Railways Of Asia And The Far East His Railways Of The World 5:

India's Railway History John Hurd II, Ian J. Kerr, 2012-08-03 This handbook provides an indispensable reference guide to most aspects of the history of India's railways. The secondary literature is surveyed, primary sources identified, statistical and cartographic data discussed, and a massive bibliography made available.

Challenge of Japan Before World War II Nazli Choucri, Robert C. North, Susumu Yamakage, 2013-08-21 First published in 1993. This book examines the relationships between the economic, political, and strategic expansion of a country and its tendency towards conflict and war. The authors use the example of Japan to demonstrate that it is uneven economic development and the search for basic resources and markets that often set the stage for war and international conflict. Thus the pursuit of legitimate national goals, for example the expansion of a nation's industrial base, may put it into competitively potentially conflicting relationships with countries with similar objectives. The names of the authors will attract all International Relations scholars who will know Choucri and North's *Nations in Conflict* and will have been awaiting the outcome of their fifteen years of research on Japan. The book is also invaluable reading for advanced undergraduate and postgraduate students of Japan and other Asian area studies, political economy, and political science.

Prisoners of the Sumatra Railway

Lizzie Oliver, 2017-12-14 *Prisoners of the Sumatra Railway* is the first book to detail the experiences of British former prisoners of war POWs who were forced to construct a railway across Sumatra during the Japanese occupation. It is also the first study to be undertaken of the life writing of POWs held captive by the Japanese during the Second World War and the transgenerational responses in Britain to this period of captivity. This book brings to light previously unpublished materials including Exceptionally rare and detailed diaries, notebooks and letters from the railway. Memoirs from Sumatra including detailed recollections and post-war statements written by key personnel on the railway such as Medical Officers and interpreters. Remarkable original artwork created by POWs on Sumatra. Contemporaneous photographs taken inside the camps. Employing theories of life writing, memory and war representation including transgenerational transmission. Lizzie Oliver focuses particularly on what these documents can tell us about how former POWs tried to share, preserve and make sense of their experiences. It is a wholly original study that is of great value to Second World War scholars and anyone interested in 20th century Southeast Asian history or war and memory.

Railway Conductors' Monthly, 1924 **The Subject Index to Periodicals**, 1928 **Sustainable Rail Transport 4** Marin Marinov, Janene Piip, 2021-12-16 This book offers a timely collection of articles on innovative research and developments in the vast field of rail transport including rail operations, management, economics, vehicles, interior design and sustainable infrastructure. It addresses academics and professionals specializing in railway transport, analysis, innovation, systems design and new technology. Continuing on the tradition of the previous volumes, the book reports on innovative solutions for energy saving, noise reduction and baggage handling. It elaborates on the implementation of digital technologies and discusses sustainable rail operations along transport corridors. The concept of hyperloop is also discussed as a possible transport mode of the future. All the contributions were selected through an internal competition and a double-blind peer review process organized by the RailUniNet members.

Subject Index to Periodicals, 1925 **The Weekly Review**, 1922 **China Monthly Review**, 1925 **Railways and International Politics** T.G. Otte, Keith Neilson, 2012-09-10 This new study brings together leading experts to show how the modern world began with the coming of the railway. They clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world. While the effect of railways on economic development is self-evident, little attention has been paid to their impact on international relations. This is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the Great Powers. This took many forms. Often as in East Asia the competition for railway concessions reflected the clash of rival imperial interests. The success or failure of this competition could determine which of the European Powers was to dominate and exploit the markets of China and Siam. Just as often railways were linked with military matters. Prussia's success in the wars of German unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of German military thinking before the First World War. So too did they for the Russians whose vast

Empire required rail links capable of moving the Tsarist army quickly and competently Just as importantly railways could be vital for Imperial defence as the British discovered on the North West frontier of India This book will be of much interest to students of international history military history and strategic studies *Russia and Its Northeast Asian Neighbors* Kimitaka Matsuzato, 2016-12-07 As a result of the Aigun 1858 and Beijing Treaties 1860 Russia had become a participant in international relations of Northeast Asia but historiography has underestimated the presence of Russia and the USSR in this region This collection elucidates how Russia's expansion affected early Meiji Japan's policy towards Korea and the late Qing Empire's Manchurian reform Russia participated in the mega imperial system of transportation and customs control in Northern China and created a transnational community around the Chinese Eastern Railway and Harbin City The collection vividly describes daily life of the emigre Russians community in Harbin after 1917 The collection investigates mutual images between the Russians and Japanese through the prism of the descriptions of the Japanese Imperial House in Russian newspapers and memoirs written by Russian POWs in and after the Russo Japanese War and war journalism during this war The first Soviet ambassador in Japan V Kopp proposed to restore the division of spheres of interest between Russia and Japan during the tsarist era and thus conflicted People's Commissar of Foreign Affairs G Chicherin the Soviet ambassador in Beijing L Karakhan and Stalin since the latter group was more loyal to the cause of China's national liberation As a whole the collection argues that it is difficult to understand the modern history of Northeast Asia without taking the Russian factor seriously **The Encyclopædia Britannica**, 1911 **Eastern European Railways in Transition** Henry

Jacolin, 2016-04-29 During the nineteenth century railway lines spread rapidly across Europe linking the continent in ways unimaginable to previous generations By the beginning of the twentieth century the great cities of the continent were linked by a complex and extensive rail network Yet this high point of interconnectivity was abruptly cut off after 1945 as the Cold War built barriers both physical and ideological between east and west In this volume leading transport history scholars take a fresh look at this situation and the ramifications it had for Europe As well as addressing the parallel development of railways either side of the Iron Curtain the book looks at how transport links have been reconnected and reconfigured in the twenty years since the reunification of Europe In particular it focuses upon the former communist countries and how they have responded to the challenges and opportunities railways offer both nationally and internationally Including contributions from historians researchers policy makers representatives of railway companies and railway museum staff the essays in this collection touch upon a rich range of subjects Divided into four sections The Historical Overview Under Russian Protection After the Fall of the Iron Curtain and The Heritage of Railways in Eastern Europe the volume offers a broadly chronological introduction to the issue that provides both a snap shot of current debates and a starting point for further research It concludes that in an era of increased globalisation and interconnectivity and despite the rise of air and road transport and virtual methods of communication railways still have a crucial role to play in the development of a prosperous and connected
