Archbishops' Group on the Episcopate,1990 The 1994 report of the Archbishops Group on the Episcopate looking at the nature of the episcopate the role of the suffragan and the theological issues underlying the ordination of women as bishops Yorkshire Surnames and the Hearth Tax Returns of 1672-73 David Hey,Douglas Emmott,George Redmonds,2002 *God and History* Peter Bingham Hinchliff,1992 Newman s revised Essay on the Development of Doctrine provides the starting point for this new and comprehensive survey in which Peter Hinchliff discusses the ideas of wide range of theologians from the full spectrum of Christianity from Roman Catholics through to theologians from the Churches of England and Scotland and the Free Church and their attempts to tackle these questions in the period leading up to the Great War **Buildings, Faith, and Worship** Nigel Yates,2000 This is the first major study for over forty years of the liturgical arrangement of Anglican churches in the period between the Reformation and the Oxford Movement The study is based both on surviving buildings and on a wide range of archival sources such as seating plans which are used to document internal changes and to suggest reasons behind them In the course of the book Nigel Yates challenges many widely held assumptions about the liturgical outlook of the Pre Tractarian period and about the impact of ecclesiology on the Church of England In particular he emphasizes the existence hitherto disregarded of a Church of England movement for liturgical renewal between 1780 and 1840 which to a degree anticipated some of the ideas previously attributed solely to the ecclesiologists The discussion is firmly set within the context

of European Protestantism and comparisons are drawn with the liturgical practices both of Calvinists and Lutherans

From Oxford to the People Paul Vaiss,1996 **Strange Eventful History** Christopher Loveless,2012-06-19 In this fascinating book Christopher Loveless threads together the biographies of all the Church of England's saints famous and unknown to create one continuous story Beginning as a small company of the friends of a crucified carpenter the church has grown into a worldwide movement whose restless quest for God and creative dynamism has shaped our culture and all our lives This book tells you the stories of the men and women who made it happen martyrs and theologians missionaries and mystics writers and reformers misfits and even the odd criminal The story of the saints is the story of humanity The Life of Saint Edward, King and Confessor Saint Aelred (of Rievaulx),1990 *Anglican Ritualism in Victorian Britain, 1830-1910* Nigel Yates,1999 This innovative book challenges many of the widely held assumptions about the impact of ritualism on the Victorian church Through a detailed analysis of the geographical spread of ritualist churches in the British Isles Dr Yates shows that the impact of ritualism was as strong if not stronger in middle class and rural parishes as in working class and urban areas He gives a detailed reassessment of the debates and controversies surrounding the attitudes of the Anglican bishops towards ritualism the impact of public opinion on discussions in parliament and the implementation of the Public Worship Regulation Act of 1874 The book examines the wider historical implications by not simply focusing on ritualism during the Victorian period but extrapolating this to show the impact that ritualism has had on the longer term development of Anglicanism in the twentieth century **Finding Fulford - the Search for the First Battle Of 1066** Charles Jones,2011 The battle of Fulford was fought just south of York on 20th September 1066 between the Northern Earls and King Harald Hardrada leading a Norse army Harald Hardrada had the treacherous Earl Tostig the brother of King Harold II king of England as his ally Tostig might have devised the strategy that detained his brother defending the south coast from the expected invasion from Normandy But King Harold was already on his way north when the battle took place Finding Fulford sets out a confident hypothesis for the location based on the body of evidence and research undertaken to find the first of the three battles of that autumn The report finds that the literature identifies a location south of York and the geology uniquely points to Germany Beck as the only militarily significant ditch mentioned in several sources as the place of the battle Modelling the way the landscape has changed since 1066 allows the descriptions provided for the battle to be tested The reconstructed surface provides positive feedback for the literature and helps to make more sense of what was written in Norse sources about the course of the battle The emergence of substantial quantities of ferrous material just south of the Beck reinforces the claim of Germany Beck as the place of the battle These notable concentrations of ferrous finds including tools axes and other shaped billets were co located with hearth bottoms slag charcoal and tuy res fragments The shape of the billets suggests a military rather than a civil use The interpretation provided is of post battle reprocessing There was not one centrally organised workshop since the number and spread of hearths suggests a gold rush perhaps with each warband

processing material These sites were found to corresponded closely to the assumed area of the fighting and no similar sites were found in the surrounding areas which was also surveyed It is also suggested that the work was disrupted by the defeat of the Viking invaders at Stamford Bridge five days after their victory at Fulford This is an important assumption as it helps explain why so much material was abandoned at Fulford in a pattern that has not yet been found elsewhere The interrupted reprocessing hypothesis also explains why other sites of similar antiquity have failed to yield a single weapon fragment If the recycling work had been completed only hearth debris would have been found so the Fulford site might be unique Almost as important as the evidence that has emerged was that no contra indicators were found to cast doubt on the proposed site nor were any consistent pointers to another location identified even though much work was devoted to searching for alternate sites before Germany Beck was identified as the locus The investigation of the Fulford battlefield was done under some unnecessarily restrictive conditions and a chapter is devoted to work that needs to be undertaken The evidence suggests that the site still has much to reveal Alongside the archaeological investigations the report relates the events of the three battles of 1066 and also provides a detailed narrative of the battle based on all that has been revealed by the work The whole style of the work is designed to make it accessible to any interested reader
