Secondhand China Carles Prado-Fonts, 2022-06-15 This transcultural study of cultural production brings to light the ways Spanish literature imagined China by relying on English and French language sources Carles Prado-Fonts examines how the simultaneous dependence on and obscuring of translation in these cross cultural representations created the illusion of a homogeneous West He argues that Orientalism became an instrument of hegemony not only between the West and the rest but also within the West itself where Spanish writers used representations of China to connect themselves to Europe hone a national voice or forward ideas of political and cultural modernity Uncovering an eclectic and surprising archive Prado-Fonts draws on diverse cultural artifacts from popular literature journalism and early cinema to offer a rich account of how China was seen across the West between 1880 and 1930 Enrique Gaspar Luis de Oteyza Vicente Blasco Ibáñez and lesser known authors writing in Spanish and Catalan put themselves in dialogue with Leo Tolstoy John Dewey W Somerset Maugham Bertrand Russell Pearl Buck and André Malraux as well as stereotypical figures from popular culture like Fu Manchu and Charlie Chan Throughout Prado-Fonts exposes translation as a technology of cultural hegemony and China as an appealing object for representation A timely contribution to our understanding of how we create and consume knowledge about the world

China and International Relations Zheng Yongnian, 2010-09-13 Focussing on one of the most influential scholars writing on international relations Wang Gungwu this book explores the limitations of Western international relations approaches to China and explains China's IR from a non Western perspective and demonstrates how the study of Chinese experiences can enrich the IR field

Piracy and the Making of the Spanish Pacific World Kristie Flannery, 2024-05-07 Piracy and the Making of the Spanish Pacific World offers a new interpretation of Spanish colonial rule in the Philippine islands Drawing on the rich archives of Spain's Asian empire Kristie Patricia Flannery reveals that Spanish colonial officials and Catholic missionaries forged alliances with Indigenous Filipinos and Chinese migrant settlers in the Southeast Asian archipelago to wage war against waves of pirates including massive Chinese pirate fleets Muslim pirates from the Sulu Zone and even the British fleet that attacked at the height of the Seven Years War Anti piracy alliances made Spanish colonial rule resilient to both external shocks and internal revolts that shook the colony to its core This revisionist study complicates the assumption that empire was imposed on Filipinos with brute force alone Rather anti piracy also shaped the politics of belonging in the colonial Philippines Real and imagined pirate threats especially influenced the fate and fortunes of Chinese migrants in the islands They triggered genocidal massacres of the Chinese at some junctures and at others facilitated Chinese integration into the Catholic nation as loyal vassals Piracy and the Making of the Spanish Pacific World demonstrates that piracy is key to explaining the surprising longevity of Spain's Asian empire which unlike Spanish colonial rule in the Americas survived the Age of Revolutions and endured almost to the end of the nineteenth century Moreover it offers important new insight into piracy's impact on the trajectory of globalization and European imperial expansion in maritime Asia

Mapping Diversity in Latin America Mabel Moraña, Miguel A. Valerio, 2025-02-28 Mapping Diversity in Latin America

offers ample critical coverage of recent approaches to the historical study of race and ethnicity in Latin America since the arrival of Spanish and Portuguese colonizers to the present. Bringing together the work of leading scholars, this volume presents readers with a thorough and updated examination of the formation and evolution of ideas surrounding race and ethnicity, social movements and political processes in Latin America that provides multiple routes for future research on the topic. The book's nineteen chapters establish the basis for a productive comparative analysis of racial developments in the whole continent to allow for a combination of diachronic and synchronic study of regional processes. Both the scope of the book and the historical and geocultural coverage on these topics are unique in the field of Latin American Studies. Taking an interdisciplinary approach to understanding issues of collective identity, otherness, alterity and the like, *Mapping Diversity in Latin America* sheds light on histories that have been traditionally overlooked in texts on race in Latin America, such as the rich history of diasporic Asian, Syrian, Lebanese and Jewish communities and the more recent emergence of Latinx populations in the United States. The book includes a critical examination of fundamental concepts such as *mestizaje*, *mulataje*, *creolization*, *negritud* and *blanquitud* as well as critical and theoretical approaches to the study of these issues in postcolonial societies.
