On Robert Antelme's The Human Race Robert Antelme, 2003 Table of contents *The Human Race* Robert Antelme, 1998 Arrested by the Gestapo and deported to Dachau Robert Antelme recovered his freedom a year later when François Mitterrand visiting the camp in an official capacity recognized the dying Antelme and had him spirited to Paris Antelme's story of his experiences in Germany his only book indelibly marked an entire generation a work written without hatred a work of boundless compassion such as that is to be found only in the great Russians Also available *On the Human Race* Essays and Commentary **Robert Antelme** Martin Crowley, 2017-12-02 Best known for his 1947 memoir *L'Espèce humaine* Robert Antelme 1917-1990 is a central figure in the history of the European response to the Nazi concentration camps In this first study in any language to be devoted to Antelme's work Martin Crowley reveals the author's vital yet insufficiently recognized influence on recent thought in France and elsewhere about such questions as the nature of community and the indivisibility of humanity He explores the conclusions Antelme drew from his deportation and his involvement with the post-war French left and provides the first detailed textual criticism of *L'Espèce humaine* Examining the responses to the author's writing by such figures as Blanchot Pécqueur Agamben Nancy and Derrida Crowley demonstrates Antelme's key contribution to the development of modern European thought **Theoretical Interpretations of the Holocaust**, 2021-10-25 This book aims to show the many resources at our disposal for grappling with the Holocaust as the darkest occurrence of the twentieth century These wide-ranging studies on philosophy history and literature address the way the Holocaust had led to the reconceptualization of the humanities The scholarly approaches of Pierre Klossowski Georges Bataille and Maurice Blanchot are examined critically and the volume explores such poignant topics as violence evil and monuments *The Documentary Imagination in Twentieth-century French Literature* Alison Siân James, 2020 Studying works by authors including Gide Breton Aragon Yourcenar Duras and Modiano this volume rethinks twentieth-century French literature and engages with the question of distinctions between the factual and the fictional **Vengeance ?** Robert Antelme, 2005 Il n'y a pas de problème le prisonnier est un être sacré parce que c'est un être libre et qu'il a perdu toutes ses chances Nous ne voulons plus que l'on joue avec les hommes Tout ce qui peut ressembler même de loin ce que nous avons vu là-bas nous décompose littéralement Ces phrases écrites par Robert Antelme en 1945 peu après sa sortie du camp de Dachau en rapport au sort réservé en France aux Allemands prisonniers nous ont semblé d'une actualité telle qu'elle justifie la réédition aujourd'hui de ces deux courts textes parus dans la revue *Les vivants* Cahiers publiés par des prisonniers et déportés *Crimes of the Future* Jean-Michel Rabaté, 2014-04-24 The decade since the publication of Jean-Michel Rabaté's controversial manifesto *The Future of Theory* saw important changes in the field The demise of most of the visible French or German philosophers who had produced texts that would trigger new debates then to be processed by Theory has led to drastic revisions and starker assessments Globalization has been the most obvious factor to modify the selection of texts

