Road To Clarity Seventhday Adventism In Madagascar

Stefan Höschele

Road To Clarity Seventhday Adventism In Madagascar:

The Road to Clarity E. Keller, 2005-11-18 In recent years millions of people have joined churches such as the Seventh day Adventist which prosper enormously in different parts of the world The Road to Clarity is one of the first ethnographic in depth studies of this phenomenon It is a vivid account based on almost two years of participation in ordinary church members daily religious and non religious lives The book offers a fascinating inquiry into the nature of long term commitment to Adventism among rural people in Madagascar Eva Keller argues that the key attraction of the church lies in the excitement of study argument and intellectual exploration This is a novel approach which challenges utilitarian and cultural particularist explanations of the success of this kind of Christianity

Slavery and Essentialism in Highland Madagascar Denis Regnier, 2020-12-10 This book explores the prejudice against slave descendants in highland Madagascar and its persistence more than a century after the official abolition of slavery Unclean people is a widespread expression in the southern highlands of Madagascar and refers to people of alleged slave descent who are discriminated against on a daily basis and in a variety of ways Denis Regnier shows that prejudice is rooted in a strong case of psychological essentialism free descendants think that slaves have a dirty essence that is impossible to cleanse Regnier's field experiments question the widely accepted idea that the social stigma against slavery is a legacy of pre colonial society He argues to the contrary that the essentialist construal of slaves is the outcome of the historical process triggered by the colonial abolition of slavery whereas in pre abolition times slaves could be cleansed through ritual means the abolition of slavery meant that slaves were transformed only superficially into free persons while their inner essence remained unchanged and became progressively constructed as forever unchangeable Based on detailed fieldwork this volume will be of interest to scholars of anthropology African studies development studies cultural psychology and those looking at the legacy of slavery

Historical Dictionary of the Seventh-Day Adventists Gary Land, 2014-10-23 Seventh day Adventism was born as a radical millenarian sect in nineteenth century America It has since spread across the world achieving far more success in Latin America Africa and Asia than in its native land In what seems a paradox Adventist expectation of Christ's imminent return has led the denomination to develop extensive educational publishing and health systems Increasingly established within a variety of societies Adventism over time has modified its views on many issues and accommodated itself to the delay of the Second Advent In the process it has become a multicultural religion that nonetheless reflects the dominant influence of its American origins This second edition of Historical Dictionary of the Seventh Day Adventists covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on key people cinema politics and government sports and critics of Ellen White This book is an excellent access point for students researchers and anyone wanting to know more about Seventh day Adventism

Religions of the World J. Gordon Melton, Martin Baumann, 2010-09-21 This masterful six volume encyclopedia provides comprehensive global coverage of religion

emphasizing larger religious communities without neglecting the world's smaller religious outposts. *Religions of the World* Second Edition: A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work bringing together the scholarship of some 225 experts from around the globe. The encyclopedia's six volumes offer entries on every country of the world with particular emphasis on the larger nations as well as Indonesia and the Latin American countries that are traditionally given little attention in English language reference works. Entries include profiles on religion in the world's smallest countries, the Vatican and San Marino; profiles on religion in recently established or disputed countries, Kosovo and Nagorno Karabakh; as well as profiles on religion in some of the world's most remote places, Antarctica and Easter Island. *Religions of the World* is unique in that it is based in religion on the ground, tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world, its major geographical sites, and its major celebrations. Unlike other works, the encyclopedia also covers the world of religious unbelief as expressed in atheism, humanism, and other traditions.

Christian Remnant-African Folk Church Stefan Hörschele, 2007-01-01 Tanzanian Adventism exemplifies one of the most fascinating shifts in the history of religions: the growth of Christianity in Africa. Most striking in this account is the analysis of a minority denomination's transformation to a veritable folk church.

Messianic Zionism in the Digital Age Rachel Z. Feldman, 2024 In this groundbreaking ethnographic study of the transnational Third Temple and Children of Noah movements, *Messianic Zionism in the Digital Age* highlights the intimate effects of political theologies in motion, new forms of digital missionizing, and the birth of a new Judaic faith.

