*Havana* Robert Polidori, Elizabeth Culbert, Eduardo Luis Rodríguez, 2001-01-01 Havana is a particularly rich setting for Polidori s inquiries The curves and columns that line the streets refer to past eras and speak of the political social and economic forces that have driven the city to its present condition

Aesthetics and the Revolutionary City James Clifford Kent, 2018-09-22 Aesthetics and the Revolutionary City engages in alternative ways of reading foreign visual representations of Havana through analysis of advertising images documentary films and photographic texts It explores key narratives relating to the projection of different Havana imaginaries and focuses on a range of themes including pre revolutionary Cuba the dream of revolution and the metaphor of the city frozen in time The book also synthesizes contemporary debates regarding the notion of Havana as a real and imagined city space and fleshes out its theoretical insights with a series of stand alone important case studies linked to the representation of the Cuban capital in the Western imaginary The interpretations in the book bring into focus a range of critical historical moments in Cuban history including the Cuban Revolution and the Special Period and consider the ways in which they have been projected in advertising documentary film and photography outside the island

**Chronophagia** Robert Polidori, 2014 From his images of the Chateau of Versailles under restoration to the

faded grandeur of Havana to scenes of devastation from Chernobyl after the nuclear explosion and a New Orleans ravaged by Hurricane Katrina Robert Polidori is drawn to detritus shattered worlds and elegant ruin Often considered an architectural photographer Polidori captures more than buildings his highly detailed views of interiors evoke both the intimate and the mysterious wherein the humanity of these photos is felt in its very absence in the traces left behind in vacant spaces once inhabited This book is a sampling of Polidori s many famous projects created from the artist s own selection of more than one hundred photographs The result is a compendium of Polidori s twenty eight year career and a visual exploration of the liminal space between past and present of worlds on the brink of disappearance **Caviar with Rum** Jacqueline Loss, José Manuel Prieto González, 2012-09-06

No country in Latin America has escaped the symbolic influence of the United States to the extent that Revolutionary Cuba has This resistance meant that for approximately three decades the Soviet Union had an invitation to intervene in practically all Cuban spheres With sixteen essays by renowned writers and artists **Caviar with Rum** Cuba USSR and the Post Soviet Experience is the first book of its kind to bring to life how and why the Soviet period is revisited these days and what this means for creative production and the future of geopolitics *Robert Polidori* Robert Polidori, 2005 A wide ranging collection of images by renowned photographer Robert Polidori is showcased to great effect in this Stern Portfolio Haunting cityscapes of Shanghai and Brasilia are included along with photographs that reveal the social life beneath the patina of Havana s old quarter and imbue the city with its distinctive identity Also included are Polidori s disturbing yet stunning pictures from the abandoned region around Chernobyl 15 years after the nuclear plant was destroyed there By contrast the chapter on Versailles highlights the restoration of faded aristocratic elegance On the surface this Canadian born New York based photographer s subjects are buildings but his real interest is habitat He focuses his camera on the remnants and traces of the living he finds left in backrooms in solitary corridors and worn on naked facades to set up surprising contrasts and unique perspectives In doing so he succeeds in capturing the true essence of a place and in his masterful compositions the inner lives of people and their memories spring to life and unfold before our eyes

ILLUSTRATIONS 46 photos **Beyond the Supersquare** Antonio Sergio Bessa, 2014-07-01 **Beyond the Supersquare** Art and Architecture in Latin America after Modernism which developed from a symposium presented by the Bronx Museum of the Arts in 2011 showcases original essays by distinguished Latin American architects historians and curators whose research examines architecture and urban design practices in the region during a significant period of the twentieth century Drawing from the exuberant architectural projects of the 1940s to the 1960s as well as from critically engaged artistic practices of the present day the essays in this collection reveal how the heroic visions and utopian ideals popular in architectural discourse during the modernist era bore complicated legacies for Latin America the consequences of which are evident in the vastly uneven economic conditions and socially disparate societies found throughout the region today The innovative contributions in this volume address how the modernist movement came into being in Latin America and compellingly explore how it

continues to resonate in today's cultural discourse. *Beyond the Supersquare* takes themes traditionally examined within the strict field of urbanism and architecture and explores them against a broader range of disciplines including the global economy, political science, gender, visual arts, philosophy, and urban planning. Containing a breadth of scholarship, this book offers a compelling and distinctive view of contemporary life in Latin America. Among the topics explored are the circulation of national cultural identities through architectural media, the intersection of contemporary art and urban social politics, and the recovery of canonically overlooked figures in art and architectural histories, such as Lina Bo Bardi and Joao Filgueiras Lima Lele from Brazil, Juan Legarreta of Mexico, and Henry Klumb in Puerto Rico. **Caviar with Rum** J. Loss, J.

