Barry, 2023-10-03 Forced to hide her new found magic or risk imprisonment or worse Myra enrolls in an interplanetary academy exchange program to dig up more about the government s many conspiracies but instead uproots even darker secrets that could drown everything she s grown to trust The second book in the searing STEAM inspired Plotting the Stars middle grade series perfect for fans of The City of Ember and Divergent Revolution is watered with sweat and tears As Myra Hodger begins her second year at the elite Scientific Lunar Academy of Magic she should be happy Her days of faking Number Whisperer magic are over and she has friends she can trust with the secret of her Botan abilities But that doesn t mean she s through pretending to be someone she s not Mourning Bernie and the incredible Moongarden they cultivated together she feels like she s losing herself just when she found the thing that made her feel whole She s given a seed of hope when she runs into a teen Rep in the hallway who looks eerily familiar But irritable Bernard controlled by his Rep implant is nothing like her beloved Bernie With the continuing interplanetary food crisis conspiracy an anonymous tip about a community of free Reps who might be able to help save Bernard and the hunt for more information about what really happened to the banished Botans all routes seem to point to Venus and an exchange program with the Vesuvian Academy of Magical Arts might provide Myra and her friends the cover they need to unearth the answers they seek Or it might widen the cracks already forming among them releasing a flood of consequences that could wash away all they ve worked so hard to grow The second book in the Plotting the Stars series Seagarden blossoms with unexpected twists and heartbreaking revelations underpinned by climate change warnings and a determination to fight against the status quo

The Politics of Time Guy Standing, 2023-10-26 Guy Standing s books have over the years pieced together a necessary political and intellectual agenda His Politics of Time is a splendid and timely addition to this body of important work Yanis Varoufakis Time has always been political Throughout history how we use our time has been defined and controlled by the powerful and today is no exception But we can reclaim control and in this book the pioneering economist Guy Standing shows us how The ancient Greeks organised time into five categories work labour recreation leisure and contemplation Labour was onerous whereas leisure was *scholē* and included participation in public life

and lifelong education Since the industrial revolution our time has been shaped by capitalism our jobs are supposed to provide all meaning in life our time outside labour is considered simply time off and politicians prioritise jobs above all other aspects of a good life Today we are experiencing the age of chronic uncertainty Mental illness is on the rise some people are experiencing more time freedom while many others are having more and more of their time stolen from them particularly the vulnerable and those in the precariat But there is a way forward We can create a new politics of time one that liberates us and helps save the planet through strengthening real leisure and working together through commoning We can retake control of our time but we must do it together

Short Form American Poetry Will Montgomery,2020-06-18 Reading a century of American poetry through the prism of short form this book analyses the centrality of an aesthetic of brevity to American modernist verse *Traditional Witchcraft for the Seashore* Melusine Draco,2012-01-16 Although we are an island race few are fortunate to live near enough to the sea to use the shoreline as a regular magical working area And yet for the natural witch born and bred by the sea the beach and rocky shore are equally as magical as the inland woods and hills of more traditional approaches to witchcraft The author takes us on a magical journey along the seashore and reveals how to work with the natural oceanic tides and energies Learn how to harness the powers of the deep and collect flotsam and jetsam for use as ritual tools A book like no other Penelope's Web Susan Stanford Friedman,1990 Penelope s Web published in 1991 was the first book to examine fully the brilliantly innovative prose writing of Hilda Doolittle H D s reputation as a major modernist poet has grown dramatically but she also deserves to be known for her innovative novels and essays

H.D. and Modernist Religious Imagination Elizabeth Anderson,2013-08-01 Exploring the intersection of religious sensibility and creativity in the poetry and prose of the American modernist writer H D this volume explores the nexus of the religious the visionary the creative and the material Drawing on original archival research and analyses of newly published and currently unpublished writings by H D Elizabeth Anderson shows how the poet s work is informed by a range of religious traditions from the complexities and contradictions of Moravian Christianity to a wide range of esoteric beliefs and practices H D and Modernist Religious Imagination brings H D s texts into dialogue with the French theorist H l ne Cixous whose attention to writing imagination and the sacred has been a neglected but rich critical and theological resource In analysing the connection both writers craft between the sacred the material and the creative this study makes a thoroughly original contribution to the emerging scholarly conversation on modernism and religion and the debate on the inter relation of the spiritual and the material within the interdisciplinary field of literature and religion

Women and World War 1 Dorothy Goldman, 1993-01-15 The literary canon of World War 1 celebrated for realising the experience of an entire generation ignores writing by women To the sorrows that war has always brought them the loss of husbands lovers brothers the Great War added a revolutionary knowledge And all the time they wrote letters poetry novels short stories memoirs This volume of mutually reflective essays brings this writing into literary focus and ensures that women's recent history and literature are neither forgotten nor undervalued *Optical Impersonality* Christina Walter, 2014-07-08 Examines modernist writers efforts to map the social implications of an evolving science of vision and visual culture Western accounts of human vision before the nineteenth century tended to separate the bodily eye from the rational mind This model gave way in the mid nineteenth century to one in which the thinking subject perceiving body perceptual object and material world could not be so easily separated Christina Walter explores how this new physiology of

vision provoked writers to reconceive the relations among image text sight and subjectivity Walter focuses in particular on the ways in which modernist writers such as H D Mina Loy D H Lawrence and T S Eliot adapted modern optics and visual culture to develop an alternative to the self or person as a model of the human subject Critics have long seen modernists as being concerned with an impersonal form of writing that rejects the earlier Romantic notion that literature was a direct expression of its author s personality Walter argues that scholars have misunderstood aesthetic impersonality as an evacuation of the person when it is instead an interrogation of what exactly goes into a personality She shows that modernist impersonality embraced the embodied and incoherent notion of the human subject that resulted from contemporary physiological science and traces the legacy of that impersonality in current affect theory Optical Impersonality will appeal to scholars and advanced students of modernist literature and visual culture and to those interested in the intersections of art literature science and technology
