Bohemia, Moravia, Lusatia, Austria, Burgundy, Westphalia, and the circle of the Rhine Anton Friedrich Büsching,1762      Late Roman Towns in Britain Adam Rogers,2011-03-28 In this book Adam Rogers examines the late Roman phases of towns in Britain Critically analysing the archaeological notion of decline he focuses on public buildings which played an important role administrative and symbolic within urban complexes Arguing against the interpretation that many of these monumental civic buildings were in decline or abandoned in the later Roman period he demonstrates that they remained purposeful spaces and important centres of urban life Through a detailed assessment of the archaeology of late Roman towns this book argues that the archaeological framework of decline does not permit an adequate and comprehensive understanding of the towns during this period Moving beyond the idea of decline this book emphasises a longer term perspective for understanding the importance of towns in the later Roman period      *The Extremes of the Extremes* Arni Snorrason,Helga P.
