To the Stars Over Rough Roads Donald Frederick Nelson, 2008

The Way of the Stars Robert Cameron Sibley, 2012 Since medieval times pilgrimages have been a popular religious or spiritual undertaking Even today between seventy and one hundred million people a year make pilgrimages if not for expressly religious reasons then for an alternative to secular goals and the preoccupation with consumption and entertainment characteristic of contemporary life In The Way of the Stars the journalist Robert Sibley motivated at least in part by his own sense of discontent recounts his walks on one of the most well known pilgrimages in the Western world the Camino de Santiago A medieval route that crosses northern Spain and leads to the town of Santiago de Compostela the Camino has for hundreds of years provided for pilgrims the practice the place and the circumstances that allow for spiritual rejuvenation reflection and introspection Sibley who made the five hundred mile trek twice initially on his own and then eight years later with his son offers a personal narrative not only of the outward journey of a pilgrim's experience on the road to Santiago but also of the inward journey afforded by an interlude of solitude and a respite from the daily demands of ordinary life The month long trip put the author on a path through his own memories dreams and self perceptions as well as through the sights and sounds the tastes and sensations of the Camino itself

awarded an honorary doctorate for his work despite having no formal education beyond the eighth grade His skill at the telescope is legendary During his career he photographed the spectra of stars galaxies and other objects many thousands of times fainter than can be seen with the naked eye and pushed the boundary of the known universe deeper into space than any before him His work which included assisting in the formulation of Hubble's Law of redshifts helped to set the field of cosmology solidly on its foundation Milton Humason was one of the most charismatic characters in science during the first half of the 20th century Uneducated streetwise moonshining roguish humble and thoroughly down to earth he rose by sheer chance innate ability and incredible will to become the leading deep space observer of his day The Renaissance man of Mount Wilson as Harlow Shapley once referred to him Humason's extraordinary life reminds us that passion and purpose may find us at any moment

The Stars of Ballymenone, New Edition Henry Glassie, 2016-09-12 In the time of the Troubles when bombs blew through the night and soldiers prowled down the roads Henry Glassie came to the Irish borderland to learn how country people endure through history He settled into the farming community of Ballymenone beside Lough Erne in the County Fermanagh and listened to the old people For a decade he heard and recorded the stories and songs in which they outlined their culture recounted their history and pictured their world In their view their world was one of love defeat and uncertainty demanding the virtues of endurance faith bravery and wit Glassie s task in this book is to set the scene to sketch the backdrop and clear the stage so that Hugh Nolan and Michael Boyle Peter Flanagan Ellen Cutler and their neighbors can tell their own tale which explains their conditions and converts them into a tragedy of conflict and a comedy of the absurd It gathers the saints and warriors and celebrates the stars whose wit enabled endurance in days of violence and deprivation With patience and respect Glassie describes life in a time and a place exactly like no other and yet Ballymenone is like a thousand other places where people work on the land during the day and tell their own tales at night forgotten while the men of power fill the newspapers and history books by sending poor boys out to be killed The Stars of Ballymenone is an integrated analysis of the complete repertory of verbal art from a rural community where storytelling and singing of quality remained a part of daily life
