## **Roads Of Excess Palaces Of Wisdom:**

Roads of Excess, Palaces of Wisdom Jeffrey J. Kripal, 2001-12 William Blake once wrote that The road of excess leads to the palace of wisdom Inspired by these poetic terms Jeffrey J Kripal reveals how the works of scholars of mysticism are often rooted in their own mystical experiences roads of excess which can both lead to important insights into these scholars works and point us to our own palaces of wisdom In his new book Kripal addresses the twentieth century study of mysticism as a kind of mystical tradition in its own right with its own unique histories discourses sociological dynamics and rhetorics of secrecy Fluidly combining autobiography and biography with scholarly exploration Kripal takes us on a tour of comparative mystical thought by examining the lives and works of five major historians of mysticism Evelyn Underhill Louis Massignon R C Zaehner Agehananda Bharati and Elliot Wolfson as well as relating his own mystical experiences The result Kripal finds is seven palaces of wisdom the religious power of excess the necessity of distance in the study of mysticism the relationship between the mystical and art the dilemmas of male subjectivity and modern heterosexuality a call for ethical criticism the paradox of the insider outsider problem in the study of religion and the magical power of texts and their interpretation An original and penetrating analysis of modern scholarship and scholars of mysticism Roads of Excess Palaces of Wisdom is also a persuasive demonstration of the way this scholarly activity is itself a mystical phenomenon

*The Superhumanities* Jeffrey J. Kripal, 2022-09-23 A bold challenge to rethink the humanities as intimately connected to the superhuman and to decolonize reality itself What would happen if we reimagined the humanities as the superhumanities If we acknowledged and celebrated the undercurrent of the fantastic within our humanistic disciplines entirely new cultural worlds and meanings would become possible That is Jeffrey J Kripal s vision for the future to revive the suppressed dimension of the superhumanities which consists of rare but real altered states of knowledge that have driven the creative processes of many of our most revered authors artists and activists In Kripal s telling the history of the humanities is filled with precognitive dreams evolving superhumans and doubled selves The basic idea of the superhuman for Kripal is at the core of who and what the human species has tried to become over millennia and around the planet After diagnosing the basic malaise of the humanities that the truth must be depressing Kripal shows how it can all be done differently He argues that we have to decolonize reality itself if we are going to take human diversity seriously Toward this pluralist end he engages psychoanalytic Black critical feminist postcolonial queer and ecocritical theory He works through objections to the superhumanities while also recognizing the new realities represented by the contemporary sciences In doing so he tries to move beyond naysaying practices of critique toward a future that can embrace those critiques within a more holistic view a view that recognizes the human being as both a social political animal as well as an evolved cosmic species that understands and experiences itself as something super

Sravana Borkataky-Varma, Sarabinh Levy-Brightman, 2025-06-06 Embodied Pedagogies in the Study of Religion provides a forum for creative renowned teachers professors and instructors of religion to discuss ways in which they think about the embodied dimension of teaching and learning specific to their areas of expertise and how they have shaped their curriculum to engage and reflect their thinking The goal of this volume is multiple It will showcase deeply thoughtful and creative approaches to teaching and learning that will inspire other teachers and vivify the teaching and academic study of religion It will raise complex epistemological and ontological issues that underpin the craft of teaching but are rarely discussed and even more rarely discussed with sophistication and about the craft itself It will raise these issues in relation to multiple traditions that hold different and at times conflicting epistemologies and ontologies thus opening a truly cross cultural

comparative dialogue This cutting edge volume is an open ended conversation that embraces the exploration of different pedagogies with different kinds of content and quests for different forms of learning and understanding Ultimately this volume will contribute to a developing conversation in religious studies that moves beyond rigid orthodoxies to a place of open creative productive and enacted exploration cultivation and theorization Savoring God Gloria Maité Hernández,2021 Savoring God is at comparative study featuring the Christian C ntico espiritual Spiritual Canticle by the sixteenth century Spanish poet and theologian Saint John of the Cross and the Hindu Sanskrit R sa L l Dance of Love which originated in the oral tradition The poems are examined alongside theological commentaries The comparisons examine the interactions between poetical language and theological discourse **Psychedelic Mysticism** Morgan Shipley,2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politicians but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world Christian Mysticism's Queer Flame Michael Bernard Kelly,2018-09-03 Is the Christian mystical tradition a relic of another time shaped by celibates for celibates unable to engage meaningfully with people of our time who embrace their corporeality and

sexuality as crucial aspects of their journey towards union with God This book reflects in serious theological depth and detail on the spiritual and sexual journeys of gay men of mature and committed Christian faith employing the Christian mystical tradition as the lens and the interlocutor in this process This study examines the major themes and stages of the mystical tradition as outlined by Evelyn Underhill but also including more recent work by Ruth Burrows Thomas Merton and Constance Fitzgerald Using methods of qualitative research it then considers the texts of in depth interviews conducted with men most of whom are theologians or spiritual leaders with a deep Catholic faith and all of whom are openly self affirmingly gay Finally it employs Ricoeur s hermeneutical theory to engage in a creative theological conversation between the traditional mystical stages and themes and these men s lives as described in their interviews This is a unique study that brings together ancient spirituality with contemporary lived religion As such it will be of interest to scholars of religious studies theology Christian mysticism and spirituality and queer studies It will be of particular interest to those teach spiritual direction and to all who seek new ways to engage with the spiritual lives of LGBTIQ people