Encyclopedia of Christianity in the Global South Mark A. Lamport, 2018-06-01 Christianity has transformed many times in its 2 000 year history from its roots in the Middle East to its presence around the world today. From the mid twentieth century onward, the presence of Christianity has increased dramatically in Asia, Africa, and Latin America, and the majority of the world's Christians are now nonwhite and non-Western. The *Encyclopedia of Christianity in the Global South* traces both the historical evolution and contemporary themes in Christianity in more than 150 countries and regions. The volumes include maps, images, and a detailed timeline of key events. The phrases "Global Christianity" and "World Christianity" are inadequate to convey the complexity of the countries and regions involved; this encyclopedia, with its more than 500 entries, aims to offer rich perspectives on the varieties of Christianity where it is growing, how the spread of Christianity shapes the faith in various regions, and how the faith is changing worldwide.

Religion Online August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 *Religion Online* provides new insights about religiosity in a contemporary context, offering a comprehensive look at the intersection of digital media, faith communities, and practices of all sorts. Recent research on Apple users, video games, virtual worlds, artificial intelligence, digital music, and sports as religion supports the idea that media and religion, once considered separate entities, are in many cases the same thing. New media and religious practice can no longer be detached; this two-volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization.

autonomous religious worship millennials affinity for new media and the rise of fundamentalism in the global south While other works describe case studies this book explains how new media are interwoven into the very fabric of religious belief behavior and community Chapters break down the past present and projected future of the use of digital media in relation to faith traditions of many varieties extending from mainline Christianity to new religious movements The book also examines the impacts of digital media on beliefs and practices around the world In exploring these subjects it calls on the study of culture namely anthropology to conceptualize a technological period as significant as the industrial revolution *The Anthropology of Christianity* Fenella Cannell, 2006-11-07 Ethnographies exploring the vastly different ways that Christianity is experienced and understood by different groups around the world **Beyond the Lens of Conservation** Eva Keller, 2015-02-01 The global agenda of Nature conservation has led to the creation of the Masoala National Park in Madagascar and to an exhibit in its support at a Swiss zoo the centerpiece of which is a mini rainforest replica Does such a cooperation also trigger a connection between ordinary people in these two far flung places The study investigates how the Malagasy farmers living at the edge of the park perceive the conservation enterprise and what people in Switzerland see when looking towards Madagascar through the lens of the zoo exhibit It crystallizes that the stories told in either place have almost nothing in common one focuses on power and history the other on morality and progress Thus instead of building a bridge Nature conservation widens the gap between people in the North and the South Sex and Salvation Jennifer Cole, 2010-12-15 Sex and Salvation chronicles the coming of age of a generation of women in Tamatave in the years that followed Madagascar's economic liberalization Eager to forge a viable future amid poverty and rising consumerism many young women have entered the sexual economy in hope of finding a European husband Just as many Westerners believe that young people break with the past as they enter adulthood Malagasy citizens fear that these women have severed the connection to their history and culture Jennifer Cole's elegant analysis shows how this notion of generational change is both wrong and consequential It obscures the ways young people draw on long standing ideas of gender and sexuality it ignores how urbanites relate to their rural counterparts and it neglects the relationship between these husband seeking women and their elders who join Pentecostal churches And yet as talk about the women circulates through the city's neighborhoods bars Internet cafes and churches it teaches others new ways of being Cole's sophisticated depiction of how a generation's coming of age contributes to social change eschews a narrow focus on crisis Instead she reveals how fantasies of rupture and conceptions of the changing life course shape the everyday ways that people create the future Cadence of Life Sheila Aketch Orero, 2024-12-24 This book explores the multifaceted realities of religious conversion challenging conventional notions of faith identity and change Using sociological concepts of the study of every day and lived religion it examines the lifestyles of the Adventist Massai in Arusha and Manyara Guided by the multimodal approach the study seeks to understand conversion from the Massai perspectives highlighting their experiences of change and the negotiations they undergo as

