the research is based on an analysis of collected testimonies of ex Satanists as they were presented in these interviews in churches on radio programmes in newspapers and in other sources

Michael, 2006-10-02 Although Christianity's precise influence on the Holocaust cannot be determined and the Christian churches did not themselves perpetrate the Final Solution Michael argues that two millennia of Christian ideas and prejudices and their impact on Christians' behaviour appear to be the major basis of antisemitism and its apex the Holocaust

Martyrdom, Murder, and Magic Patricia Healy Wasyliw, 2008 *Martyrdom Murder and Magic* Child Saints and Their Cults in Medieval Europe is a comprehensive history of child saints and their cults from late Antiquity to the end of the fifteenth century The child martyrs of the persecutions including the Holy Innocents were the first child saints recognized by the Church and their cults spread throughout Europe in the early Middle Ages Alongside these cults medieval society also venerated child martyrs victims of political or domestic violence The increasing role of the papacy in the canonization process after the tenth century resulted in the veneration of saintly child confessors in the high Middle Ages but from the end of the twelfth century most children worshipped as saints were the alleged victims of ritual murder by Jews This book considers the formation and transformation of child saints and their cults in the context of popular belief and the history of childhood

Were the Popes Against the Jews? Justus George Lawler, 2012-01-31 How many people know that a modern pope publicly referred to Jews as dogs that two other modern popes called the Jewish religion Satan's synagogue that at the beginning of the twentieth century another pope refused to save the life of a Jew accused of ritual murder even though the pope knew the man was innocent Lastly how many people know that only a decade before the rise of Hitler another pope supported priests who called for the extermination of all the Jews in the world The answer has to be great numbers of people since those accusations appeared in David I Kertzer's *The Popes Against the Jews* 2001 a book which had been lauded in major journals and newspapers in the U S and the U K and which by 2006 had been translated into nine foreign languages while Kertzer himself according to his Website had become America's foremost expert on the modern history of the Vatican's relations with the Jews It is thus undeniable that very many people in very many countries have heard of the appalling misdeeds and misstatements mentioned above even though in fact not one of them was ever perpetrated by any pope But *Were the Popes Against the Jews* is not only about the disclosure of these shocking slanders however fascinating and important such an exposé is In the broader perspective it is about the power of ideology to subvert historical judgments whether the latter concern the origins of anti-Semitism and the papacy the distortion of documents to indict Pius XII or the fabrication of Pius XI as codependent collaborator with Mussolini the announced subject of Kertzer's next book Justus George Lawler's confrontation with ideologues will gratify all who are seeking not triumph over opponents but peace and justice for all

Sacrifice and Atonement Stephen Finlan, 2016-06-03 Beneath the commonplace affirmation that Jesus paid for our sins lie depths of implication did God demand a blood sacrifice to assuage divine anger Is sacrifice consciously or unconsciously intended to

induce the deity to show favor What underlies the various metaphors for atonement used in the Bible Here Stephen Finlan surveys psychological theories that help us to understand beliefs about sacrifice and atonement and what they may reveal about patterns of injury guilt shame and appeasement Early chapters examine the language in both testaments of purity and the scapegoat and of payment obligation reciprocity and redemption Later chapters review theories of the origins of atonement thinking in fear and traumatic childhood experience in ambivalent or avoidant attachment to the parents and in poisonous pedagogy The theories of Sandor Rado Mary Ainsworth Erik Erikson and Alice Miller are examined then Finlan draws conclusions about the moral responsibility of appropriating or rejecting atonement metaphors His arguments bear careful consideration by all who live with these metaphors and their effects today Symbolism in Terrorism Jonathan Matusitz,2014-09-16 The symbolic value of targets is what differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U S imperialism financial success modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions definitions case studies and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyo the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the chapters including physical and non physical symbolism linguistic symbolism the social construction of reality rituals myths performative violence iconoclasm brand management logos semiotics new media and the global village This allows for an in depth examination of many issues such as anti globalization honor killing religious terrorism suicide terrorism martyrdom weapons female terrorism public communication visual motifs and cyberspace Main concepts are clearly defined and followed by theory illustrated by international case studies Chapter summaries key points review questions research and practice suggestions are recurring components as well This groundbreaking text encompasses all major aspects of symbolism in terrorism and will be an essential resource for anyone studying terrorism *Key Concepts in the Study of Antisemitism* Sol Goldberg,Scott Ury,Kalman Weiser,2020-12-02 This volume is designed to assist university faculty and students studying and teaching about antisemitism racism and other forms of prejudice In contrast with similar volumes it is organized around specific concepts instead of chronology or geography It promotes conversation about antisemitism across disciplinary geographic and thematic lines rather than privileging a single methodological paradigm a specific academic field or an overarching narrative Its twenty one chapters by leading scholars in diverse fields address the relationship to antisemitism of concepts ranging from Anti Judaism to Zionism Each chapter not only traces the history and major scholarly debates around

a key concept it also presents an original argument points to avenues for further research and exemplifies a method of investigation
