Byzantine Ornaments in Stone Philipp Niewöhner, 2021-07-19 Architectural sculpture and liturgical furniture are key genres of late antique and Byzantine archaeology and art and this book provides the first general overview It offers two alternative ways of access via technical terms and illustrations It can thus serve as dictionary if a term requires explanation and illustration or as a visual gazetteer for the research of artefacts In addition the volume can also serve as an academic textbook Ancient Plaster Abbey L. R. Ellis, Emma Payne, 2025-07-02 Ancient Plaster Casting Light on a Forgotten Sculptural Material offers a fresh exploration of plaster in the sculpture of the ancient Mediterranean and beyond Challenging the traditional focus on marble and bronze this volume reveals the crucial role of plaster both in the sculptor's workshop and as a medium for finished sculpture Combining academic insights with contemporary artists perspectives the book also delves into the controversial topic of life casting in antiquity and provides groundbreaking new interpretations of well known plaster objects such as those from the Roman city of Baiae near Naples With chapters extending the chronological and geographical scope to early modern Europe and contemporary art school contexts the book illuminates

plaster's versatility and the continuity of its use across millennia. By rehabilitating this material often overlooked or lost to the archaeological record, the volume offers a transformative view of ancient sculpture appealing to both scholars and art enthusiasts alike.

I mosaici della basilica eufrasiana di Parenzo Gabriella Bernardi, 2006. *Early Christian Art and Architecture* Guntram Koch, 1996. The early Christian period, especially the time between the third and sixth centuries, is one of the most fascinating in church history. The Christianity which developed into a state church in the Roman Empire during the fourth century gave new content to traditional Graeco-Roman art and adapted it to changed needs. Different forms of churches, monasteries, and baptisms came into being, as did Christian art in paintings, mosaics, and sculptures. Biblical manuscripts were illustrated, and liturgical furnishings and vessels were given new form. Here, for the first time in a single volume, is an account of architecture, sacred and profane, funerary art in catacombs and tombs, and especially sarcophagi, the graphic arts, and the various forms of art in miniature. The text is illustrated with numerous line drawings and photographs, including ground plans and elevations of churches, actual and conjectural, and there are full descriptions of the art and architecture discussed against its social and historical background. In addition, there are full bibliographies and details of the most important collections of Christian art. This will prove not only an invaluable work for art historians but also a guide for those travelling in the Mediterranean area and an indication of the riches of the first centuries of the church. Guntram Koch is Professor of Christian Archaeology and the History of Byzantine Art in the University of Marburg.
