of the level of party de institutionalization The West and the South are becoming more polarised than the East but in terms of parliamentary fragmentation the party systems of the South and the East are converging while the West is diverging from the rest with its increasingly high number of parties As far as our central concept party system closure is concerned thanks to the gradual process of stabilization in the East and the recent de institutionalization in the West and South the regional differences are declining Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Susan Scarrow Chair of the Department of Political Science University of Houston and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich

The Horror of Himmler's Death Squads Norman Ridley, 2024-09-30 During the Second World War Lithuania Latvia and Estonia were occupied on three separate occasions twice by the Soviet Union and once by Nazi Germany The signing of the Ribbentrop Molotov Pact of 1939 allowed the Soviets to dominate the Baltic states without fear of German reprisals causing many in the German Baltic populations to flee to Poland Soviet rule of the Baltics was brutal with the purging of political elites and deportation of many tens of thousands in a bid to turn them into vassal states Consequently when Hitler launched Operation Barbarossa in June 1941 many Balts saw it as a liberation from Soviet cruelties The reality was however that it turned out to be the beginning of something much worse During their occupation of Poland prior to Barbarossa the Nazis had decimated the Polish political elites and the Jews there had been herded into ghettos in preparation for deportation to the east where they would serve as slave labour in the Nazi economy after the conquest of the Soviet Union Similar policies were to be adopted in the Baltics when Heinrich Himmler's murder squads the Einsatzgruppen were allowed to move into the newly occupied territories Operating behind the advancing German forces Einsatzgruppen A B C and D four special mobile killing

units each made up of about a thousand men from the security police and the German intelligence service proved to be more than willing to carry out Himmler's orders. He had called for the removal of every vestige of opposition to Nazi rule which primarily meant complete elimination of the inferior races who were unfit for work and the ghettoization of others in preparation for their economic exploitation. On foreign soil away from scrutiny and free of all constraint the Einsatzgruppen discovered that through the mass shootings of communists, Jews and gypsies it was possible to accelerate the pace of the Holocaust slaughtering men, women and children in their tens of thousands. The Einsatzgruppen were assisted by local volunteers who helped to identify victims as well as kill them in places where Jewish communities were swiftly eliminated. Many of the killers and victims had known one another as neighbors and colleagues. This massive slaughter of civilians convinced Heydrich and Himmler that complete extermination of Jews was within their grasp and before very long in the death camps new industrial methods of killing would be devised. The History of the Baltic States Kevin C.

O'Connor, 2015-06-04. Updating the popular 2003 first edition, this book is a narrative history of the Baltic States with particular focus on the events of the 20th and 21st centuries. The Baltic States, Estonia, Latvia and Lithuania, were granted independence from the Soviet Union in 1991. Since then the three countries have struggled with sluggish economies, tensions with Russia and government corruption. This extensively updated second edition of a well-regarded reference illuminates the events of the last decade including the acceptance of all three nations into the European Union in 2004. Although it concentrates on the 20th and 21st centuries, the wide-ranging work covers major historical currents that have swept through Europe from the age of the Crusades through two world wars and into modern times. Updates include events that have occurred since 2003 such as the area's declining birth rates and inflation problems that led to the European Union denying the adoption of the Euro in Lithuania. A new chapter entitled 'The Totalitarian Experience 1940-1953' focuses specifically on the major tragedies of the 20th century: the Baltic States' loss of independence, their conquest by Nazi Germany, the Holocaust and the horrors of the first years of Soviet rule. Historical controversies concerning World War II and the Soviet era are also addressed. Additionally, the 'Notable Figures' section has been updated; the bibliography now includes many electronic resources and photographs have been added. **The Baltic Sea Region: A Comprehensive Guide** Bernd

Henningsson, Tobias; Etzold, Krister; Hanne, 2017-09-15. The Baltic Sea Region, at the crossroads between East and West, North and South, has long been marked by cultural, ethnical and ideological borders. Overcoming a history of conflict and separation, since the end of the Cold War the countries surrounding the Baltic Sea established widely valued formats of regional cooperation based on shared challenges and opportunities. In comparison with larger regions, however, the Baltic Sea Area is still a blank spot on the global map. This volume's intention is to fill this spot with colour and facts. It provides students, young researchers and other interested parties with basic knowledge of the region. The volume offers a comprehensive introduction into its history, politics, economy and culture, taking into account the various countries' commonalities and differences. By

introducing concepts of regionalism and region building as well as analysing the structures of regional cooperation the authors and editors demonstrate the Baltic Sea Area's model function as a European macro region Back cover

