Robert Smithson Ann Reynolds,2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and

early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In Robert Smithson Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture
