**What Is World Literature?** David Damrosch, 2018-06-05 World literature was long defined in North America as an established canon of European masterpieces but an emerging global perspective has challenged both this European focus and the very category of the masterpiece The first book to look broadly at the contemporary scope and purposes of world literature What Is World Literature probes the uses and abuses of world literature in a rapidly changing world In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction David Damrosch looks at the ways works change as they move from national to global contexts Presenting world literature not as a canon of texts but as a mode of circulation and of reading Damrosch argues that world literature is work that gains in translation When it is effectively presented a work of world literature moves into an elliptical space created between the source and receiving cultures shaped by both but circumscribed by neither alone Established classics and new discoveries alike participate in this mode of circulation but they can be seriously mishandled in the process From the rediscovered Epic

of Gilgamesh in the nineteenth century to Rigoberta Menchú's writing today foreign works have often been distorted by the immediate needs of their own editors and translators. Eloquently written, argued largely by example and replete with insightful close readings, this book is both an essay in definition and a series of cautionary tales.

**Proceedings of the "Synergise!" Biennial National Conference of the Australian Institute of Interpreters and Translators** Annamaria Arnall, 2011-07-12. The Australian national association for the translating and interpreting profession AUSIT has been organising biennial conferences for the last decade. As they steadily grew in quality and importance, the time to share their proceedings with a global readership has arrived. For the first time, AUSIT is releasing in book format the proceedings of its latest conference held in November 2010 with the slogan Synergise. Presentations from an international gathering of speakers are collected in this volume, grouped into five chapters and addressing both theoretical and practical aspects of cross-cultural communication, the training of future practitioners and a wide range of specific circumstances influencing the day-to-day work of translators and interpreters, including the business side of managing a professional practice. The hallmark of the conference was the balance it achieved between academic interest and professional reality, between research and detailed practice, between theory and the exigencies of translators and interpreters' lives. The synergies achieved were much more than the simple sum of the components.

**The Art of History** Allan Nevins, 1967. Poetry and the Language of Oppression Carmen Bugar, 2021. Reflecting on the process of creating literature out of personal testimony and drawing on her own experience of political oppression and escaping persecution, Carmen Bugar explores the relationship between language and freedom.
