Morrow,2018-11-21 The French Catholic priest and biblical scholar Alfred Loisy 1857 1940 was at the heart of the Roman Catholic Modernist crisis in the early part of the twentieth century He saw much of his work as an attempt to bring John Henry Newman s notion of development of doctrine into the realm of Catholic biblical studies and thereby transform Catholic theology This volume situates Loisy s better known works on the New Testament and theology in the context of his lesser known work in Assyriology and Old Testament studies His early training in Assyriology taught Loisy a comparative historical approach to studying ancient texts in addition to providing him the requisite training in ancient Near Eastern languages and literature Loisy built upon this Assyriological foundation with his historical critical work in biblical studies first in the Old Testament In his biblical scholarship Loisy combined the then current trends of historical biblical criticism with his more comparative approach Prior to his excommunication in 1908 Loisy attempted in his more popular writings to defend the inclusion of historical biblical criticism in the repertoire of Catholic biblical interpretation He saw this as an important step in reforming Catholic theology The Modernist crisis set the stage for the major debates that would occur in the Catholic theological world for more than a century The controversy over Modernism became one important conflict that helped pave the way for the Second Vatican Council The issues raised during Loisy s time remain contested today Examining how Loisy approached

biblical studies helps readers better understand his overall work and the place it played in the pivotal intellectual turmoil of his day      **Discovering Babylon** Rannfrid Thelle,2018-10-10 This volume presents Babylon as it has been passed down through Western culture through the Bible classical texts in Medieval travel accounts and through depictions of the Tower motif in art It then details the discovery of the material culture remains of Babylon from the middle of the 19th century and through the great excavation of 1899 1917 and focuses on the encounter between the Babylon of tradition and the Babylon unearthed by the archaeologists This book is unique in its multi disciplinary approach combining expertise in biblical studies and Assyriology with perspectives on history art history intellectual history reception studies and contemporary issues

**Before Religion** Brent Nongbri,2013-01-22 Examining a wide array of ancient writings Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion Nongbri shows how misleading it is to speak as though religion was a concept native to pre modern cultures      **Heroes to Hostages** Firoozeh Kashani-Sabet,2023-08-24 It is easy to forget given the oppositional dynamic between Iran and the United States of the last 50 years that these two countries once shared productive partnership Tracing US Iran relations over two turbulent centuries Firoozeh Kashani Sabet considers when and how this relationship went awry With careful attention to social and cultural as well as diplomatic developments Kashani Sabet shows that the rift did not originate in flashpoints of crisis like the 1953 coup or the 1979 Islamic Revolution but was instead long in the making Drawing from a wealth of English and Persian language sources many of which were previously unavailable or unacknowledged this book considers the relationship from the vantage point of Iranian society and the experiences of an evolving Iran that strived to accommodate American and great power politics Following these two nations through wars decolonization and revolution Kashani Sabet presents an invaluable history of a diplomatic rivalry that informs geopolitics to this day      **Murmuring Against Moses: The Contentious History and Contested Future of**

**Pentateuchal Studies** Jeffrey L. Morrow,John Bergsma,2023-01-26 For much of the history of both Judaism and Christianity the Pentateuch first five books of the Bible was understood to be the unified work of a single inspired author Moses Yet the standard view in modern biblical scholarship contends that the Pentateuch is a composite text made up of fragments from diverse and even discrepant sources that originated centuries after the events it purports to describe In *Murmuring against Moses* John Bergsma and Jeffrey Morrow provide a critical narrative of the emergence of modern Pentateuchal studies and challenge the scholarly consensus by highlighting the weaknesses of the modern paradigms and mustering an array of new evidence for the Pentateuch's antiquity By shedding light on the past history of research and the present developments in the field Bergsma and Morrow give fresh voice to a growing scholarly dissatisfaction with standard critical approaches and make an important contribution toward charting a more promising future for Pentateuchal studies      **Antisemitism on the Rise** Ari Kohen,Gerald J. Steinacher,2021-10 We live in uncertain and unsettling times Tragically today's global culture is rife with violent bigotry nationalism and antisemitism The rhetoric is not new it is grounded in attitudes and values from the 1930s

and the 1940s in Europe and the United States *Antisemitism on the Rise* is a collection of essays by some of the world's leading experts including Joseph Bendersky, Jean Cahan, R. Amy Elman, Leonard Greenspoon, and Jürgen Matthäus regarding two key moments in antisemitic history: the interwar period and today. Ari Kohen and Gerald J. Steinacher have collected important examples on this crucial topic to illustrate new research findings and learning techniques that have become increasingly vital with the recent rise of white supremacist movements, many of which have a firm root in antisemitism. Part 1 focuses on the antisemitic beliefs and ideas that were predominant during the 1930s and 1940s, while part 2 draws comparisons between this period and today, including examples of ways to teach others about contemporary antisemitism. The volume seeks to inform readers about the historical progression of antisemitism and, in doing so, asks readers to think about what is at stake and how to bridge the gap between research and teaching.

*Visions of Humanity* Sönke Kunkel, Jessica C.E. Gienow-Hecht, Sebastian Jobs, 2023-09-15 This book offers a critical reflection of the historical genesis, transformation, and problematic of humanity in the transatlantic world, with a particular eye on cultural representations. Humanity, the essays show, was consistently embedded in networks of actors and cultural practices, and its meanings have evolved in step with historical processes such as globalization, cultural imperialism, the transnationalization of activism, and the spread of racism and nationalism. *Visions of Humanity* applies a historical lens on objects, work, and sounds to provide a more nuanced understanding of the historical tensions and struggles involved in constructing, invoking, and instrumentalizing the "we" of humanity.

