The Search for Bridey Murphy Sarah Cotter Hogroian, Columbia University. Theatre Arts Division, 1997 *The Cinematography of Roger Corman* Pawel Aleksandrowicz, 2016-09-23 Roger Corman is an ambiguous artistic figure On the one hand he is notorious for shooting and producing his films quickly cheaply and with blatant disregard for safety measures which together with his ability to issue a dozen new films every year and his impressive filmography have earned him the titles of shlockmeister and the King of the B s among film journalists On the other hand he became the youngest American director to be given a film retrospective at the prestigious Cin mat que Fran aise in Paris one of his directorial efforts House

of Usher was selected for preservation in the National Film Registry by the Library of Congress and the Academy of Motion Picture Arts and Sciences awarded him with an Academy Honorary Award for his rich engendering of films and filmmakers This book investigates this duality and explores whether Corman is indeed a shlockmeister or an artist whose works are worthy of the highest cinema awards The scope of analysis is limited to his directorial efforts only still encompassing 50 features excluding the 400 films he produced The methodology adopted here is based on the auteur theory in its structuralist version by Geoffrey Nowell Smith and Peter Wollen and focuses on three areas of interest work ethic personal elements in the films personal control over and commitment to the production process outside direction themes topics and concerns common for many of the films regardless of the genre and style recurring stylistic motifs and elements in the camerawork editing and framing *Kingdom of Heaven* Hilton Hotema,1997-11 The Grand Cosmic Kingdom and its Seven Parts the Mental Kingdom Consciousness Why People Fail Freedom the Spiritual Organs the State of Brahma Telepathy the Fourth Dimension The Parapsychology Revolution Robert M. Reincarnation Paul Edwards,2010-04-06 This is the first comprehensive and systematic evaluation of reincarnation and Karma in any language Renowned philosopher Paul Edwards exposes the many flaws in the arguments supporting the belief in reincarnation and the so called Law of Karma He also covers the alleged evidence in support of reincarnation including child prodigies deja vu experiences hypnotic regressions and reincarnation memories Finally he discusses in some detail the claims of the leading figures in the recent immortality movement in particular Elisabeth Kuebler Ross Raymond Moody and Dr Stanislov Grof Edwards wit and clarity make this a fascinating accessible and enjoyable work Oddball Colorado Jerome Pohlen,2002 Monuments to all that is bizarre are contained in this guide with location websites open hours cost and

their will Their story involving a lonely highway late at night lost memories and medical examinations by small gray creatures with large eyes has become the template for nearly every encounter with aliens in American popular culture since Historian Matthew Bowman examines the Hills story not only as a foundational piece of UFO folklore but also as a microcosm of 1960s America The Hills an interracial couple who lived in New Hampshire were civil rights activists supporters of liberal politics and Unitarians But when their story of abduction was repeatedly ignored or discounted by authorities they lost faith in the scientific establishment the American government and the success of the civil rights movement Bowman tells the fascinating story of the Hills as an account of the shifting winds in American politics and culture in the second half of the twentieth century He exposes the promise and fallout of the idealistic reforms of the 1960s and how the myth of political consensus has given way to the cynicism and conspiratorialism and the paranoia and illusion of American life today

Bottoming Out the Universe Richard Grossinger, 2020-04-07 An exploration into consciousness the universe and the nature of reality Draws on transdimensional physics and biology reincarnation and past life memories animal consciousness multiple identities thoughtforms soul pictures and paranormal phenomena like crop circles and poltergeists Explores the riddle of personal identity and how it differs from consciousness Reveals that consciousness is more than encompassing all that exists it also speaks to what has yet to manifest Scientific orthodoxy views the universe as conceived of matter protons neutrons electrons down to the smallest particle quarks But when you keep digging what is beneath quarks The scientific worldview does not take into account consciousness or life itself How did consciousness become part of the material universe Is it a by product of brain chemistry or a constituent of reality Or to dig deeper which is more fundamental the existence of an objective physical universe or our subjective experience of it In this investigation into consciousness the universe and the nature of reality Richard Grossinger offers a wide ranging foundation for reimagining the universe as based in consciousness rather than matter He presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories Exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts He then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like UFOs faeries and poltergeists He also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics Examining nonlocal and transpersonal modes of consciousness Grossinger looks at the difference between consciousness and personal identity He expands this discussion with reflections on Sethian cosmology using Seth s own words and Jane Roberts s and John Friedlander s interpretations He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing Skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe

Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency *Journey's End* Colm Keane, 2022-12-04 *Journey's End* reveals how death is not an end but a new beginning This groundbreaking book explains how our consciousness survives physical death and lives on in a hereafter of our own making What life will be like in this otherworld is outlined The book also shows that we will meet again deceased relatives and beloved pets Based on eight years of research Colm Keane discovers the truth about heaven purgatory hell God Satan and reincarnation He debunks myths such as fiery punishments and the concept of a grotesque devil *Journey's End* draws from the latest scientific evidence hundreds of near death experiences and writings from the great mystics and scholars It is a must read for everyone interested in what happens after death
