Michael Hart, 2009-04-30 Recent Canadian foreign policy has fixated upon Canada's former status as a middle power within a small club of western democratic states. The emergence of a US dominated world and of an integrated North American economy and the decline of multilateral rules and institutions as prime instruments of global governance have left Canadian foreign policy searching for new purpose and direction. From Pride to Influence brings Canadian foreign policy into the twenty first century by grounding it in a conception of the national interest that accepts the primacy of the United States in guaranteeing Canadian national security and prosperity. It will appeal to the engaged public practitioners, analysts and senior undergraduate and graduate classes focused on Canadian foreign policy.

Searching for Certainty Darrell Jay Bricker, Edward Greenspon, 2001 The 1990s was a decade of reckoning that compressed our spirits as well as our bank accounts. We hunkered down through a prolonged winter of decline before finally at decade's end emerging to breathe in the first stirrings of national recovery. The long journey tested our confidence in the country, its governments, our employers and even ourselves. Happily we discovered a new inner strength and the wisdom to take advantage of global trends and to build a new social and cultural Canada in the post Trudeau era. From Searching for Certainty Darrell Bricker, president of the leading market research firm in Canada and Ed Greenspon, political columnist for The Globe and Mail, join forces to offer a comprehensive report on the new economic, social and cultural Canada, the dramatic changes wrought by globalization and technological innovation over the last two decades as well as the more subtle shifts in how we approach work, health care and education. Using the most up to date and complete data available, they analyze economic trends from global trade to the workplace and trace the ways in which Canadian society and culture have been transformed. They reveal that Canada has emerged from the late twentieth century a stronger and more dynamic society. Far from becoming more American, the new mindset is steeped in Canadian traditions of tolerance and community. In the aftermath of the 1990s, Canada is a society searching more than ever before for certainty, not promises for quality of life, not quantity of goods. One example: a decade ago Canadians had never heard of the Internet and the public equated new technology with job loss. By the fall of 2000, 70 per cent of adults, more than 15 million individuals, were connected to the Internet at home or work or school. By the end of 2001, four out of five Canadians will probably enjoy access. How is the Internet changing our health care, our political unity, how we shop, even our power in relation to governments and corporations? Searching for Certainty is a smart and entertaining, fact-filled account of how the changes over the last two decades affect us now and will determine how we feel and what we want tomorrow. Combining demographic statistics with a journalist's keen eye for real life stories, Bricker and Greenspon offer valuable insights for business and public policy and practical tips on how to survive and prosper in the new economy.

Good Government? Good Citizens? W.A. Bogart, 2007-10 Examining the altered roles of courts, politics and markets over the last two decades, this book explores the evolving concept of the citizen in Canada at the beginning of this century.

The Return of the State Adam Harmes, 2009-12-01 In this provocative book Adam Harmes reveals how only effective

political globalization can balance and hold in check the extremes of global corporations Free trade agreements and economic globalization have created a gap between global transnational corporations and governments mired within national boundaries Large corporations are now operating above the law Return of the State takes us into the corporate boardrooms government departments and international organizations where a new global compromise is being forged It argues that political globalization is both necessary and likely revealing what it will involve and what it will mean for corporations civil society and private citizens around the world Return of the State is well researched hard hitting controversial and prescient