Prieto, 2012-09-05 Consisting of sixteen essays by renowned writers and artists, *Caviar with Rum* Cuba, USSR, and the Post-Soviet Experience is the first book of its kind to bring to life how and why the Soviet period is revisited in Cuban memory these days and what that means for creative production and the future of geopolitics. *Art, Space, Ecology* Grande John K. Grande, 2019-10-15 In *Art Space Ecology*, internationally renowned curator and critic John K. Grande interviews twenty major contemporary artists whose works engage with the natural environment. Whether their medium is sculpture, nature interventions, performance, body art, or installation, these discussions complemented by eighty stunning photographs reveal the artists' diverse backgrounds and methods, expressions, and realizations. Ultimately, the natural world serves as a canvas to explore the intersections of art, space, and the environment, thereby raising questions about our relationship with landscape itself. The essence of the art form is a dynamic interactivity, and the dialogues between Grande and the artists mirror the encounter of object and environment, artist and audience, society and nature. This work is rounded out with an engaging introduction by writer and curator Edward Lucie-Smith, who sets the stage for some of the most insightful and compelling discussions on art to be found. **Surface** Giuliana Bruno, 2014-06-09

What is the place of materiality, the expression or condition of physical substance, in our visual age of rapidly changing materials and media? How is it fashioned in the arts or manifested in virtual forms? In *Surface*, cultural critic and theorist Giuliana Bruno deftly explores these questions, seeking to understand materiality in the contemporary world. Arguing that materiality is not a question of the materials themselves but rather the substance of material relations, Bruno investigates the space of those relations, examining how they appear on the surface of different media: on film and video screens, in gallery installations, or on the skins of buildings and people. The object of visual studies, she contends, goes well beyond the image and engages the surface as a place of contact between people and art objects. As Bruno threads through these surface encounters, she unveils the fabrics of the visual, the textural qualities of works of art, whether manifested on canvas, wall, or screen. Illuminating the modern surface condition, she notes how facades are becoming virtual screens and the art of projection is reinvented on gallery walls. She traverses the light spaces of artists Robert Irwin, James Turrell, Tacita Dean, and Anthony McCall; touches on the textured surfaces of Isaac Julien's and Wong Kar-wai's filmic screens; and travels across the surface materiality in the architectural practices of Diller Scofidio Renfro and

Herzog de Meuron to the art of Doris Salcedo and Rachel Whiteread where the surface tension of media becomes concrete In performing these critical operations on the surface she articulates it as a site in which different forms of mediation memory and transformation can take place Surveying object relations across art architecture fashion design film and new media Surface is a magisterial account of contemporary visual culture **Janson Goldstein** Mark Janson, Hal Goldstein, Steven Scuro, 2015-10-05 This is the first monograph by New York based architecture and interior design firm Janson Goldstein Janson Goldstein's diverse practice ranges from artisan crafted custom furnishings to highly personalized homes and apartments to large scale urban retail hospitality and condominium projects The firm's founding principles were to bring the disciplines of architecture and interior design together under one roof and to embrace a diversity of project typologies The result is a richness of unique ideas from conceptual development through to the materiality of the executed work that is evident in every project With this richly photographed monograph we illustrate how these principles have been implemented in more than 400 projects world wide **The Photograph Collector**, 2001 **Free Fall** Rae Padilla Francoeur, 2010-03-30 At 55 Rae Padilla Francoeur had no idea that the most deeply fulfilling sexual relationship she'd ever encounter was still to come In her memoir Free Fall Francoeur discloses her discovery of a new love after nearly two decades in a relationship that wouldn't end despite her need and desire to move on Francoeur succumbs entirely to the intensely physical and stimulating relationship she finds with this new man allowing her body and mind to truly embrace pleasure and sexual desire and shares intimate details of a love affair that changes everything leading her to celebrate her sexuality and rediscover herself Free fall Francoeur says is a choice Let go Be here now Open up to the possibilities Choosing to let go is a tall order for a woman who's lived her life as a single parent a loving and attentive mate to a man with bipolar disorder and a creative director in a busy museum but when she finally succeeds in choosing herself she views life anew sensitized by sexual desire and dramatic change Her new lover says Everything is foreplay With him Francoeur learns to embrace her sexuality and the profound pleasure bodies bring even as they age **Dwell**, 2004-10 At Dwell we're staging a minor revolution We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines [American Photo](#), 2002-01 [Visual Alchemy: The Fine Art of Digital Montage](#) Catherine McIntyre, 2014-01-23 Catherine McIntyre like many fine artists created traditional art for decades before encountering the versatility of digital imaging technology Free of her Rotring pens and scalpel she now uses Photoshop to create her montages Visual Alchemy explores McIntyre's sources of inspiration as well as her methods offering an aesthetic guide to composition color texture and all of the other means of communication that artists have at their disposal While these concepts and techniques make use of Photoshop they will apply to any digital imaging program and indeed to any medium whether traditional or digital Featuring McIntyre's own art as well as that of artists
