Radio The Media:

Sound Business Michael Stamm, 2011-05-03 American newspapers have faced competition from new media for over ninety years Today digital media challenge the printed word In the 1920s broadcast radio was the threatening upstart At the time newspaper publishers of all sizes turned threat into opportunity by establishing their own stations Many such as the Chicago Tribune s WGN are still in operation By 1940 newspapers owned 30 percent of America s radio stations This new type of enterprise the multimedia corporation troubled those who feared its power to control the flow of news and information In *Sound Business* historian Michael Stamm traces how these corporations and their critics reshaped the ways Americans received the news Stamm is attuned to a neglected aspect of U S media history the role newspaper owners played in communications from the dawn of radio to the rise of television Drawing on a wide array of primary sources he recounts the controversies surrounding joint newspaper and radio operations These companies capitalized on synergies between print and broadcast production As their advertising revenue grew so did concern over their concentrated influence Federal policymakers especially during the New Deal responded to widespread concerns about the consequences of media consolidation by seeking to limit and even ban cross ownership The debates between corporations policymakers and critics over how to regulate these new kinds of media businesses ultimately structured the channels of information distribution in the United States and determined who would control the institutions undergirding American society and politics *Sound Business* is a timely examination of the connections between media ownership content and distribution one that both expands our understanding of mid twentieth century America and offers lessons for the digital age

Media at War Gwenyth L. Jackaway, 1995-11-20 Fought when radio was first introduced the Press Radio war was an attempt on the part of print journalists to block the emergence of radio news For nearly a decade the newspapers of America fought to keep broadcast journalism off the air exerting various forms of economic regulatory and legal pressure against new competitors This study traces the stages and forms of institutional self defense utilized by the press Far more than mere battles to protect profits media wars are fights to preserve the institutional power that derives from controlling the channels of communication

Rainforest Radio Georgia Ennis, 2025-04-22 Napo Kichwa communities in the Upper Ecuadorian Amazon find themselves doubly marginalized by settler colonialism and well intentioned language revitalization projects In Rainforest Radio Georgia C Ennis provides a comprehensive ethnographic exploration of Amazonian Kichwa community media offering a unique look at how Indigenous broadcast and performance media facilitate linguistic and cultural reclamation in the Ecuadorian Amazon This work offers a critical analysis of how standardized language revitalization efforts like the imposition of Unified Kichwa can inadvertently perpetuate linguistic oppression Ennis follows producers performers and consumers to understand the role of media in language reclamation Through extensive fieldwork she provides vivid portrayals of community efforts to sustain the language and cultural practices of their elders amid environmental and social upheaval Meticulously researched and beautifully written Rainforest Radio is an essential work for anthropologists linguists and social scientists interested in language revitalization Indigenous media and environmental justice This book showcases the transformative potential of community driven media initiatives highlighting the innovative responses of Napo Kichwa activists to the unique challenges they face It serves as a powerful

model for those working on similar issues worldwide demonstrating the critical role of community media in language reclamation and cultural sustainability

Radio in the Digital Age Andrew Dubber, 2014-01-21 Radio's influence can be found in almost every corner of new media. Radio in the Digital Age assesses a medium that has not only survived the challenges of a new technological age but indeed has extended its reach. This is not a book about digital radio but rather about the medium of radio in its many analogue and digital forms in an age characterised by digital technologies. The context of the digital age reveals new insights about the nature of radio. In this important addition to the world of radio scholarship, Dubber provides a theoretical framework for understanding the medium allowing for complexity and contradiction while avoiding essentialism and technological determinism. Introducing radio as a series of practices and phenomena that can be understood through a range of discursive categories, this book explores the relationships between radio, music, politics, storytelling and society in a new and thoughtful way. This book will make essential reading for students of media communication, broadcasting and the digital industries. It offers a timely and comprehensive introduction for anyone who wishes to understand the role of radio in today's media landscape.

New Media and Popular Imagination William Boddy, 2004. *New Media and Popular Imagination* offers a highly original account of the ways in which successive media of electronic communication—radio, television and digital media—have been anticipated, debated and taken up in the twentieth century United States. Intended as an intervention in the emerging scholarly and policy debates around contemporary digital culture, the book analyses popular responses to earlier moments of technological innovation in the twentieth century. Successive electronic media have challenged the borders between private and public, disturbed notions of national identity and disrupted the gendered routines and spaces of the private home. Illuminating both the continuities and disjunctions between old media and new, *New Media and Popular Imagination* offers new insights into the relationship between technological change and cultural form.

Radio's Digital Dilemma John Nathan Anderson, 2013-12-04. *Radio's Digital Dilemma* is the first comprehensive analysis of the United States digital radio transition, chronicling the technological and policy development of the HD Radio broadcast standard. A story laced with anxiety, ignorance and hubris, the evolution of HD Radio pitted the nation's largest commercial and public broadcasters against the rest of the radio industry and the listening public in a pitched battle over defining the digital future of the medium. The Federal Communications Commission has elected to put its faith in marketplace forces to govern radio's digital transition, but this has not been a winning strategy. A dozen years from its rollout, the state of HD Radio is one of dangerous malaise, especially as newer digital audio distribution technologies fundamentally redefine the public identity of radio itself. Ultimately, *Radio's Digital Dilemma* is a cautionary tale about the overarching influence of

economics on contemporary media policymaking to the detriment of notions such as public ownership and access to the airwaves and a call for media scholars and reformers to engage in the continuing struggle of radio's digital transition in hopes of reclaiming these important principles **Media Policy and Music Activity** Krister Malm, Roger Wallis, 2003-09-02

Case studies are combined with a broad theoretical approach to look at the relationship between policies governing the output of the music media and music activity in society *Bob Marley and Media* Mike Hajimichael, 2023-02-06 Bob Marley and Media Representation and Audiences presents an analysis of how media radio television and print represented Bob Marley including his popularity after his death Mike Hajimichael examines unexplored connections between Bob Marley and media representation and the specifics of audiences including coverage in tabloids music magazines and fanzines as well as radio and television interviews Hajimichael builds an extensive catalogue of Bob Marley's media engagements and connects Marley to media through forms of political discourse and ideologies relevant to social change in different contexts globally such as civil rights anti racism Rastafari and liberation movements Given that varieties of representation exist the book unpacks these media discourses with regard to public perceptions and key themes articulated including mainstream versus fan based coverage issues of Rastafari Black Consciousness economic crisis legacies of colonialism slavery racism links to other music idioms concepts of identity and Marley's personal relationships **The Routledge Companion to Radio and Podcast Studies** Mia Lindgren, Jason Loviglio, 2022-06-15 This comprehensive companion is a much needed reference source for the expanding field of radio audio and podcast study taking readers through a diverse range of essays examining the core questions and key debates surrounding radio practices technologies industries policies resources histories and relationships with audiences Drawing together original essays from well established and emerging scholars to conceptualize this multidisciplinary field this book's global perspective acknowledges radio's enduring affinity with the local historical relationship to the national and its unpredictably transnational reach In its capacious understanding of what constitutes radio this collection also recognizes the latent time and space shifting possibilities of radio broadcasting and of the myriad ways for audio to come to us live Chapters on terrestrial radio mingle with studies of podcasts and streaming audio emphasizing continuities and innovations in form and content delivery and reception production cultures and aesthetics reminding us that neither radio nor podcasting should be approached as static objects of analysis but rather as mutually constituting cultural forms This cutting edge and vibrant companion provides a rich resource for scholars and students of history art theory industry studies journalism media and communication cultural studies feminist analysis and postcolonial studies Chapter 42 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Media Records, 1929 Advertising Media Planning* Larry D.