studied During the twentieth century Theory incorporated poetics rhetorics aesthetics and linguistics while also opening itself to continental philosophy What has changed today The knowledge that we live in a de centered world has destabilized the primacy granted to a purely Western canon Moreover much of contemporary theory remains highly allusive and this is often baffling for students Theory keeps recycling itself producing authentic returns of basic theses terms and concepts Canonical modern theorists often return to classical texts as those of Plato Kant Hegel Nietzsche And now we want to know what is new Crimes of the Future explores the past present and potential future of Theory *After the Deportation* Philip Nord,2020-12-03 Examines the change in memory regime in postwar France from one centered on the concentration camps to one centered on the Holocaust **Stop Thief!** Catherine Malabou,2023-11-08 Many contemporary philosophers including Michel Foucault Jacques Derrida and Giorgio Agamben ascribe an ethical or political value to anarchy but none ever called themselves an anarchist It is as if anarchism were unmentionable and had to be concealed even though its critique of domination and of government is poached by the philosophers Stop Thief calls out the plundering of anarchism by philosophy It s a call that is all the more resonant today as the planetary demand for an alternative political realm raises a deafening cry It also alerts us to a new philosophical awakening Catherine Malabou proposes to answer the cry by re elaborating a concept of anarchy articulated around a notion of the non governable far beyond an inciting of disobedience or common critiques of capitalism Anarchism is the only way out the only pathway that allows us to question the legitimacy of political domination and thereby wfree up the confidence that we need if we are to survive **Constraining Chance** Alison James,2009-02-03 This text examines the representation and staging of chance in literature through the study of a specific case the work of the 20th century French writer Georges Perec 1936 82 Anti-Zionism and Antisemitism Alvin H. Rosenfeld,2019-01-09 Seventeen essays by scholars examining the links between anti Semitism and attitudes toward Israel in the current political climate How and why have anti Zionism and antisemitism become so radical and widespread This timely and important volume argues convincingly that today s inflamed rhetoric exceeds the boundaries of legitimate criticism of the policies and actions of the state of Israel and conflates anti Zionism with antisemitism The contributors give the dynamics of this process full theoretical political legal and educational treatment and demonstrate how these forces operate in formal and informal political spheres as well as domestic and transnational spaces They offer significant historical and global perspectives of the problem including how Holocaust memory and meaning have been reconfigured and how a singular and distinct project of delegitimization of the Jewish state and its people has solidified This intensive but extraordinarily rich contribution to the study of antisemitism stands out for its comprehensive overview of an issue that is both historical and strikingly timely Narrative Machine Zena Meadowsong,2018-11-20 Narrative Machine The Naturalist Modernist and Postmodernist Novel advances a new history of the novel identifying a crucial link between narrative innovation and the historical process of mechanization In the late nineteenth century the novel grapples with a new and increasingly acute problem In its attempt to

represent the colossal power of modern machinery the steam driven machines of the Industrial Revolution the electrical machines of the modern city and the atomic and digital machines developed after the Second World War it encounters the limitations of traditional representative strategies Beginning in the naturalist novel the machine is typically portrayed as a mythic monster and though that monster represents a potentially horrific reality the superhuman power of mechanization it also disrupts the documentary objectives of narrative realism the dominant mode of nineteenth century fiction The mechanical monster realistic and yet at odds with traditional realist strategies tears the form of the novel apart In doing so it unleashes a series of innovations that disclose critique and contest the force of mechanization the innovations associated with literary naturalism modernism and postmodernism

Trauma and the Memory of Politics Jenny Edkins,2003-07-31 In this interesting study Jenny Edkins explores how we remember traumatic events such as wars famines genocides and terrorism and questions the assumed role of commemorations as simply reinforcing state and nationhood Taking examples from the World Wars Vietnam the Holocaust Kosovo and September 11th Edkins offers a thorough discussion of practices of memory such as memorials museums remembrance ceremonies the diagnosis of post traumatic stress and the act of bearing witness She examines the implications of these commemorations in terms of language political power sovereignty and nationalism She argues that some forms of remembering do not ignore the horror of what happened but rather use memory to promote change and to challenge the political systems that produced the violence of wars and genocides in the first place This wide ranging study embraces literature history politics and international relations and makes a significant contribution to the study of memory

Sources of Holocaust Insight John K. Roth,2020-01-29 Sources of Holocaust Insight maps the odyssey of an American Christian philosopher who has studied written and taught about the Holocaust for more than fifty years What findings result from John Roth s journey what moods pervade it How have events and experiences scholars and students texts and testimonies especially the questions they raise affected Roth s Holocaust studies and guided his efforts to heed the biblical proverb Whatever else you get get insight More sources than Roth can acknowledge have informed his encounters with the Holocaust But particular persons among them Elie Wiesel Raul Hilberg Primo Levi and Albert Camus loom especially large Revisiting Roth s sources of Holocaust insight this book does so not only to pay tribute to them but also to show how the ethical philosophical and religious reverberations of the Holocaust confer and encourage responsibility for human well being in the twenty first century Seeing differently seeing better sound learning and teaching about the Holocaust aim for what may be the most important Holocaust insight of all Take nothing good for granted

