Original [Orientalism, Masquerade and Mozart's Turkish Music](#) Matthew Head, 2018-12-13 Matthew Head explores the
cultural meanings of Mozart's Turkish music in the composer's 18th century context in subsequent discourses of Mozart's
significance for Western culture and in today's not entirely post colonial world Unpacking the ideological content of Mozart's
numerous representations of Turkey and Turkish music Head locates the composer's exoticisms in shifting power relations
between the Austrian and Ottoman Empires and in an emerging orientalist project At the same time Head complicates a
presentist post colonial critique by exploring commercial stimuli to Mozart's turquerie and by embedding the composer's
orientalism in practices of self disguise epitomised by masquerade and carnival In this context Mozart's Turkish music
offered fleeting liberation from official and proscribed identities of the bourgeois Enlightenment **Both from the Ears**
and Mind Linda Phyllis Austern, 2020-07-15 Both from the Ears and Mind offers a bold new understanding of the intellectual
and cultural position of music in Tudor and Stuart England Linda Phyllis Austern brings to life the kinds of educated writings
and debates that surrounded musical performance and the remarkable ways in which English people understood music to
inform other endeavors from astrology and self care to divinity and poetics Music was considered both art and science and
discussions of music and musical terminology provided points of contact between otherwise discrete fields of human learning
This book demonstrates how knowledge of music permitted individuals to both reveal and conceal membership in specific
social intellectual and ideological communities Attending to materials that go beyond music's conventional limits these
chapters probe the role of music in commonplace books health maintenance and marriage manuals rhetorical and theological
treatises and mathematical dictionaries Ultimately Austern illustrates how music was an indispensable frame of reference
that became central to the fabric of life during a time of tremendous intellectual social and technological change [The](#)
