Sea Harrier Over The Falklands A Maverick At War:

Sea Harrier Over the Falklands Commander 'Sharkey' Ward, DSC, AFC, RN, 1993-08-05 Sharkey Ward commanded 801 Naval Air Squadron HMS Invincible during the Falkland War of April to June 1982 and was senior Sea Harrier adviser to the command on the tactics direction and progress of the air war. He flew over 60 war missions, achieved three air to air kills and took part in or witnessed a total of ten kills. He was also the leading night pilot and was decorated with the Distinguished Service Cross for gallantry. But what after all could 20 Sea Harriers operating from a flight deck bucketing about in the South Atlantic do against more than 200 Argentine military aircraft flown by pilots who as the raids against the British shipping proved displayed enormous skill and almost suicidal gallantry. The world knows the answer now. What is puzzling therefore is this book's truthful depiction of the attitudes of some senior non flying naval officers and of the RAF towards the men and indeed the machine that made possible the victory in the Falklands. This first hand account charts in detail the naval pilots journey to the South Atlantic and how they took on and triumphantly conquered the challenges they faced. It is a dramatic story leavened with accounts of the air to air fighting and of life in a squadron at sea and on a war footing. But it is also a tale of inter Service rivalry, bureaucratic interference and the less than generous attitudes of a number of senior commanders who should certainly have known better. Indeed some of them might even have lost the war through a lack of understanding of air warfare. The author attempts to put the record straight.

Sea Harrier Over the Falklands Sharkey Ward, 2000 Sharkey Ward commanded 801 Naval Air Squadron HMS Invincible was senior Sea Harrier adviser to the Command. He flew over sixty missions and was awarded DSC. Yet had he followed all his instructions to the letter Britain might well have lost the Falklands War. His dramatic first hand story of the air war in the South Atlantic is also an extraordinary outspoken account of inter Service rivalries, bureaucratic interference and dangerous ignorance of the realities of air combat among many senior commanders. As Sharkey Ward reveals the 801 pilots were fighting not just the enemy, exhaustion and the hostile weather but also the prejudice and ignorance of their own side.

Sea Harrier FRS 1 vs Mirage III/Dagger Douglas C. Dildy, Pablo Calcaterra, 2017-09-21 Following Argentina's military operation to take possession of the Falkland Islands, Islas Malvinas, British Prime Minister Margaret Thatcher's government launched a major naval operation to return them to British rule. Defending the Royal Navy task force were two small squadrons totalling 20 Sea Harriers. SHARs Initial clashes between SHARs and Argentine Mirages and Daggers on 1 May 1982 failed to eliminate the Sea Harrier defenders. FAA fighter bomber pilots relied on daring and courageous ultra low level attacks frequently escaping the Sea Harrier's limited capabilities against Royal Navy warships and auxiliaries causing considerable damage during Operation Corporate, the large scale amphibious operation to repossess the islands. Publishing 35 years after the end of the conflict, this fully illustrated volume offers a balanced and objective examination of the SHAR and the Argentine Mirage and Dagger aircraft, highlighting the attributes of both and the skills and courage of the pilots flying them.

Air Power in the Falklands Conflict John

Shields,2021-11-24 A Royal Air Force veteran of the Falklands Conflict presents a comprehensive myth busting study of the air campaign In the spring of 1982 Argentina and the UK engaged in tense combat over control of the Falkland Islands The ten weeks of fighting are often portrayed with a decidedly one sided narrative either heroic Argentine pilots relentlessly pressing home their attacks or the Sea Harrier force utterly dominating its Argentine enemies In *Air Power in the Falklands Conflict* RAF veteran John Shields presents a detailed and even handed analysis of the Falkland Islands air war As an RAF officer John Shields spent two and a half years in the Falklands as an air defense navigator Using recently released primary source material Shields looks at the air campaign at the operational level He develops a considered view of what should have occurred and contrasts it with what actually happened In so doing John Shields has produced a comprehensive account of the air campaign that has demolished many of the enduring myths of this Cold War conflict
