Quinn, 1993 The Remarkable Life, Adventures and Discoveries of Sebastian Cabot, of Bristol James Fawcckner Nicholls, 2008-10-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work **The Cabot Voyages and Bristol Discovery under Henry VII** R.A. Skelton, 2017-05-15 The voyages of John and Sebastian Cabot and their English contemporaries were made for the most part in search of a westward passage to Asia and they resulted in the revelation of North America The evidences are printed here with an indication of their origins Some are obscure in meaning incomplete in statement or mutually contradictory and we are left with the certainty that important documents have existed or may now exist which are still unknown Dr Williamson interprets the evidence we have Parts of his undertaking are in the nature of detective work and he does not claim that his solutions are final which would be impossible in the face of new evidence that may at any time occur Cabot study is a continuing mental adventure The maps are an important category of the evidence Mr R A Skelton of the British Museum has contributed a treatment of them authoritative in its explanations and a valuable admonition on what can and cannot be expected of the material This is a new print on demand hardback edition of the volume first published in 1962 **The European Outthrust and Encounter** David B. Quinn, Cecil H. Clough, P. E. H. Hair, Paul Edward Hedley Hair, 1994-01-01 For half a century David Beers Quinn wrote on the history of the early relationship between England and North America This volume was presented in tribute to his meticulous and authoritative but cautious scholarship on the occasion of his 85th birthday It includes his Reflections on a lifetime of research and his bibliography But his interests in the early period of the expansion of Europe have never been limited to England or North America and this volume accordingly takes as its theme the widest historical context of the subject and period the whole European outthrust and encounter in its first phase Ten contributions by recognized scholars provide select exemplars to serve as a stimulating introduction to this vast theme Three overview essays deal with specific regions of the outthrust chosen because of differences in outcome Ethiopia the Far East and Siberia The remaining essays consider specific episodes in localities ranging from Guayana to China and their discursive echoes and are essentially concerned with a leading feature of David Quinn s scholarship the discovery examination and interpretation of sources A preliminary essay discusses the theme and links the various contributions within a framework of critical generalization *English/British Naval History to 1815* Eugene L. Rasor, 2004-10-30 The English British have always been known as the sailor race with hearts of oak the Royal Navy as the Senior Service and First Line of Defense It facilitated the motto The sun never set on the British Empire The Royal Navy has exerted a powerful influence on Great Britain its Empire Europe and ultimately the world This superior annotated

bibliography supplies entries that explore the influence of the English British Navy through its history This survey will provide a major reference guide for students and scholars at all levels It incorporates evaluative qualitative and critical analysis processes the essence of historical scholarship Each one of the 4 124 annotated entries is evaluated assessed analyzed integrated and incorporated into the historiographical scholarship *The Seaforth Bibliography* Eugene Rasor,2009-04-17 This remarkable work is a comprehensive historiographical and bibliographical survey of the most important scholarly and printed materials about the naval and maritime history of England and Great Britain from the earliest times to 1815 More than 4 000 popular standard and official histories important articles in journals and periodicals anthologies conference symposium and seminar papers guides documents and doctoral theses are covered so that the emphasis is the broadest possible But the work is far far more than a listing The works are all evaluated assessed and analysed and then integrated into an historical narrative that makes the book a hugely useful reference work for student scholar and enthusiast alike It is divided into twenty one chapters which cover resource centres significant naval writers pre eminent and general histories the chronological periods from Julius Caesar through the Vikings Tudors and Stuarts to Nelson and Bligh major naval personalities warships piracy strategy and tactics exploration discovery and navigation archaeology and even naval fiction Quite simply no one with an interest and enthusiasm for naval history can afford to be without this book at their side Twentieth-Century Shore-Station Whaling in Newfoundland and Labrador Anthony Bertram Dickinson,Chesley W. Sanger,2005 Newfoundland and Labrador has a long history of commercial whaling beginning in the first half of the sixteenth century when Basque whalers established seasonal stations on the Labrador coast from which to hunt bowheads and North Atlantic right whales Anthony Dickinson and Chesley Sanger examine the region s modern shore station industry from its beginnings in 1896 to its peak catch season in 1904 through subsequent cycles of decline and revival until its enforced closure in 1972 by the federal government Modern shore station whaling on Canada s eastern shores developed with the spread of Norwegian dominated whaling from local areas where stocks that had been depleted by new hunting technologies to more productive locations in the North Atlantic and elsewhere Twentieth Century Shore Station Whaling in Newfoundland and Labrador adds to a growing number of regionally specific case studies that collectively illustrate the complex nature of the history of global whaling Dickinson and Sanger further demonstrate how participants in the industry were instrumental in developing other whaling initiatives including those in British Columbia *The Cabot Voyages and Bristol Discovery Under Henry VII* James A. Williamson,R. A. Skelton,2010-07-28 The voyages of John and Sebastian Cabot and their English contemporaries were made for the most part in search of a westward passage to Asia and they resulted in the revelation of North America The evidences are printed here with an indication of their origins Some are obscure in meaning incomplete in statement or mutually contradictory and we are left with the certainty that important documents have existed or may now exist which are still unknown Dr Williamson interprets the evidence we have Parts of his