Trauma Culture E. Ann Kaplan,2005-07-11 It may be said that every trauma is two traumas or ten thousand depending on the number of people involved How one experiences and reacts to an event is unique and depends largely on one s direct or indirect positioning personal psychic history and individual memories But equally important to the experience of trauma are the broader political and cultural contexts within which a catastrophe takes place and how it is managed by institutional forces

including the media In *Trauma Culture* E Ann Kaplan explores the relationship between the impact of trauma on individuals and on entire cultures and nations Arguing that humans possess a compelling need to draw meaning from personal experience and to communicate what happens to others she examines the artistic literary and cinematic forms that are often used to bridge the individual and collective experience A number of case studies including Sigmund Freud's *Moses and Monotheism* Marguerite Duras's *La Douleur* Sarah Kofman's *Rue Ordener Rue Labat* Alfred Hitchcock's *Spellbound* and Tracey Moffatt's *Night Cries* reveal how empathy can be fostered without the sensationalistic element that typifies the media From World War II to 9/11 this passionate study eloquently navigates the contentious debates surrounding trauma theory and persuasively advocates the responsible sharing and translating of catastrophe

Solidarities with the Non/Human, or, Posthumanism in Literature Stefan Herbrechter, 2024-11-18 This volume collects essays written over the last decade by one of the founders and leading figures of the theoretical movement of critical posthumanism The readings of literary texts gathered here from Shakespeare Keats Camus Vittorini Kundera Haushofer Atwood Eagleman Crace and DeLillo focus on posthumanist moments in which questions of postanthropocentrism and the nonhuman become prominent are negotiated and ultimately foreclosed They show how a deconstructively minded way of reading humanistically motivated texts can help making these texts relevant for our so called posthuman times In doing so these critical posthumanist readings demonstrate that literature remains one of the privileged cultural institutions and practices from which solidarities both with and between the human and nonhuman can be formed and negotiated

Samuel Beckett and the Terror of Literature Christopher Langlois, 2017-06-09 *Samuel Beckett and the Terror of Literature* addresses the relevance of terror to understanding the violence the suffering and the pain experienced by the narrative voices of Beckett's major post 1945 works in prose The Unnamable *Texts for Nothing* *How It Is* *Company* *Ill Seen Ill Said* and *Worstward Ho* Through a sustained dialogue with the theoretical work of Maurice Blanchot it accomplishes a systematic interrogation of what happens in the space of literature when writing and first of all Beckett's encounters the language of terror thereby giving new significance ethical ontological and political to what speaks in Beckett's texts

Uncommon Friendships William Young, 2010-01-01 *Uncommon Friendship* explores the often overlooked dynamic of interreligious friendships considering their significance for how we think about contemporary religious thought By exploring the dynamics of three relationships between important religious thinkers Franz Rosenzweig and Eugen Rosenstock Huessy Emmanuel Levinas and Maurice Blanchot and Julia Kristeva and Catherine Clement this study demonstrates the ways such friendships enable innovation and transformation within religious traditions For each pair of thinkers the sustained engagement and disagreement between them becomes central to their religious and

philosophical development helping them to respond effectively and creatively to issues and problems facing their communities and societies Through a rereading of their work Young shows how such friendships can help us rethink religion aesthetics education and politics as well as friendship itself An utterly remarkable treatise on the interreligious friendships that joined three pairs of the great thinkers of twentieth century Europe I know of nothing quite like this It is rigorous scholarship that has the sharp edge of cultural criticism and yet the inspiring effect of a philosophic and spiritual poem Its lesson is indeed uncommon that critical reason is strengthened by love that love is deepened by undomesticated difference and that in a quiet way the name of God may have a lot to do with all of the above Peter Ochs Edgar Bronfman Professor of Modern Judaic Studies University of Virginia An elegantly written and intellectually engaging study William Young's *Uncommon Friendships* offers a refreshing portrayal of the praxis of friendship and its ability to operate as a key element in the development of ideas generally and in efforts towards interreligious dialogue in particular Young's lucid descriptions of the long term intellectual engagements between Rosenstock Rosenzweig Levinas Blanchot Kristeva Clement highlight the embodied creative and often unsettling affects of friendship upon the evolution of an intellectual work Young's book deepens our understanding of the social character of knowledge and challenges readers to consider the value of a praxis of friendship as a check upon solipsism and the drive for truth and as a tool for cultivating patient listening and an openness regarding the contingency of our beliefs Randi Rashkover George Mason University
