Healing Sounds from the Malaysian Rainforest Marina Roseman, 1993-03-26 One of the best pieces of ethnomusicological research of the last ten years Roseman shows just how central musical ideas and practices are to a way of knowing and imagining the world to a way of transforming ordinary experiences and to penetrating belief systems

more broadly Steven Feld University of Texas Austin An exciting contribution to interpretive medical anthropology Moving analytically between Temiar cultural constrictions of illness and health and the humanely organized sounds of healing ceremonies Roseman explicates the cultural logic whereby aesthetic configurations participate in a comprehensive therapeutically effective pattern of reality This author has brocaded medical anthropology with ethnomusicology producing a shimmering postmodern ethnographic tapestry of great subtlety and strength Barbara Tedlock SUNY Buffalo **The Regional Travel Guide for Espiritu Santo (Vanuatu) , Sound Art and Music** John Dack,Tansy Spinks,Adam Stanović,2020-11-12 This volume explores the mutually beneficial but occasionally uneasy relationship between sound art and music It reveals how practices and theories associated with these art forms frequently result in corroboration and contains chapters from both practitioners and theoreticians who work in areas where innovative synergies between sound art and music can be identified Although practice and theory are inseparable discourses surrounding practice are elusive but informative and as such are given particular recognition and exploration in this volume Taken as a whole the book provides a snapshot of contemporary research across a range of sound art and music disciplines showcasing the variety scope and scale of this exciting if bewildering area of study