Michael Minkenberg, 2015-03-24 Transforming the transformation The East European Radical Right in the Political Process examines the significance of radical right parties along with other organizations in terms of their involvement in the political process of new democracies This groundbreaking study highlights firstly the radical right's interaction with other political actors such as parties governments and interest groups in their respective countries Secondly the contributors analyze the effects of such interaction with regard to agenda setting and policies in loaded policy fields namely minorities and immigration law and order religion territorial issues and democratization Through an examination of the role of radical right actors in political processes and an assessment of the resulting measurable outcomes this book shows how policies election results and regime changes indicate shifts away from the liberal democratic order institutionalized in the course of post Communist transformation Offering a unique cross national comparison of particular facets and themes as well as in depth analysis of country cases this book will be of interest to undergraduate and postgraduate students as well as scholars of European politics and far right studies Post-Communist Transformations in Baltic Countries Zenonas Norkus, 2023-11-21 This Open access book provides a survey of the economic health and somatic progress of Baltic countries during the period 1918 2018 framed by the outline of the historical sociological theory of modern social restorations as originally conceived by the Austrian American comparative historian Robert A Kann The author reworks Kann's theory to analyse post communist transformations in the Baltic region The book argues that the purpose of modern social restorations is to make restoration societies safe against a recurrence of revolution There were two waves of modern social restorations post Napoleonic and post communist Most post Napoleonic restorations were brief because they failed to economically and socially outperform the pre revolutionary and post revolutionary systems It considers Baltic restorations as laboratory cases of second wave modern social restorations because they encompass a triple restoration of the nation state capitalism and democracy The book assesses the performance success of Baltic restorations by comparing economic and social progress of Baltic countries during the periods of original independence 1918 1940 foreign imposed state socialism 1940 1990 and restored independence since 1990 It then elaborates the criteria to assess the ultimate performance success of these restorations by 2040 when restored Baltic states may endure longer than their ancestors in 1918 1940 and the complete foreign occupations era 1940 1990 The author an expert in historical sociology uses extensive historical statistical data in cross time comparisons to develop his analysis and create future projections This book is of wide interest to sociologists social demographers political scientists and economists studying the Baltic region This is an open access book A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Michal Kopeček, Luka Lisjak Gabrijelčič, Maria Falina, Mónika Baár, Maciej Janowski, 2018-11-10 A History of Modern Political Thought in East Central

Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years. It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses. Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such. The present volume is a sequel to Volume I *Negotiating Modernity in the Long Nineteenth Century*. It begins with the end of the Great War depicting the colorful intellectual landscape of the interwar period and the increasing political and ideological radicalization culminating in the Second World War. Taking the war experience both as a breaking point but in many ways also a transmitter of previous intellectual traditions, it maps the intellectual paradigms and debates of the immediate postwar years marked by a negotiation between the democratic and communist agendas as well as the subsequent processes of political and cultural Stalinization. Subsequently the post Stalinist period is analyzed with a special focus on the various attempts of de Stalinization and the rise of revisionist Marxism and other critical projects culminating in the carnivalesque but also extremely dramatic year of 1968. This volume is followed by Volume II *Negotiating Modernity in the Short Twentieth Century and Beyond Part II 1968-2018*. Civil Society in the Baltic Sea Region Norbert Götz, 2017-11-01. This title was first published in 2003. The Baltic Sea region offers exceptionally rich material for the discussion of civil society. This is because it has witnessed the erosion of communist regimes, the crisis of the welfare state, the increasing importance of new social movements and the shift from a centralist paradigm to one oriented towards networks. This engaging book focuses on the phenomena and prospects for civil society in north eastern Europe which have had a major impact on political and scholarly debates since 1989. Nineteen experts from the region provide a comprehensive and comparative account of the history, the present state and the perspectives of civil society in the Baltic Sea area. The reader will learn that civil society should not only be seen in opposition to the state and that it has a major impact on current developments of European integration. Authoritarianism and Corporatism in Europe and Latin America António Costa Pinto, Federico Finchelstein, 2018-11-02. What drove the horizontal spread of authoritarianism and corporatism between Europe and Latin America in the 20th century? What processes of transnational diffusion were in motion and from where to where? In what type of critical junctures were they adopted and why did corporatism largely transcend the cultural background of its origins? What was the role of intellectual politicians in the process? This book will tackle these issues by adopting a transnational and comparative research design encompassing a wide range of countries. *Rethinking Fascism and Dictatorship in Europe* A. Kallis, 2014-09-25. Fascism exerted a crucial ideological and political influence across Europe and beyond. Its appeal reached much further than the expanding transnational circle of fascists crossing into the territory of the mainstream authoritarian and traditional right. Meanwhile fascism's seemingly inexorable rise unfolded against the backdrop of a dramatic shift towards dictatorship in large parts of Europe during the 1920s and especially 1930s. These dictatorships shared a growing

conviction that fascism was the driving force of a new post liberal fiercely nationalist and anti communist order The ten contributions to this volume seek to capture theoretically and empirically the complex transnational dynamic between interwar dictatorships This dynamic involving diffusion of ideas and practices cross fertilisation and reflexive adaptation muddled the boundaries between fascist and authoritarian constituencies of the interwar European right **The Baltic** Alan Palmer,2007-12-18 Alan Palmer traces the history of the Baltic region from its early Viking days and its time under the Byzantine Empire through its medieval prime when the Baltic Sea served as one of Europe s central trading grounds Palmer addresses both the strong nationalist sentiments that have driven Baltic culture and the early attempts at Baltic unification by Sweden and Russia The Baltic also dissects the politics and culture of the region in the twentieth century when it played multiple historic roles it was the Eastern Front in the First World War the setting of early uprisings in the Russian Revolution a land occupied by the Nazis during the Second World War and until very recently a region dominated by the Soviets In the twenty first century increasing attention has been focused on the Baltic states as they grow into their own in spite of growing neo imperialist pressure from post Soviet Russia In The Baltic Alan Palmer provides readers with a detailed history of the nations and peoples that are now poised to emerge as some of Europe s most vital democracies **The Geopolitics of Euro-Atlantic Integration** Anders Wivel,Hans Mouritzen,2004-06 This unique book looks at the impact of European integration and in particular the institutional challenges it involves from the perspective of the smaller member states
