Chapters in this book will be of interest to specialists in the coastal marine environment who deal with aspects of environmental monitoring and assessment via remote sensing techniques and numerical modeling. Feeling The Heat Jo Chandler, 2011-05-01 In *Feeling the Heat*, journalist Jo Chandler sets out on a quest that takes her across the Antarctic ice under the seas and through the tropical rainforests of far north Queensland. Her mission is to explore one of the defining mysteries of our age: climate change. The story Chandler tells is an epic adventure complete with heroes and villains. It's a love story for those with an affection for nature. A reality show like no other. It's also a story of science in its most glorious, pure form. Chandler takes us into wild landscapes in the company of scientists trying to decode climate information that will be critical to the decisions we make for the future of the planet. Written in the vein of Susan Orlean's *The Orchid Thief* and by turn lyrical, funny, and achingly sad, *Feeling the Heat* reveals startling truths about that delicate confounding organism we call Earth. Winner 2012 Bragg UNSW Press Prize for Science Writing, Shortlisted 2011 Queensland Premier's Literary Awards Science Writer Award, Longlisted 2012 John Button Prize. **Earth System Monitor**, 1997 **IWLEG 2022** Tri Laksmi Indreswari, Kadek Cahya Susila Wibawa, Juan Diaz-Granados, 2023-01-09 We proudly present the proceedings of 1st International Workshop on Law, Economic and Governance 2022 IWLEG 2022.