undertaking are in the nature of detective work and he does not claim that his solutions are final which would be impossible in the face of new evidence that may at any time occur Cabot study is a continuing mental adventure The maps are an important category of the evidence Mr R A Skelton of the British Museum has contributed a treatment of them authoritative in its explanations and a valuable admonition on what can and cannot be expected of the material This is a new print on demand hardback edition of the volume first published in 1962 The Westward Enterprise Kenneth R. Andrews, Nicholas P. Canny, Paul Edward Hedley Hair, 1979 In this volume an international group of scholars from Britain Ireland and North America take up many of the questions surrounding the history of European expansion What were the motives of the English how did these change and what insight is given on developments in English society How did the ventures of the English compare with those of other European nations What were the shifts in fundamental knowledge of the world and the new concepts of civilization spread by the invention of printing which lay behind the movements of ships armies and settlers What were the roles and reactions of those who felt the weight of English expansionism the natives of Ireland and America Over a period of forty years D B Quinn formerly Andrew Geddes and John Rankin Professor of Modern History at the University of Liverpool has pioneered research into these far reaching questions in a range of books articles and lectures which together have made a special contribution to the study of European expansion and the rise of the modern world This volume is published in tribute to Professor Quinn It provides in one source a survey of the historical research and advances in knowledge concerning the English westward enterprise and the earliest history of America which have been made during the last half century Jacket p 2 *Meta Incognita: a discourse of discovery - volume 1* Thomas H. Newfoundland in the Nineteenth and Twentieth Centuries

James Hiller, Peter Neary, 1980-12-15 The first comprehensive history of Newfoundland was published in 1793 but a centenary and a half passed before the first university course in the history of the island was offered there During the past fifteen years there has been growing activity in the subject This volume is the work of six scholars who have either studied or taught at the Memorial University of Newfoundland Some have done both The book has two broad aims First to point out the major themes of modern Newfoundland history currently being examined and to offer a number of new interpretations of economic and political development in the last two centuries Second to supplement the standard works that are readily available to students In some areas it provides additional details in others it bridges wide gaps The themes considered include an introduction to the writing of Newfoundland history the transition from the purely maritime economy of the nineteenth century to the mixed oceanic and inland resource economy of the twentieth and the difficulties this involved the decline of the traditional cod fishery in the nineteenth century Newfoundland's rejection of confederation in 1896 the limitations imposed by the fisheries agreements Britain negotiated with France and the United States the consequences of the decision to reject confederation and diversify the local economy the growth of the Fisherman's Protective Union the political atmosphere of the 1920s the party politics in the post confederation period and finally the collapse of Newfoundland's oldest industry the saltfish trade and the province's integration into the North American economy This is a book intended for both regional specialists and general students of Canadian history It provides a valuable resource about a province of rapidly growing importance

Symons, Stephen Alsford, Chris Kitzen, 1999-01-01 The Meta Incognita Project was initiated to cast new light on the Arctic voyages of Martin Frobisher and their significance for the histories of North America and Britain Although the Elizabethan venture failed to discover a northwest passage to mines and precious metals and to establish a colony in the future Canadian Arctic it left valuable legacies Published in English

The Cabot Voyages and Bristol Discovery Under Henry VII James Alexander Williamson, 1962

The Tudor Navy David Loades, 2016-12-05 The Tudor Navy is a subject which is very unevenly known The last significant general histories were written at the end of the last century Since then much detailed research has been undertaken particularly on the Armada the end of Henry VIII's reign and the early Elizabethan period As a result it has been

generally thought that the navy went through a series of booms and slumps during the sixteenth century Further research on the intervening periods now presents a much more even picture of development although the pace of advance was uneven At the same time naval history has tended to be seen in isolation presented by special naval experts It is better understood as a part of the general administrative political and above all financial history of the period This book is designed to present a whole story set in its proper contemporary context *Monthly Bulletin of the Providence Public Library* Providence Public Library (R.I.),1897