reflected in their everyday practice and routines

Schism Christie Chui-Shan Chow, 2021-10-15 Schism is the first ethnographic and historical study of Seventh day Adventism in China. Scholars have been slow to consider Chinese Protestantism from a denominational standpoint. In Schism, the first monograph that documents the life of the Chinese Adventist denomination from the mid 1970s to the 2010s, Christie Chui Shan Chow explores how Chinese Seventh day Adventists have used schism as a tool to retain, revive, and recast their unique ecclesial identity in a religious habitat that resists diversity. Based on unpublished archival materials, fieldwork, oral history, and social media research, Chow demonstrates how Chinese Adventists adhere to their denominational character both by recasting the theologies and faith practices that they inherited from American missionaries in the early twentieth century and by engaging with local politics and culture. This book locates the Adventist movement in broader Chinese sociopolitical and religious contexts and explores the multiple agents at work in the movement, including intrachurch divisions among Adventist believers, growing encounters between local and overseas Adventists, and the denomination's ongoing interactions with local Chinese authorities and other Protestants. The Adventist schisms show that global Adventist theology and practices continue to inform their engagement with sociopolitical transformations and changes in China today. Schism will compel scholars to reassess the existing interpretations of the history of Protestant Christianity in China during the Maoist years and the more recent developments during the Reform era. It will interest scholars and students of Chinese history and religion, global Christianity, American religion, and Seventh day Adventism.

A Problem of Presence Matthew Engelke, 2007-05-21 The Friday Masowe apostolics of Zimbabwe refer to themselves as the Christians who don't read the Bible. They claim they do not need the Bible because they receive the Word of God live and direct from the Holy Spirit. In this insightful and sensitive historical ethnography, Matthew Engelke documents how this rejection of scripture speaks to longstanding concerns within Christianity over mediation and authority. The Bible, of course, has been a key medium through which Christians have recognized God's presence. But the apostolics perceive scripture as an unnecessary, even dangerous, mediator. For them, the materiality of the Bible marks a distance from the divine and prohibits the realization of a live and direct faith. Situating the Masowe case within a broad comparative framework, Engelke shows how their rejection of textual authority poses a problem of presence, which is to say how the religious subject defines and claims to construct a relationship with the spiritual world through the semiotic potentials of language, actions, and objects. Written in a lively and accessible style, *A Problem of Presence* makes important contributions to the anthropology of Christianity, the history of religions in Africa, semiotics, and material culture studies.

The Anthropology of Protestantism Joseph Webster, 2013-06-19 Through his ethnographic study of the fishermen and their religious beliefs, Webster speaks to larger debates about religious radicalism, materiality, economy, language, and the symbolic. These debates also call into question assumptions about the decline of religion in modern industrial societies.

Spirits and Letters Thomas G. Kirsch, 2011 This work offers a substantial intervention into broader

debates about religion media and materiality

Gender, Catholicism, and Morality in Brazil M. Mayblin, 2010-03-29

Through the ethnography of a Catholic community in Northeast Brazil Maya Mayblin offers a vivid and provocative rethink of gendered portrayals of Catholic life For the residents of Santa Lucia life is conceptualized as a series of moral tradeoffs between the sinful and productive world against an idealized state of innocence conceived with reference to local Catholic teachings As marriage marks the beginning of a productive life in the world it also marks a phase in which moral personhood comes most actively and poignantly to the fore This book offers lucid observations on how men and women as husbands and wives fathers and mothers negotiate this challenge As well as making an important contribution to the ethnographic literature on morality Christianity and Latin America the book offers a compelling alternative to received portrayals of gender polarity as symbolically all encompassing throughout the Catholic world

Evangelicalism and Conflict in Northern Ireland G. Ganiel, 2016-04-30 This innovative book explores the role of evangelical religion in the conflict in Northern Ireland including how it may contribute to a peaceful political transition Ganiel offers an original perspective on the role of a strong religion in conflict transformation and the misunderstood role of evangelicalism in the process

The Anthropology of Religious Charisma C. Lindholm, 2013-12-18 According to Max Weber charisma is opposed to bureaucratic order This collection reveals the limits of that formula The contributors show how charisma is a part of cultural frameworks while retaining its ecstatic character among American and Italian Catholics Syrian Sufis Taiwanese Buddhists Hassidic Jews and Amazonian shamans among others

Yoruba in Diaspora H. Harris, 2006-09-16 The Nigerian diaspora is now world wide and when Yoruba travel they take with them their religious organizations As a member of the Cherubim and Seraphim church in London for over thirty years anthropologist Hermione Harris explores a world of prayer spirit possession and divination through dreams and visions
