## **Seamless Web:**

**A Seamless Web** Cheryll May, 2014-03-17 In recent years American art scholars have increasingly focused on the importance of cross cultural exchanges during the nineteenth century As essayist Francois Brunet puts it mid nineteenth century landscapes were transnational permeated by complex transactions where American originality produced itself not only in imitation of or reaction against European influences but as critical mirroring and incorporating of European images Articles in this collection make clear that the conversation of cultures went both ways with American artworks and culture also affecting European artistic and literary practice Essays explore the transnational origin of many types of American artworks from stained glass windows which usually copied their European originals with great exactitude to paintings and sculptures using distinctly American motifs such as the Puritan and the cowboy to distinguish American art students from their Parisian masters It also examines American cultural icons particularly the American Indian appropriated by European writers artists and philosophers to embody primeval wisdom A distinguished international group of scholars including Brunet Robert Rydell and Peter Gibian offer valuable perspectives on the ever broadening field of transnational cultural studies

The Seamless Web Stanley Burnshaw,1991      Shaping Technology / Building Society Wiebe E. Bijker,John Law,1994-09-29 Building on the influential book *The Social Construction of Technological Systems* this volume carries forward the project of creating a theory of technological development and implementation that is strongly grounded in both sociology and history Technology is everywhere yet a theory of technology and its social dimension remains to be fully developed Building on the influential book *The Social Construction of Technological Systems* this volume carries forward the project of creating a theory of technological development and implementation that is strongly grounded in both sociology and history The 12 essays address the central question of how technologies become stabilized how they attain a final form and use that is generally accepted The essays are tied together by a general introduction part introductions and a theoretical conclusion The first part of the book examines and criticizes the idea that technologies have common life cycles three case studies cover the history of a successful but never produced British jet fighter the manipulation of patents by a French R two studies argue for a strong sociotechnology in which artifact and social context are viewed as a single seamless web while the third looks at the ways in which a social program is a technology

**Law, Liberty, and Morality** H. L. A. Hart,Herbert Lionel Adolphus Hart,1963 This incisive book deals with the use of the criminal law to enforce morality in particular sexual morality a subject of particular interest and importance since the publication of the Wolfenden Report in 1957 Professor Hart first considers John Stuart Mill s famous declaration The only purpose for which power can be rightfully exercised over any member of a civilized community is to prevent harm to others During the last hundred years this doctrine has twice been sharply challenged by two great lawyers Sir James Fitzjames Stephen the great Victorian judge and historian of the common law and Lord Devlin who both argue that the use of the criminal law to enforce morality is justified The author examines their arguments in some detail and sets out to demonstrate that they fail to recognize distinction of vital importance for legal and political theory and that they espouse a conception of the function of legal punishment that few would now share

*Research and Advanced Technology for Digital Libraries* Mounia Lalmas,Joemon Jose,Andreas Rauber,Roberto Sebastiani,Ingo Frommholz,2010-09-02 In the 14 years since its rst edition back in 1997 the European Conference on

Research and Advanced Technology for Digital Libraries ECDL has become the reference meeting for an interdisciplinary community of researchers and practitioners whose professional activities revolve around the theme of digital libraries. This volume contains the proceedings of ECDL 2010, the 14th conference in this series, which followed Pisa 1997, Heraklion 1998, Paris 1999, Lisbon 2000, Darmstadt 2001, Rome 2002, Trondheim 2003, Bath 2004, Vienna 2005, Alicante 2006, Budapest 2007, Aarhus 2008, and Corfu 2009. It was held in Glasgow, UK, during September 6-10, 2010. This was also the last at least with this name, since starting with 2011 ECDL will be renamed so as to avoid acronym conflicts with the European Computer Driving Licence to TPLD, standing for the Conference on Theory and Practice of Digital Libraries. We hope you all will join us for TPD 2011 in Berlin. For ECDL 2010, separate calls for papers, posters, and demos were issued, resulting in the submission to the conference of 102 full papers, 40 posters, and 13 demos. This year, for the full papers, ECDL experimented with a novel two-tier reviewing model with the aim of further improving the quality of the reviewing program. A first-tier Program Committee of 87 members was formed, and a further Senior Program Committee composed of 15 senior members of the DL community was set up.

Division and Imagined Unity in the American Renaissance Shawn Thomson, 2017-11-15 In examining the era's multivalent tropes of seams and seamlessness Thomson provides an innovative understanding of the interplay between division and unity in the thought culture and literature of the American Renaissance New insights are offered on works by major authors such as Nathaniel Hawthorne Frederick Douglass Walt Whitman Herman Melville Emily Dickinson Henry David Thoreau Solomon Northup Harriet Jacobs and Elizabeth Stoddard along with marginal figures Thomson expands the canon by recovering the unknown authors Charles Edward Anthon and John S Sauzade and recognizing their works as vital to the American Renaissance Taking the 1844 display of the Holy Tunic at the Cathedral of Treves as its point of departure Thomson sheds light on the controversy of the seamless garment in the New England press and explores its transmutation in Anthon's Pilgrimage to Treves Hawthorne's *The Scarlet Letter* Dickinson's poetry and Melville's major novels In excavating seamlessness as a cultural artifact of the American Renaissance Thomson pursues a cultural studies approach to the fabric of antebellum life Thomson reads the seams of material culture to reveal the meaning of the dressing gown and the keepsake in Dickinson's and Stoddard's lives and letters Thomson positions Sauzade's Dickensian novel *The Spuytenduyvel Chronicle* as one of the first great works of the American metropolis and explores the spiritual material dichotomy of the slave narratives of Douglass Jacobs and Northup This book further reassesses the bitter literary rivalry between Melville and George Washington Peck re-conceptualizes Melville the author through his relationship to the divided nation and illuminates his failed idealism as a literary artist in *Pierre* Thomson's approach to the interrelationship of material culture technology and the modes of literary production creates a new sense of the American Renaissance as a paradoxical seamless whole wherein its seams are exposed for all to see

*Philosophy, Law and the Family* Laurence D. Houlgate, 2017-01-21 This textbook uses cases in family law to illustrate both traditional philosophical problems in the law as well as problems that are unique to family law. In the beginning chapters, family law cases are employed to introduce the reader to philosophical debates about the relationship between law and morals, about how one ought to interpret the U.S. Constitution and its amendments, about the conditions under which individual liberty is justifiably limited by law, about the justification of punishment, and about the justification of remedies and standards of care in determining negligence in tort cases. Later chapters are devoted to contemporary issues unique to family law, including justifiable limits of access to marriage alternatives to marriage, the rights of children, child custody disputes involving surrogate births, quasi-property disputes involving custody of frozen embryos, and the justifiable limits of the right not to procreate. The book reflects current movements, contemporary debates, and recent research on the philosophical problems in family law.