**Gnosticism and the History of Religions** David G. Robertson, 2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the

divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation

**Who Owns Religion?** Laurie L. Patton, 2019-11-27 Who Owns Religion focuses on a period the late 1980s through the 1990s when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined themselves honoring through their work While controversies involving scholarly claims about religion are nothing new this period saw an increase in vitriol that remains with us today Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book banning campaigns As a result scholars of religion have struggled to describe their own work to their various publics and even to themselves Taking the reader through several compelling case studies Patton identifies two trends of the 80s and 90s that fueled that rise the growth of multicultural identity politics which enabled a form of volatile public debate she terms eruptive public space and the advent of the internet which offered new ways for religious groups to read scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton's book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing *The Mystic Experience*

Jordan Paper, 2012-02-01 The mystic zero or void experience the ecstatic disappearance of self along with everything else is considered by those who have had it to be the most beautiful blissful positive profound and significant experience of their lives Offering both a descriptive and a comparative perspective this book explores the mystic experience across cultures as both a human and cultural event The book begins and ends with descriptions of the author's own mystical experiences and looks at self reported experiences by individuals who do not link their experiences to a religious tradition to determine characteristics of this universal human experience These characteristics are compared to statements of acknowledged mystics in diverse religious traditions The mystic experience is also situated within other ecstatic religious experiences to distinguish it from similar but distinct experiences such as lucid dreams shamanism and mediumism Jordan Paper goes on to look at how the mystic experience has been considered in various fields such as sociology psychology anthropology biology and comparative religious studies

**Esalen** Jeffrey J. Kripal, 2011-09-07 Jeffrey Kripal here recounts the spectacular history of Esalen the institute that has long been a world leader in alternative and experiential education and stands today at the center of the human potential movement Forged in the literary and mythical leanings of the Beat Generation inspired in the lecture halls of Stanford by radical scholars of comparative religion the institute was the remarkable brainchild of Michael Murphy and Richard Price Set against the heady backdrop of California during the revolutionary 1960s Esalen recounts in fascinating detail how these two maverick thinkers sought to fuse the spiritual revelations of the East with the scientific

revolutions of the West or to combine the very best elements of Zen Buddhism Western psychology and Indian yoga into a decidedly utopian vision that rejected the dogmas of conventional religion In their religion of no religion the natural world was just as crucial as the spiritual one science and faith not only commingled but became staunch allies and the enlightenment of the body could lead to the full realization of our development as human beings An impressive new book Kripal has written the definitive intellectual history of the ideas behind the institute San Francisco Chronicle Kripal examines Esalen s extraordinary history and evocatively describes the breech birth of Murphy and Price s brainchild His real achievement though is effortlessly synthesizing a dizzying array of dissonant phenomena Cold War espionage ecstatic religiosity incongruous pairings Darwinism Tantric sex and otherwise schizy ephemera psychedelic drugs spaceflight into a cogent satisfyingly complete narrative Atlantic Monthly Kripal has produced the first all encompassing history of Esalen its intellectual social personal literary and spiritual passages Kripal brings us up to date and takes us deep beneath historical surfaces in this definitive elegantly written book Playboy

**Authors of the Impossible** Jeffrey J. Kripal, 2024-05-31 Outstanding and almost certainly controversial Kripal has promise to revitalize and extend the reach of religious studies Choice Most scholars dismiss research into the paranormal as pseudoscience a frivolous pursuit for the paranoid or gullible Even historians of religion whose work naturally attends to events beyond the realm of empirical science have shown scant interest in the subject But the history of psychical phenomena Jeffrey J Kripal contends is an untapped source of insight into the sacred and by tracing that history through the last two centuries of Western thought we can see its potential centrality to the critical study of religion Kripal grounds his study in the work of four major figures in the history of paranormal research psychical researcher Frederic Myers writer and humorist Charles Fort astronomer computer scientist and ufologist Jacques Vallee and philosopher and sociologist Bertrand M heust Through incisive analyses of these thinkers Kripal ushers the reader into a beguiling world somewhere between fact fiction and fraud The cultural history of telepathy teleportation and UFOs a ghostly love story the occult dimensions of science fiction cold war psychic espionage galactic colonialism and the intimate relationship between consciousness and culture all come together in Authors of the Impossible a dazzling and profound look at how the paranormal bridges the sacred and the scientific An excellent book engaging witty and thoughtful Christopher Partridge Lancaster University Kripal demands nothing short of a paradigm shift in order to make sense of the odd the anomalous and the inexplicable Catherine L Albanese University of California Santa Barbara Quietly earth shattering Victoria Nelson author of The Secret Life of Puppets
