McManus, 2013-06-04 Acclaimed historian John C McManus author of The Dead and Those About to Die explores World War II s most ambitious invasion Operation Market Garden an immense daring offensive to defeat Nazi Germany before the end of 1944 A riveting and deeply moving story of uncommon courage Alex Kershaw New York Times bestselling author of The First Wave August 1944 saw the Allies achieve more significant victories than in any other month over the course of the war The Germans were in disarray overwhelmed on all fronts Rumors swirled that the war would soon be over On September 17 the largest airborne drop in military history commenced over Holland including two entire American divisions the 101st and the 82nd Their mission was to secure key bridges at such places as Son Eindhoven Grave and Nijmegen until British armored forces could relieve them The Germans however proved much stronger than the Allies anticipated In eight days of ferocious combat they mauled the airborne stymied the tanks and prevented the Allies from crossing the Rhine September Hope conveys the American perspective like never before through a vast array of new sources and countless personal interviews to create a truly revealing portrait of this searing human drama Defence Journal, 2004 The Last German Victory Aaron Bates, 2021-12-22 Operation Market Garden the Allied airborne invasion of German occupied Holland in September 1944 is one of the most famous and controversial Allied failures of the Second World War Many books have been written on the subject seeking to explain the defeat Historians have generally focused on the mistakes made by senior commanders as they organized the operation The choice of landing zones has been criticized as has the structure of the airlift plan But little attention has been paid to the influence that combat doctrine and training had upon the relative performance of the forces

involved And it is this aspect that Aaron Bates emphasizes in this perceptive closely argued and absorbing re evaluation of the battle As he describes each phase of the fighting he shows how German training which gave their units a high degree of independence of action better equipped them to cope with the confusion created by the surprise Allied attack In contrast the British forces were hampered by their rigid and centralized approach which made it more difficult for them to adapt to the chaotic situation Aaron Bates s thought provoking study sheds fresh light on the course of the fighting around Arnhem and should lead to a deeper understanding of one of the most remarkable episodes in the final stage of the Second World War in Abundance of Valor Will Irwin, 2010-03-23 The operation known as Market Garden made famous in the book and film A Bridge Too Far was the largest airborne assault in history up to that time a high risk Allied invasion of enemy territory that has become a legend of World War II even as it still invites criticism from historians Now a thrilling and revelatory new book re creates the operation as never before revealing for the first time the full adventures of the bold Jedburgh paratroopers whose exploits were almost unimaginably risky and heroic Kicked off on September 17 1944 Market Garden was intended to secure crucial bridges in the Nazi occupied Netherlands by a parachute assault conducted by three Allied airborne divisions Capture of the bridges would allow a swift advance and crossing of the Rhine by British ground forces Jedburgh teams Allied Special Forces were dropped into the Netherlands to train and use the Dutch resistance in support of the larger operation Based on new firsthand testimony of survivors and declassified documents Abundance of Valor concentrates on the three teams that operated farthest behind enemy lines the nine men whose treacherous missions resulted in deaths captures and hair breadth escapes Here in unprecedented detail are the heat and stench of fuel oil and sweat in the troop carriers going over the remarkable and misleading initial success of the daylight parachute landings and the deadly brutally effective German response particularly by crack SS armored units in the blood soaked town of Arnhem Abundance of Valor portrays with stunning verisimilitude the experiences of Lt Harvey Allan Todd who fought from a surrounded position against overwhelming numbers of the enemy before surviving capture near starvation interrogation and solitary confinement in German POW camps and Maj John Pappy Olmsted who made a hazardous journey in disguise from safe house to safe house through enemy territory until finally reaching friendly lines With piercing criticism of the mission s ultimate failure from faulty use of intelligence and Field Marshall Montgomery s distrust of the Dutch underground Abundance of Valor is a brutally honest and truly inspiring account of fighting men in a noble cause who did their jobs with extraordinary honor and courage The Western European and Mediterranean Theaters in World War II Donal Sexton, 2011-10-06 The Western European and Mediterranean Theaters in World War II is a concise comprehensive guide for students teachers and history buffs of the Second World War With an emphasis on the American forces in these theaters each entry is accompanied by a brief annotation that will allow researchers to navigate through the vast amount of literature on the campaigns fought in these regions with ease Focusing on all aspects surrounding the U S involvement in the Western

European and Mediterranean theaters including politics religion biography strategy intelligence and operations this bibliography will be a welcome addition to the collection of any academic or research library Routledge Research Guides to American Military Studies provide concise annotated bibliographies to the major areas and events in American military history With the inclusion of brief critical annotations after each entry the student and researcher can easily assess the utility of each bibliographic source and evaluate the abundance of resources available with ease and efficiency Comprehensive concise and current Routledge Research Guides to American Military Studies are an essential research tool for any historian

A Magnificent Disaster David Bennett, 2008-07-08 Reveals much of what history has tended to gloss over should be a must read for all who have an interest in this operation Airborne Quarterly After Normandy the most spectacular Allied offensive of World War II was Operation Market Garden which planned to join three divisions of paratroopers dropped behind German lines with massive armored columns breaking through the front The object was to seize a crossing over the Rhine to outflank the heartland of the Third Reich and force a quick end to the war The operation utterly failed of course as the 1st British Airborne was practically wiped out the American 82nd and 101st Airborne Divisions became tied down in vicious combat for months and the vaunted armored columns were foiled at every turn by improvisational German defenses Some have called the battle Hitler's last victory In this work many years in the making David Bennett puts forward a balanced and comprehensive account of the British American Polish Canadian and German actions as well as the strategic background of the operation in a way not yet done He shows for example that rather than a bridgehead over the Rhine Montgomery s ultimate aim was to flank the Ruhr industrial area from the north The book also deals as never before with the key role of all three Corps of British Second Army not just Brian Horrocks central XXX Corps For the first time we learn the dramatic untold story of how a single company of Canadian engineers achieved the evacuation of 1st Airborne's survivors back across the Rhine when all other efforts had failed Also revealed is the scandal of how Polish Gen Sosabowski was treated by the British military authorities and how the operation would have failed at the outset but for the brilliant soldiery of the two American airborne divisions Respectfully nodding to A Bridge Too Far and other excellent works on Market Garden the author has interviewed survivors walked the ground and performed prodigious archival research to increase our understanding of the battle from the actions of the lowliest soldier to the highest commander Allied and German **Military** World War II in Literature for Youth Patricia Hachten Wee, Robert James Wee, 2004 This comprehensive History ,1999-04 volume provides a wealth of information with annotated listings of more than 3 500 titles a broad sampling of books on the war years 1939 1945 Includes both fiction and nonfiction works about all aspects of the war Professional resources for educators aligned to the educational standards for social studies technical references periodicals and electronic resources a directory of WWII museums memorials and other institutions and topics for exploration complement this excellent library and classroom resource Screaming Eagle Gliders G.
