Heavy Radicals The FBI's Secret War on America's Maoists is a history of the Revolutionary Union Revolutionary Communist Party the largest Maoist organization to arise in the US from its origins in the explosive year of 1968 its expansion into a national organization in the early 70s its extension into major industry throughout the early part of that decade and the devastating schism in the aftermath of the death of Mao Tse tung to its ultimate decline as the 1970s turned into the 1980s From its beginnings the grouping was the focus of J Edgar Hoover and other top FBI officials for an unrelenting array of operations Informant penetration setting organizations against each other setting up phony communist collectives for infiltration and disruption planting of phone taps and microphones in apartments break ins to steal membership lists the use of FBI friendly journalists such as Victor Riesel and Ed Montgomery to undermine the group and much more It is the story of a sizable section of the radicalized youth whose radicalism did not disappear at the end of the 60s and of the FBI's largest and up to now untold campaign against it **China's Continuous Revolution** Lowell Dittmer, 2024-03-29

China's Continuous Revolution The Post Liberation Epoch 1949 1981 explores the ambitious and transformative era of China's political landscape after the founding of the People's Republic in 1949 This meticulously researched volume delves into the ideology of continuous revolution under the dictatorship of the proletariat and its profound impact on Chinese politics Drawing from extensive interviews and historical analysis the book examines key elements such as charismatic leadership mass mobilization and the complex restructuring of authority highlighting the successes failures and eventual exhaustion of revolutionary zeal It provides a nuanced perspective on China's socio political evolution during a pivotal era of change grappling with questions about legitimacy power dynamics and the role of ideology in shaping policy and governance Dittmer's work also contrasts China's revolutionary trajectory with global ideological movements presenting a critical examination of the enduring tensions between utopian aspirations and practical governance By analyzing the Cultural Revolution agricultural collectivization and the broader socio political reforms of the era the book offers a compelling narrative of a nation's struggle to reconcile revolutionary ideals with the realities of modern state building Scholars students and readers interested in China's contemporary history and political development will find this an invaluable resource for understanding the complexities of revolution and reform in a rapidly transforming society This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 **The Loss in China and the Revolutionary Legacy of Mao Tsetung** Bob Avakian, 1978

From Ike to Mao and Beyond Bob Avakian, 2005 Bob Avakian has written a memoir containing three unique but interwoven stories The first tells of a white middle class kid growing up in 1950s America who goes to an integrated high school and has his world turned around the second of a young man who overcomes a near fatal disease and jumps with both feet into the heady swirl of Berkeley in the sixties and the third of a radical activist who matures into a tempered revolutionary communist leader If you think about the past or if you urgently care about the future if you want to hear a unique voice of utter realism and deep humanity and if you dare to have your assumptions challenged and your stereotypes overturned then take a look at this book From publisher description **You Don't Know What You Think You "Know"**

About... The Communist Revolution and the REAL Path to Emancipation: Its History and Our Future Raymond Lotta, 2014-03-21 This book takes on and refutes the conventional wisdom that communist revolution has been a disaster and nightmare In a wide ranging provocative and richly detailed interview Raymond Lotta a political economist and expert in the history of communism guides the reader through the first wave of socialist revolutions the Paris Commune of 1871 the Bolshevik Revolution of 1917 56 and the Chinese revolution of 1949 76 This is the real history and a penetrating analysis of what these revolutions and their leadership actually set out to do the liberating economic social and cultural transformations brought about and the shortcomings as well How did the lives of women radically change How did revolution attack the oppression of minority nationalities This book will show you It also sails straight into the face of controversy It addresses the important historical role of Stalin the slanders directed at the Great Leap Forward and Mao's Cultural Revolution in China and the wrong ways that people in U S society have been trained to think about society the world and revolution Lotta examines why these revolutions ultimately met defeat But he also explains why it is possible drawing the right lessons to go further and do better in a new stage of revolution In this he introduces the reader to Bob Avakian's new synthesis of communism At once rigorous and accessible the book is an unparalleled resource The world cries out for fundamental change yet people are told there is no alternative Raymond Lotta makes the case that the whole history of communism thus far shows that the world does not have to be this way **Lettuce Wars** Bruce Neuburger, 2013-01-01 In 1971 Bruce

Neuburger young out of work and radicalized by the 60s counterculture in Berkeley took a job as a farmworker on a whim He could have hardly anticipated that he would spend the next decade laboring up and down the agricultural valleys of California alongside the anonymous and largely immigrant workforce that feeds the nation This account of his journey begins at a remarkable moment after the birth of the United Farm Workers union and the ensuing uptick in worker militancy As a participant in organizing efforts strikes and boycotts Neuburger saw first hand the struggles of farmworkers for better wages and working conditions and the lengths the growers would go to suppress worker unity Part memoir part informed commentary on farm labor the U S labor movement and the political economy of agriculture Lettuce Wars is a lively account written from the perspective of the fields Neuburger portrays the people he encountered immigrant workers fellow radicals

company bosses cops and goons vividly and indelibly lending a human aspect to the conflict between capital and labor as it played out in the fields of California

