Browne,2007-10-31 Understanding our environment American philosopher John Dewey considered all human endeavors to be continuous with the natural world In his writings particularly Art as

Experience 1934 Dewey insists on the primacy of the environment in aesthetic experience Dewey's conception of environment includes both the natural and the man made Neil Browne highlights this notion in order to define what he terms pragmatist ecology a practice rooted in the interface of the cultural and the natural which he finds to be a significant feature of some of the most important ecological writing of the last century To fully understand human involvement in the natural world Browne argues disciplinary boundaries must be opened up This is primarily important between the arts and science with profound implications for the practice of democracy The degradation of the physical environment and democratic decay for Browne are rooted in the same problem our persistent belief that humans are somehow separate from their physical environment Browne probes the work of a number of major American writers through the lens of Dewey's philosophy Among other texts he examines John Muir's *My First Summer in the Sierra* 1911 *Sea of Cortez* 1941 by John Steinbeck and Edward Ricketts Rachel Carson's three books about the sea *Under the Sea Wind* 1941 *The Sea Around Us* 1951 and *The Edge of the Sea* 1955 John Haines's *The Stars the Snow the Fire* 1989 Tarry Lopez's *Arctic Dreams* 1986 and Terry Tempest Williams's *Refuge* 1991 Together these texts with their combinations of scientific observation and personal meditation challenge the dichotomies to which we've become accustomed and affirm the values of a pragmatist ecology one in which ecological and democratic values go hand in hand

Venomous Reptiles of the United States, Canada, and Northern Mexico Carl H. Ernst, Evelyn M. Ernst, 2011 The first volume contains species accounts of the venomous lizards and elapid and viperid snakes found north of Mexico's twenty fifth parallel Volume two covers the twenty one species of rattlesnakes found in the United States Canada and northern Mexico *Cruising World* ,1999-01 [Baja California Adventures](#) Froylan Tiscareo, Froylan Tiscareño, 2012-10 The stories featured in *Baja California Adventures* take place during a span of almost sixty years of travel in the rugged parched yet hauntingly attractive peninsula The author kept detailed notes on most of his trips then fleshed out this skeleton in a narrative which places the reader in the role of participant in the adventure Thus one feels the bite of the 4WD tires into the desert sand newly hard packed by the moisture of a quick moving thunderstorm The author describes the excitement of finding Indian petroglyphs arrowheads or clay ollas in remote canyons Because Mr Tiscareo is also a pilot many of the trips included here involve mention of the special immigration rules for private fly in tourists Finally there are *Baja Adventures* in the pine clad granite fortress that is the Sierra de San Pedro Martir in the northern part of the peninsula Here the author joined other veteran Bajeros in hoof and boot or horse assisted explorations In short this book should be inspiration to those readers who want to visit Baja California particularly the less tourist trod destinations Arm chair travelers will derive vicarious pleasure without the effort of going there themselves [Cruising World](#) ,1999-01
