The Art of the Pharaohs Omar Khalil, Ancient Egyptian art is one of the most iconic and influential art forms in history. Spanning over three millennia it provides a deep insight into the culture, religion, and beliefs of ancient Egyptian society. The art of Egypt is characterized by its symbolic use of colors, the strict adherence to formal rules of representation, and its focus on the afterlife. It was primarily created for religious, funerary, and commemorative purposes, serving as a medium to honor the gods and pharaohs as well as to ensure a successful passage into the afterlife for the deceased. The origins of Egyptian art can be traced back to the early dynastic periods where it evolved in response to both religious needs and political structures. As the power of the pharaohs grew, so did the complexity and grandeur of Egyptian art. The early works were heavily influenced by the religious beliefs that governed life and death. Art was not seen as a form of personal expression but rather as a tool to serve divine and societal purposes. The rigid style and symbolic representations seen in Egyptian art reflect the culture's focus on order, permanence, and the divine rather than individualism or naturalism. Key materials used in Egyptian art included stone, wood, and metals, often adorned with vibrant pigments. The Egyptians were skilled in creating sculptures, jewelry, and paintings that survived for thousands of years due to their mastery of preservation techniques. The most recognizable aspects of Egyptian art include the distinctive posture and proportions in their sculptures, as well as the use of vibrant symbolic colors in their paintings. These works were often intended for tombs, temples, and other sacred spaces, ensuring the continued favor of the gods and providing a connection to the divine realm. **Myth and the Existential**

Problems of Chronology in Gandhāran Art Wannaporn Rienjang, Peter Stewart, 2018-03-14 Since the beginning of Gandhāran studies in the nineteenth century chronology has been one of the most significant challenges to the understanding of Gandhāran art Many other ancient societies including those of Greece and Rome have left a wealth of textual sources which have put their fundamental chronological frameworks beyond doubt In the absence of such sources on a similar scale even the historical eras cited on inscribed Gandhāran works of art have been hard to place Few sculptures have such inscriptions and the majority lack any record of find spot or even general provenance Those known to have been found at particular sites were sometimes moved and reused in antiquity Consequently the provisional dates assigned to extant Gandhāran sculptures have sometimes differed by centuries while the narrative of artistic development remains doubtful and inconsistent Building upon the most recent cross disciplinary research debate and excavation this volume reinforces a new consensus about the chronology of Gandhāra bringing the history of Gandhāran art into sharper focus than ever By considering this tradition in its wider context alongside contemporary Indian art and subsequent developments in Central Asia the authors also open up fresh questions and problems which a new phase of research will need to address *Problems of Chronology in Gandhāran Art* is the first publication of the Gandhāra Connections project at the University of Oxford's Classical Art Research Centre which has been supported by the Bagri Foundation and the Neil Kreitman Foundation It presents the proceedings of the first of three international workshops on fundamental questions in the study of Gandhāran art held at Oxford in March 2017

Sculpture, weaving, and the body in Plato Zacharoula Petraki,2023-08-21 Plato s Timaeus is unique in Greek Antiquity for presenting the creation of the world as the work of a divine demiurge The maker bestows order on sensible things and imitates the world of the intellect by using the Forms as models While the creation myth of the Timaeus seems unparalleled this book argues that it is not the first of Plato s dialogues to use artistic language to articulate the relationship of the objects of the material world to the world of the intellect The book adopts an interpretative angle that is sensitive to the visual and art historical developments of Classical Athens to argue that sculpture revolutionized by the advent of the lost wax technique for the production of bronze statues lies at the heart of Plato s conception of the relation of the human soul and body to the Forms It shows that despite the severe criticism of mim sis in the Republic Plato s use of artistic language rests on a positive model of mim sis Plato was in fact engaged in a constructive dialogue with material culture and he found in the technical processes and the cultural semantics of sculpture and of the art of weaving a valuable way to conceptualise and communicate complex ideas about humans relation to the Forms
