Road To Peace Nato And The International Community In Bosnia:

The Road to Peace Rupert Wolfe Murray, 1997 Combining photographs and interviews this volume documents the international operation underway in late 1990s Bosnia to enforce and stabilize the peace and promote political reconciliation and economic reconstruction The text also contains a summary of the Dayton Peace Agreement a report on minefields and numerous maps Parameters ,1998 *The International Community and Statebuilding* Patrice McMahon, Jon

Western, 2012-02-07 This book brings together policymakers and academics to analyse the international community's performance in post war statebuilding projects In the past twenty years statebuilding has emerged as a centerpiece of international efforts to stabilize violent conflicts From the Balkans to Iraq to Afghanistan it has become widely accepted that statebuilding defined as the development of transparent and accountable political institutions stable and sustainable economic structures professional public administrations and civilian controlled security services is essential to the long term stability of post conflict settlements *The International Community and Statebuilding* brings together senior level policymakers and academics in order to analyse the international community's performance in post war statebuilding projects Filling an important gap in the existing body of work on this topic the contributors explore how international statebuilders have attempted to negotiate the intersections of multilateralism competing strategic priorities and agendas organizational complexity and domestic politics This book will be of much interest to students of statebuilding peacebuilding war and conflict studies and International Relations in general **NATO's Peace Enforcement Tasks and Policy**

Communities Giovanna Bono, 2017-11-30 This book was published in 2003 How has NATO managed to survive and transform itself into a peace enforcement organization Challenging the dominant assumption that NATO intervened in the Balkans because of the threat that conflicts in the region posed to European security this book develops a new set of research questions based on the hypothesis of the existence of policy communities The author demonstrates that there were shifting policy communities in operations that shaped the Alliance's transformation process arguing that NATO would not have succeeded in assuming peace enforcement tasks without other factors ranging from organisational dynamics domestic politics and the impact of ad hoc reactions to external events coming into play Highlighting the role of NATO as an actor in international security this volume is aimed at academics and practitioners in the field of international relations *The Peace Process in the Former Yugoslavia* United States. Congress. Senate. Committee on Foreign Relations, 1996 **Foreign**

Bibliography of Sources on the Region of Former Yugoslavia Rusko Matulić, 1998 In this second volume Rusko Matulic continues to formulate a comprehensive bibliography of primarily published sources relating to the history languages literature politics government religion and social sciences of former Yugoslavia including bibliographical materials on expatriates *The UN International Criminal Tribunals* Klaus Bachmann, Aleksandar Fatić, 2015-03-24 Both the International Criminal Tribunal for the former Yugoslavia ICTY and the International Criminal Tribunal for Rwanda ICTR are now about to close Bachmann and Fatic look back at the achievements and shortcomings of both tribunals from an interdisciplinary perspective informed by sociology political science history and philosophy of law and based upon on two key notions the concepts of legitimacy and efficiency The first asks to what extent the input creation of the ICTY and the ICTR can be regarded as legitimate in light of the legal and public debate in the early 1990s The second confronts the output the procedures and decisions of the ICTY and the ICTR with the tasks both tribunals were assigned by the UN Security Council the General Assembly and by key organs the president and the chief prosecutors The authors investigate to what extent the ICTY and the ICTR have delivered the expected results whether they have been able to contribute to the maintenance of peace stabilization of the conflict regions or even managed to provide reconciliation to Rwanda Furthermore the book is concerned with how many criminals over whom the ICTY and the ICTR wield jurisdiction have actually been prosecuted and at what cost Offering the first balanced and in depth analysis of the International Criminal Tribunals the volume provides an important insight into what lessons have been learned and how a deeper understanding of the successes and failures can benefit the international legal community in the future

History offers a new way of looking at how societies reinvent themselves **Weekly Compilation of Presidential Documents** ,1998 **US Department of State Dispatch** ,1998 Peace Operations and Common Sense Denis McLean,1996 Engineering Peace Garland H. Williams,2005 In practically all the peacekeeping operations of the 1990s a postconflict reconstruction gap of almost one year separates the end of military peacekeepers mission of halting mass violence from the start of removing mines as well as rebuilding and repairing the host country s physical infrastructure roads and bridges public utilities and buildings In this timely work Colonel Garland Williams analyzes the postconflict reconstruction gap in three case studies Bosnia Kosovo and Afghanistan and shows how military engineering brigades accompanying peacekeeping contingents can be put to use immediately after the conflict ends to restore vital infrastructure and social institutions In the book s concluding chapter Williams proposes changes in U S national security decision making to integrate military engineering brigades into postconflict reconstruction thus making U S military officials less wary of mission creep and nation building *Enforcing the Peace* Kimberly Zisk Marten,2004-09-29 Anarchy makes it easy for terrorists to set up shop Yet the international community has been reluctant to commit the necessary resources to peacekeeping with devastating results locally and around the globe This daring new work argues that modern peacekeeping operations and military occupations bear a surprising resemblance to the imperialism practiced by liberal states a century ago Motivated by a similar combination of self interested and humanitarian goals liberal democracies in both eras have wanted to maintain a presence on foreign territory in order to make themselves more secure while sharing the benefits of their own cultures and societies Yet both forms of intervention have inevitably been undercut by weak political will inconsistent policy choices and their status as a low priority on the agenda of military organizations In more recent times these problems are compounded by the need for multilateral cooperation something even NATO finds difficult to achieve but is now necessary for legitimacy Drawing lessons from this provocative comparison Kimberly Zisk Marten argues that the West s attempts to remake foreign societies in their own image even with the best of intentions invariably fail Focusing on operations in Haiti Bosnia Kosovo and East Timor in the mid to late 1990s while touching on both post war Afghanistan and the occupation of Iraq *Enforcing the Peace* compares these cases to the colonial activities of Great Britain France and the United States at the turn of the twentieth century The book weaves together examples from these cases using interviews Marten conducted with military officers and other peacekeeping officials at the UN NATO and elsewhere Rather than trying to control political developments abroad Marten proposes a more sensible goal of foreign intervention is to restore basic security to unstable regions threatened by anarchy The colonial experience shows that military organizations police effectively if political leaders prioritize the task and the time has come to raise the importance of peacekeeping on the international agenda **Modern Military Strategy** Elinor C. Sloan,2016-10-11 This textbook provides a comprehensive introduction to post Cold War military theory for students of strategic studies This second edition has been fully revised and

updated including a new chapter on peacekeeping and examines contemporary strategic thought on the conduct of war in the sea land air nuclear space and cyber domains as well as irregular warfare Each chapter identifies contemporary strategic thinkers in a particular area examines strategic thought through the lens of identifiable themes and discusses the ideas of classical strategists to provide historical context Examples of the link between the use of military force and the pursuit of political objectives are presented such as airpower against ISIS and in Libya counterinsurgency in Afghanistan and Iraq counter piracy operations off the coast of Africa and the Stuxnet virus in Iran The chapters identify trends statements and principles that indicate how military power can best be employed to effect political ends while the conclusion paints an overall picture of the relationship between classic and contemporary strategic thinking within each warfare domain This book will be essential reading for students of strategic studies war studies and military history and is highly recommended for students of security studies and international relations in general *Freedom in the World: 2001-2002* Adrian Karatnycky, 2018-01-18 Freedom in the World is an institutional effort by Freedom House to monitor the progress and decline of political rights and civil liberties in 192 nations and 17 related and disputed territories
