No More Excuses Hispanic Dropout Project (U.S.), United States. Office of Bilingual Education and Minority Languages Affairs, 1998 Handbook of Adolescent Death and Bereavement David E. Balk, PhD, 2004-01-01 In this comprehensive handbook Charles Corr and David Balk improve our understanding of the challenges faced by adolescents when coping with death dying and bereavement The volume is organized into three parts Part I addresses specific issues involved in confrontations with death Part II focuses on the role of bereavement Part III explains specific therapeutic interventions for caregivers The authors introduce us to adolescence as a special time in the human life cycle a period quite separate from childhood and adulthood They establish normative adolescents and explain developmental tasks that are typical of early middle and late adolescence **U.S. Civil-military Relations** Don M. Snider, Miranda A. Carlton-Carew, 1995 **Parents,**

Children, and Adolescents Anne Marie Ambert, 2020-12-18 *Parents Children and Adolescents* presents an integrative perspective of the parent child relationship within several contexts You can expand your empirical and theoretical knowledge

of the parent child relationship and child development through the book's unusually holistic theoretical perspective that integrates three main frameworks: interactional theories on parents, children, and development; contextual ecological models; and behavior genetics. This insightful book's empirical scope is broader than that of most books in that it considers the parent child relationship throughout the life course as well as within a great variety of contexts including interactions with sibling and peers at school in their neighborhoods and with professionals. You'll gain immeasurable knowledge about parents' child rearing styles and how they are affected by environmental variables, the interaction between parents and children and between their personalities, behavior genetics as one of the explanatory frameworks for the role of genetics and environment, negative child outcomes, emotional problems, conduct disorders and delinquency, poverty and other stressors affecting parents and children, problematic, abusive, emotionally disturbed, alcoholic parents, siblings and peers as contexts for the parent child dyad, the effect of the school system on the family with a focus on minority families, family structure, divorce, remarriage and families headed by never married mothers, adolescent mothers and their own mothers, the psychogenetic limitations on parental influence and cultural roadblocks to parental moral authority. Complete with an Instructor's Manual, *Parents, Children, and Adolescents* is ideal for advanced undergraduate and graduate classes in family studies and human development, sociology of the family, interdisciplinary developmental psychology and social work classes that need a thorough perspective on the parent child relationship. Professionals and scholars in these fields seeking an interdisciplinary framework as well as research suggestions and incisive critiques of traditional perspectives will also find this innovative book a valuable addition to their reading lists.

Juvenile Crime and Justice William J. Chambliss, 2011-05-03 The authors of the 20 chapters in *Juvenile Crime and Justice* address various hotly debated topics along three loosely connected themes: prevention, prosecution, and corrections. Each author presents arguments both in favor of and opposed to various treatments, programs, and punishments, examining issues such as youth curfews, juveniles in adult courts, legal representation for juveniles, juvenile boot camps, group homes, out of home placement, and more. The chapters included cover the leading arguments pertaining to key topics in this field and point out where more research needs to be done, which at present includes many of the most controversial issues in juvenile justice policy. The Series The five brief issues based books in SAGE Reference's Key Issues in Crime Punishment Series offer examinations of controversial programs, practices, problems, or issues from varied perspectives. Volumes correspond to the five central subfields in the Criminal Justice curriculum: Crime, Criminal Behavior, Policing, The Courts, Corrections, and Juvenile Justice. Each volume consists of approximately 20 chapters offering succinct pro/con examinations and Recommended Readings conclude each chapter highlighting different approaches to or perspectives on the issue at hand. As a set, these volumes provide perfect reference support for students writing position papers in undergraduate courses spanning the Criminal Justice curriculum. Each title is approximately 350 pages in length. *NIDA Research Monograph*, 1976 *Understanding People in Context* Ellen P. Cook, 2015-01-12 This exceptional book emphasizes uniquely

designed interventions for individual counseling group work and community counseling that consider clients as individuals within the contexts of families cultural groups workplaces and communities Part I describes the theoretical research base and major tenets of the ecological perspective and its applications to counseling practice In Part II experts who have used the ecological perspective in their work discuss its usefulness in various applications including counseling diverse clients with specific life challenges assessment diagnosis and treatment planning and in schools substance abuse programs faith based communities and counselor training programs Requests for digital versions from ACA can be found on www.wiley.com To purchase print copies please visit the ACA website Reproduction requests for material from books published by ACA should be directed to publications@counseling.org

Health Assets in a Global Context Antony Morgan, Erio Ziglio, Maggie Davies, 2010-07-15 As global health inequities continue to widen policymakers are redoubling their efforts to address them Yet the effectiveness and quality of these programs vary considerably sometimes resulting in the reverse of expected outcomes While local political issues or cultural conflicts may play a part in these situations an important new book points to a universal factor the prevailing deficit model of assessing health needs which puts disadvantaged communities on the defensive while ignoring their potential strengths The asset model proposed in Health Assets in a Global Context International Health and Development offers a necessary complement to the problem focused framework by assessing multiple levels of health promoting aspects in populations and promoting joint solutions between communities and outside agencies The book provides not only rationales and methodologies e.g. measuring resilience and similar elusive qualities but also concrete examples of asset based initiatives in use across the world on the individual and community levels
