Season In Sarawak:

Afterlife of Empire Jordanna Bailkin, 2012-11-15 This book investigates how decolonization transformed British society in the 1950s and 1960s and examines the relationship between the postwar and the postimperial **Science & Emotions after 1945** Frank Biess, Daniel M. Gross, 2014-05-22 Through the first half of the twentieth century emotions were a legitimate object of scientific study across a variety of disciplines After 1945 however in the wake of Nazi irrationalism emotions became increasingly marginalized and postwar rationalism took central stage Emotion remained on the scene of scientific and popular study but largely at the fringes as a behavioral reflex or as a concern of the private sphere So why by the 1960s had the study of emotions returned to the forefront of academic investigation In *Science and Emotions after 1945* Frank Biess and Daniel M Gross chronicle the curious resurgence of emotion studies and show that it was fueled by two very different sources social movements of the 1960s and brain science A central claim of the book is that the relatively recent neuroscientific study of emotion did not initiate but instead consolidated the emotional turn by clearing the ground for multidisciplinary work on the emotions *Science and Emotions after 1945* tells the story of this shift by looking closely at scientific disciplines in which the study of emotions has featured prominently including medicine psychiatry neuroscience and the social sciences viewed in each case from a humanities perspective *CDC Yellow Book 2024* Centers for Disease Control and Prevention (CDC), 2023 The definitive reference for travel medicine updated for 2024 For over half a century the CDC Yellow Book has been providing trusted vetted reliable information for travelers and professionals Along with disease and destination based recommendations for vaccines and precautions this comprehensive resource serves as a guide to understanding and addressing the various health threats associated with all types of international travel including pandemic guidance *CDC Yellow Book 2026* Eric Halsey, 2025-04-30 The CDC Yellow Book has been a trusted resource among healthcare professionals for over half a century It compiles the US government's current travel health guidance providing travel medicine specialists healthcare professionals and travelers with expert guidance for safe and healthy international travel Along with disease specific prevention and treatment recommendations this comprehensive reference text equips readers with the background and context needed to understand and address public health threats associated with all types of international travel With chapters written by subject matter experts in the travel medicine field this edition features the following topics Vetted recommendations for pre travel vaccinations and preventative care including public health guidance for specific destinations and types of travel Profiles of the most common travel associated infections and health conditions Special sections tailored to travelers with additional considerations including travelers with HIV immunocompromised travelers severely allergic travelers and travelers with substance use disorders Updated advice for family travel including pregnant travelers traveling safely with infants and children and traveling with pets and service animals Illustrated with vividly drawn destination maps conveying the endemicity of malaria yellow fever and other infectious diseases Expanded

Emergence and Diversity of Modern Human Behavior in Paleolithic Asia Yousuke Kaifu,Masami Izuho,Ted Goebel,Hiroyuki Sato,Akira Ono,2015-02-15 Despite the obvious geographic importance of eastern Asia in human migration its discussion in the context of the emergence and dispersal of modern humans has been rare Emergence and Diversity of Modern Human Behavior in Paleolithic Asia focuses long overdue scholarly attention on this under studied area of the world Arising from a 2011 symposium sponsored by the National Museum of Nature and Science in Tokyo this book gathers the work of archaeologists from the Pacific Rim of Asia Australia and North America to address the relative lack of attention given to the emergence of modern human behavior as manifested in Asia during the worldwide dispersal from Africa

A Season in Sarawak ,1962 **A Season in Sarawak ... With Illustrations by the Author** Mora Dickson,1962 Borneo Studies in History, Society and Culture Victor T. King,Zawawi Ibrahim,Noor Hasharina Hassan,2016-08-12 This edited book is the first major review of what has been achieved in Borneo Studies to date Chapters in this book situate research on Borneo within the general disciplinary fields of the social sciences with the weight of attention devoted to anthropological research and related fields such as development studies gender studies environmental studies social policy studies and cultural studies Some of the chapters in this book are extended versions of presentations at the Borneo Research Council s international conference hosted by Universiti Brunei Darussalam in June 2012 and a Borneo Studies workshop organised in Brunei in 2012 The volume examines some of the major debates and controversies in Borneo Studies including those which have served to connect post war research on Borneo to wider scholarship It also assesses some of the more recent contributions and interests of locally based researchers in universities and other institutions in Borneo itself The major strength of the book is the inclusion of a substantial amount of research undertaken by scholars working and teaching within the Southeast Asian region In particular there is an examination of research materials published in the vernacular notably the outpouring of work published in Indonesian by the Institut Dayakologi in Pontianak In doing so the book also addresses the urgent matters which have not received the attention they deserve specifically subjects themes and issues that have already been covered but require further contemplation elaboration and research and the scope for disciplinary and multidisciplinary collaboration in Borneo Studies The book is a valuable resource and reference work for students and researchers interested in social science scholarship on Borneo and for those with wider interests in Indonesia and Malaysia and in the Southeast Asian region
