Van

Vlack, 2013-05-07 Silas Deane was the victim of one of the most vicious character assassination conspiracies ever carried out in the Revolutionary War era Even after almost two and a half centuries he remains in the eyes of many modern historians worse than Arnold his boyhood friend This is very wrong Because Deane was such a capable individual in his endeavors very early in the war he became the political target of envious others with quite different abilities and philosophies Even so his political strength kept growing and in 1776 Congress appointed him America's first secret agent to secure military supplies from France for Washington's army This biography is written on the man himself and on the malicious and largely successful lies and intrigues by his rivals The work does not downplay the contributions of his contemporaries especially those of his close friend throughout Benjamin Franklin but shows exactly where specific credit should be placed A lot of credit for the new nation's success belongs to him *Foreign-Born American Patriots* René Critcher Lyons, 2013-12-06 This book presents profiles of sixteen individuals born and raised in countries other than America who voluntarily joined the revolutionary cause These men were writers soldiers merchants sailors guerilla fighters pirates financiers and cavalry leaders Each profile discusses the personal experiences that influenced the volunteer leader's decision to fight for the fledgling country the sacrifices endured for the benefit of the Revolutionary Cause and the unique talents each contributed to the war effort Their participation helped ensure the perpetuation of the ideals and values of the American republic

**Leadership Embodied, 2nd Edition** Joseph J Thomas,2013-10-15 Leadership is a most demanding undertaking How do some people make it seem so simple so natural and instinctive In the age old debate as to whether leaders are born or made Thomas contends that the answer is both Great leaders throughout history were born with certain capabilities Preparation honed those capabilities Then that ability and preparation were combined with a will to lead When circumstances demanded the great leaders of history pulled these attributes together to create results that drove the course of history While leaders are present in every aspect of human undertaking we chose to illustrate each of the components of leadership through the most dramatic and demanding of all human undertakings war and the preparations for war Wartime leaders are leaders writ with a darker pen Wartime challenges are because of the life and death nature of the affair more monumental and exacting In the selection of individuals to illustrate each point we chose wartime leaders as well as those who guided their subordinates and organizations in preparation for combat Further we chose American leaders with a distinct and obvious bias towards the navy and Marine

Corps Multiple reasons led us to our approach for Leadership Embodied First a biography is perhaps the most effective method for imparting leadership lessons Simple listings of prescriptive traits or descriptive qualities are patronizing and frequently boring Second our biographical examples are familiar to most or at least they should be Finally all of these historical selections have dramatically shaped today's institutions practices and customs within the naval services These are not marginal figures with marginal influence The individuals included and their respective leadership attributes should be required reading for any student of leadership Each has a particular lesson for midshipmen on their journey to becoming a navy or Marine Corps officer This book does not promise to be a panacea There is no short cut Leadership does not follow a prescribed path We study examples to inspire us to become better to be strong when it is easy to give in and to know others have gone before us and faced insurmountable odds Leadership as an ill defined social science crosses boundaries with several disciplines including sociology psychology philosophy and history We have selected a method that combines the psychological profile of effective leaders and the historical context of the impact their leadership brought to organizations and events Our hope for this book is that these case studies illustrate the basic elements in themselves the very essence of leadership It is through inherent talent arduous preparation and practical experience that we become capable leaders The reader brings the first to the table then we offer a small token in the second pursuit and circumstances enable the third