Preaching From a Pulpit of Bones Bob Avakian, 1999-06-01 This provocative book includes a scathing refutation of the reality behind conservative Christian fundamentalist morality a critical look at the limitations of liberation theology including a discussion of Jim Wallis's book *The Soul of Politics* and an inspiring look at morality from a revolutionary perspective This work is even more timely today as it was when it was published in 1999 Bob Avakian says in the Prologue that From whatever vantage point one looks it is unmistakable that there is what could be called a moral crisis in America There has been to a significant degree a breakdown of traditional morality But the answer to this at least the answer that is in the interests of the majority of people in the U S and the overwhelming majority of humanity is not a more aggressive assertion of that traditional morality but winning people to a radically different morality in the process of radically transforming society and the world as a whole

Pan-Asianism and the Legacy of the Chinese Revolution Viren Murthy, 2023-10-25 An intellectual history of pan Asianist discourse in the twentieth century Recent proposals to revive the ancient Silk Road for the contemporary era and ongoing Western interest in China's growth and development have led to increased attention to the concept of pan Asianism Most of that discussion however lacks any historical grounding in the thought of influential twentieth century pan Asianists In this book Viren Murthy offers an intellectual history of the writings of theorists intellectuals and activists spanning leftist conservative and right wing thinkers who proposed new ways of thinking about Asia in their own historical and political contexts Tracing pan Asianist discourse across the twentieth century Murthy reveals a stronger tradition of resistance and alternative visions than the contemporary discourse on pan Asianism would suggest At the heart of pan Asianist thinking Murthy shows were the notions of a unity of Asian nations of weak nations becoming powerful and of the Third World confronting the advanced world on equal terms an idea that grew to include non Asian countries into the global community of Asian nations But pan Asianists also had larger aims imagining a future beyond both imperialism and capitalism The fact that the resurgence of pan Asianist discourse has emerged alongside the dominance of capitalism Murthy argues signals a profound misunderstanding of its roots history and potential

Mao Tsetung's Immortal Contributions Bob Avakian, 1979 *Revolution*, 1988 **Mao's Revolution and the Chinese Political Culture** Richard H. Solomon, 1971 Political science analysis of the impact of Mao's political leadership on politics cultural change and social change in China gives a historical perspective of Maoist political doctrine developed in context with traditional values examines the motivational mechanisms for securing political participation and covers social conflict political opposition the political system the dynamics of political education etc Selected bibliography pp 575 to 588 **Young Adult Reader's Adviser** Marion Sader, 1992-01-30 The best in literature and language arts mathematics and computer science **America in Decline** Raymond Lotta, Frank Shannon, 1984 States' Gains, Labor's Losses Dorothy J. Solinger, 2018-07-05 In this explicitly comparative work Dorothy J Solinger examines the effects of global markets on the domestic politics of major states In the late 1970s leaders around the world faced a need both to continue productive investment and to cut labor costs to compete internationally in a changed world market To accommodate forces seemingly beyond their control they often opted to reduce social protections and benefits that citizens had come to expect in the process recalibrating their established political economic coalitions For countries whose governance was built on a coalition between workers and the state the political conundrum was particularly intense States Gains Labor's Losses concentrates on three countries China France and Mexico where revolution inspired political compacts between labor and the state had to be renegotiated In all three cases choices to forge a deepened dependence on international capital markets required the ruling parties to fire large numbers of workers and cut social benefits while attempting not to provoke widespread social unrest or even full scale revolt among their supporters China France and Mexico also shared strong legacies of protectionism and state intervention in the economy so the decision of each to join a supranational economic organization France and the EU China and the GATT WTO Mexico

and NAFTA in the hope of alleviating crises of capital shortage involved submission to a new set of liberal economic rules that further compromised their sociopolitical compacts Examining a fundamental question about the dynamics of globalization and worker protest through an innovative comparative perspective States Gains Labor s Losses emphasizes the growing tensions and new compromises between the working class and their political leaders in the face of intense international economic pressures Burden Or Legacy Jiehong Jiang,2007-06-17 Focusing on the impact of the Cultural Revolution on the development of contemporary art in China this anthology of essays and images present fresh and critical perspectives on how one of the most disturbing periods of modern Chinese history has affected the creativity of contemporary Chinese artists *A Horrible End, Or an End to the Horror?* Bob Avakian,1984
