The Weatherman Eugene O'Hare,2019-10-23 Don t know where I stand with the weatherman these days One day it s all warm and breezy and the next old Jack Frost comes to take the skin off your back A twelve year old Romanian girl is trafficked into London Her captor a city landlord known as Dollar entrusts her to the care of his tenants O Rourke and Beezer a pair of down and out bachelors sharing lodgings in the East End But with no reliable details of the girl s past vague speculation as to the reason for her arrival and no common language with which to communicate for how long and at what price can the involvement of her new guardians be bought Eugene O Hare s debut black comedy shines a light on complicity power and the secrets and lies woven behind closed doors and examines the no go lines that are crossed when it s too dangerous to run away

Females in the Frame Penelope Jackson,2019-07-29 This book explores the untold history of women art and crime It has long been widely accepted that women have not played an active role in the art crime world or if they have it has been the part of the victim or peacemaker Women Art and Crime overturns this understanding as it investigates the female criminals who have destroyed vandalised stolen and forged art as well as those who have conned clients and committed white collar crimes in their professional occupations in museums libraries and galleries Whether prompted by a desire for revenge for money the instinct to protect a loved one or simply as an act of quality control this book delves into the various motivations and circumstances of women art criminals from a wide range of countries including the UK the USA New Zealand Romania Germany and France Through a consideration of how we have come to perceive art crime and the gendered language associated with its documentation this pioneering study questions why women have been left out of the discourse to date and how by looking specifically at women we can gain a more complete picture of art crime history

William the Conqueror David

Bates,2016-11-01 Fifteen years in the making a landmark reinterpretation of the life of a pivotal figure in British and European history In this magisterial addition to the Yale English Monarchs series David Bates combines biography and a multidisciplinary approach to examine the life of a major figure in British and European history Using a framework derived from studies of early medieval kingship he assesses each phase of William s life to establish why so many trusted William to invade England in 1066 and the consequences of this on the history of the so called Norman Conquest after the Battle of Hastings and for generations to come A leading historian of the period Bates is notable for having worked extensively in the archives of northern France and discovered many eleventh and twelfth century charters largely unnoticed by English language scholars Taking an innovative approach he argues for a move away from old perceptions and controversies associated with William s life and the Norman Conquest This deeply researched volume is the scholarly biography for our generation **History of Henderson County, Kentucky** Edmund Lyne Starling,1887 **The Human Right to Water: Justice . . . or Sham?**

Evelyne Fiechter-Widemann,2017-05-05 Water is a matter of life and death Advanced technology and engineering enable humans to gain better access to it Nonetheless the conditions and effort required to reach this goal remain colossal in many countries Building a lasting infrastructure for adequate treatment before and after use is costly Therefore the author believes that a radical change of thinking among people around the world from the domestic to the large scale users becomes a priority Even if the United Nations entitles all people to justice for water more responsible and ethical use of it by all interested parties is more important than the spreading of promises which in practice may turn out to be a sham Only a better understanding that access to water rests on the efforts of everyone without exception will reduce overuse waste and pollution of the indispensable resource This volume while written from a theological philosophical and legal perspective focusing on John Calvin John Rawls and Paul Ricoeur demonstrates that water cannot be merely understood as a human right but also has to be dealt with from an economic point of view as well as under the authority of the Golden Rule
