Scythian Gold and the exhibition it accompanies Gold of the Nomads Scythian Treasures from Ancient Ukraine present the most important Scythian gold objects in Ukraine many of which were discovered only in the last two decades This exhibition and catalogue combine an analysis of these pieces with an overview of recent advances in our understanding of Scythian culture BOOK JACKET      **Legacy in Gold, Scythian Treasures from Ancient Ukraine [STUDENT REPORTS]** Sarah Gard, 2022      **The Scythians** Barry Cunliffe, 2019-09-26

Brilliant horsemen and great fighters the Scythians were nomadic horsemen who ranged wide across the grasslands of the Asian steppe from the Altai mountains in the east to the Great Hungarian Plain in the first millennium BC Their steppe homeland bordered on a number of sedentary states to the south the Chinese the Persians and the Greeks and there were inevitably numerous interactions between the nomads and their neighbours The Scythians fought the Persians on a number of occasions in one battle killing their king and on another occasion driving the invading army of Darius the Great from the steppe Relations with the Greeks around the shores of the Black Sea were rather different both communities benefiting from trading with each other This led to the development of a brilliant art style often depicting scenes from Scythian mythology and everyday life It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life their beliefs their burial practices their love of fighting and their ambivalent attitudes to gender It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials from the graves of kings on the Pontic steppe with their elaborate gold work and vividly coloured fabrics to the frozen tombs of the Altai mountains where all the organic material wooden carvings carpets saddles and even tattooed human bodies is amazingly well preserved Barry Cunliffe here marshals this vast array of evidence both archaeological and textual in a masterful reconstruction of the lost world of the Scythians allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia      **Artifacts from the Ancient Silk Road** William E. **Shamanistic Crowns of Ancient Korea** Shirley Fish, 2021-08-22 The Three Kingdoms Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author's opinion that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials wooden burial chambers gold crowns horse riding and also in their Siberian shamanism This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people When they were discovered in various archaeological mound sites they were found to be in a highly fragile state The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram Some of the crowns came in two parts an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself The crowns were totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla     [The World of Achaemenid Persia](#) John Curtis, St John Simpson, 2010-03-30 Interest and fascination in Achaemenid Persia has burgeoned in recent years It is time for a major new appraisal of the glorious civilization founded by Cyrus the Great and continued by his successors the Great Kings Darius I Xerxes and Artaxerxes I This volume offers precisely that a sustained and comprehensive overview of the field of Achaemenid studies by leading scholars and experts It discusses all aspects of Achaemenid history and archaeology between 550 BCE and 330 BCE and embraces the whole vast territory of the Persian Empire from North Africa to India and from Central Asia to the Persian Gulf Topics covered in this title include aspects of Achaemenid religion administration material culture ethnicity gender and the survival of Achaemenid traditions The publication of the book is an event it represents a watershed not only in better appreciation and understanding of the rich and complex cultural heritage established by Cyrus but also of the lasting significance of the Achaemenid kings and the impact that their remarkable civilization has had on wider Persian and Middle Eastern history First published by I B Tauris in association with the Iran Heritage Foundation     **Nomadic Art of the Eastern Eurasian Steppes** Emma C. Since early discoveries of so called Celtic Art during the 19th century archaeologists have mused on the origins of this major art tradition which emerged in Europe around 500 BC Classical influence has often been cited as the main impetus for this new and distinctive way of decorating but although Classical and Celtic Art share certain motifs many of the design principles behind the two styles differ fundamentally Instead the idea that Celtic Art shares its essential forms and themes of transformation and animism with Iron Age art from across northern Eurasia has recently gained currency partly thanks to a move away from the study of motifs in prehistoric art and towards considerations of the contexts in which they appear This volume explores Iron Age art at different scales and specifically considers the long distance connections mutual influences and shared ways of seeing that link Celtic Art to other art traditions across northern Eurasia It brings together 13 papers on varied subjects such as animal and human imagery technologies of production and the design theory behind Iron Age art balancing pan Eurasian scale commentary with regional and site scale studies and detailed analyses of individual objects as well as introductory and summary papers This multi scalar approach allows connections to be made across wide geographical areas whilst maintaining the detail required to carry out sensitive studies of objects *History of the Caucasus* Christoph Baumer,2021-08-26