**American Egyptologist** Jeffrey Abt, 2012-05-01 James Henry Breasted (1865–1935) had a career that epitomizes our popular image of the archaeologist: Daring, handsome, and charismatic, he traveled on expeditions to remote and politically unstable corners of the Middle East, helped identify the tomb of King Tut, and was on the cover of *Time* magazine. But Breasted was more than an Indiana Jones; he was an accomplished scholar, academic entrepreneur, and talented author who brought ancient history to life not just for students but for such notables as Teddy Roosevelt and Sigmund Freud. In *American Egyptologist*, Jeffrey Abt weaves together the disparate strands of Breasted's life, from his small-town origins following the Civil War to his evolution into the father of American Egyptology and the founder of the Oriental Institute at the University of Chicago. Abt explores the scholarly, philanthropic, diplomatic, and religious contexts of his ideas and projects, providing insight into the origins of America's most prominent center for Near Eastern archaeology. An illuminating portrait of the nearly forgotten man who demystified ancient Egypt for the general public, *American Egyptologist* restores James Henry Breasted to the world and puts forward a brilliant case for his place as one of the most important scholars of modern times.

*Reclaiming a Plundered Past* Magnus T. Bernhardsson, 2013-08-21 The looting of the Iraqi National Museum in April of 2003 provoked a world outcry at the loss of artifacts regarded as part of humanity's shared cultural patrimony. But though the losses were unprecedented in scale, the museum looting was hardly the first time that Iraqi heirlooms had been plundered or put to political uses. From the beginning of archaeology as a modern science in the

nineteenth century Europeans excavated and appropriated Iraqi antiquities as relics of the birth of Western civilization Since Iraq was created in 1921 the modern state has used archaeology to forge a connection to the ancient civilizations of Mesopotamia and or Islamic empires and so build a sense of nationhood among Iraqis of differing religious traditions and ethnicities This book delves into the ways that archaeology and politics intertwined in Iraq during the British Mandate and the first years of nationhood before World War II Magnus Bernhardsson begins with the work of British archaeologists who conducted extensive excavations in Iraq and sent their finds to the museums of Europe He then traces how Iraqis growing sense of nationhood led them to confront the British over antiquities law and the division of archaeological finds between Iraq and foreign excavators He shows how Iraq's control over its archaeological patrimony was directly tied to the balance of political power and how it increased as power shifted to the Iraqi government Finally he examines how Iraqi leaders including Saddam Hussein have used archaeology and history to legitimize the state and its political actions

**Puritans in Babylon** Bruce Kuklick, 2018-12-04 From the 1880s through the 1920s a

motley collection of American scholars soldiers of fortune institutional bureaucrats and financiers created the academic fields that give us our knowledge of the ancient Near East Bruce Kuklick's new book begins with the story of the initial adventure of these determined investigators a twelve year dig near the Biblical Babylon at Nippur conducted at intervals from 1888 through 1900 and bankrolled by the Babylonian Exploration Fund To unearth tens of thousands of cuneiform tablets the leaders of this venture faced harsh living conditions in the desert and an academic war of each against all that was quickly begun at the site itself As their knowledge increased they risked their personal religious beliefs in the search for historical truth Kuklick discusses their tribulations to illuminate two other contemporary developments first the maturation of the American university particularly in contrast to its German counterpart and second the influence of religious secular conflict on the ways in which Western scholarship appropriated or appreciated other cultures The Nippur expedition spawned unseemly and entertaining fights among the University of Pennsylvania Johns Hopkins Yale Harvard and Chicago for leadership in the study of ancient Near East not to mention disagreements with their own developing museums and an international scandal called the Hilprecht controversy More significant than these quarrels was the concern for the meaning of history displayed in this period of Near Eastern scholarship The field was linked to Biblical criticism and Judeo Christian interests and many of the orientalist originally possessed strong religious commitments which some put aside as they struggled for objectivity As recent critics have shown orientalism was an example of the West's ability to appropriate the other for its own purposes However Kuklick's study demonstrates that the censure of orientalism hinges on modes of argumentation that scholars of the ancient Near East helped to legitimate and at no small cost to themselves Bruce Kuklick is Killbrew Professor of History at the University of Pennsylvania Among his books are To Every Thing a Season Shibe Park and Urban Philadelphia 1909 1976 Princeton Churchmen and Philosophers Jonathan Edwards to John Dewey and The Rise of American Philosophy Cambridge Massachusetts 1860 1930 Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**The Modern Assyrians of the Middle East** John Joseph, 2016-05-18 This is a revised edition of the author's The Nestorians and Their Muslim Neighbors Princeton University Press 1961 Early in the nineteenth century the Aramaic speaking Nestorian Christians received special attention when American Protestant missions decided to educate and reform them to help meet the challenge that Islam presented to the growing missionary movements When archaeologist Layard further publicized the historic minority as Assyrians the name acquired a new connotation when other forces at work in the region religious nationalistic imperialistic entangled these modern Assyrians in vagaries and manipulations in which they

were outnumbered and outclassed The study examines Western Christendom s current position on Islam with emphasis on the Roman Catholic Church and the World Council of Churches The revision draws on a wide variety of sources not used in the original     I Studied Inscriptions from Before the Flood Richard S.
