**Robert Capa, 1913-1954** Robert Capa, 1974 Robert Capa Photographs is the first true retrospective book of one of the century's greatest photographers. Drawing upon hundreds of previously unseen images, this collection reveals Capa as one of the great poets of the camera. In these photographs we see through the eyes of a driven humanist who was also a documentarian of the highest caliber. While previous volumes on Capa have focused on his role as a war photographer, Robert Capa Photographs shows us the remarkable range of his work which encompasses the sufferings as well as the tenderness, humor and wonder of his subjects. Robert Capa demonstrated not only a passionate commitment to improving the human condition but also an unfailing eye for graphic impact. Although his photographs remain the definitive visual records of such momentous events as the siege of Madrid, the bombing of Hankou and the Allied landings on D Day, many of his images have a timeless and universal quality that transcends the specifics of history. A Spanish soldier recoils at the impact of a bullet; the final instant of his life. In a scene of perfect joy, a group of Chinese children laugh at the sky as snow begins to fall. Four farm workers hauling all the belongings they can manage trudge grimly away from an apocalyptic backdrop of smoke and ruins; their war-devastated homes. Capa's images reveal his profound compassion and perceptiveness about our tenuous human state. As Cornell Capa, Robert's younger brother and the Founding Director Emeritus of the International Center of Photography, writes in his eloquent remembrance: "He managed to travel all over the world and to communicate his experience and feelings through a universal language: photography." Robert Capa Photographs also includes a foreword by Capa's close friend Henri Cartier-Bresson as well as an informative historical essay by Capa biographer Richard Whelan. At last, here is the book that reveals Robert Capa in a new light. The extraordinary collection of images in Robert Capa Photographs brings us through the events of history to the very heart of humanity.

Freitag, 2013-10-28 First published in 1997. For this second edition of Art Books: A Basic Bibliography of Monographs on Artists, the vast number of new books published since 1985 was surveyed and evaluated. This has resulted in the selection of 3,395 additional titles. These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide, of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically, and also of a lively international art market and the attendant gallery activities. The selections of the first edition have been reviewed; errors have been corrected and important new editions and reprints have been noted. The second edition contains 278 names of artists not represented in the first edition. Contemporary Photographers, 1982 **Capa Türkiye'de** Robert Capa, 2003 **National Union Catalog**
