Music as Cognition Essays in Honor of Steven Paul Scher and on Cultural Identity and the Musical Stage Suzanne M.

Lodato,Suzanne Aspden,Walter Bernhart,2002 The eighteen interdisciplinary essays in this volume were presented in 2001 in Sydney Australia at the Third International Conference on Word and Music Studies which was sponsored by The

International Association for Word and Music Studies WMA The conference celebrated the sixty fifth birthday of Steven Paul Scher arguably the central figure in word and music studies during the last thirty five years The first section of this volume comprises ten articles that discuss or are methodologically based upon Scher s many analyses of and critical commentaries on the field particularly on interrelationships between words and music The authors cover such topics as semiotics

intermediality hermeneutics the de essentialization of the arts and the works of a wide range of literary figures and composers that include Baudelaire Mallarm Proust T S Eliot Goethe Hlderlin Mann Britten Schubert Schumann and Wagner

The second section consists of a second set of papers presented at the conference that are devoted to a different area of word and music studies cultural identity and the musical stage Eight scholars investigate and often problematize widespread assumptions regarding national and cultural music language plots and production values in musical stage works Topics

include the National Socialists construction of German national identity reception based examinations of cultural identity and various national opera styles and the means by which composers librettists and lyricists have attempted to establish national or cultural identity through their stage works *Genres of Critique* Karin van Marle,Stewart Motha,2013-12-01 The book

seeks to open and explore the liminal space of critique at the intersection of law aesthetics and politics The essays in this volume elaborate and expand the meaning and significance of critique through an engagement with aesthetic forms Although this endeavour has wider significance the focus is primarily on South Africa The various contributions arose out of a process of reading writing and discussion among visiting scholars at the Stellenbosch Institute for Advanced Study STIAS

Stellenbosch University South Africa in 2010 The project responds to the limits of the transplantation of critical legal studies into different jurisdictions especially South Africa The essays develop an approach to critical legal thinking that is conscious of critique as a problem of genre and seek to open up this problem of genre in the context of critical legal studies *The*

War on Music John Mauceri,2022-04-26 A prominent conductor explores how aesthetic criteria masked the political goals of countries during the three great wars of the past century Mauceri s writing is more exhilarating than any helicopter ride we

have been on Air Mail Fluently written and often cogent Barton Swaim Wall Street Journal This book offers a major reassessment of classical music in the twentieth century John Mauceri argues that the history of music during this span was shaped by three major wars of that century World War I World War II and the Cold War Probing why so few works have been added to the canon since 1930 Mauceri examines the trajectories of great composers who following World War I created voices that were unique and versatile but superficially simpler He contends that the fate of composers during World War II is inextricably linked to the political goals of their respective governments resulting in the silencing of experimental music in Germany Italy and Russia the exodus of composers to America and the sudden return of experimental music what he calls the institutional avant garde as the lingua franca of classical music in the West during the Cold War **The Thought of Music** Lawrence Kramer, 2016-01-12 What exactly is knowledge of music And what does it tell us about humanistic knowledge in general The Thought of Music grapples directly with these fundamental questions questions especially compelling at a time when humanistic knowledge is enmeshed in debates about its character and future In this third volume in a trilogy on musical understanding that includes Interpreting Music and Expression and Truth Lawrence Kramer seeks answers in both thought about music and thought in music thinking in tones He skillfully assesses musical scholarship in the aftermath of critical musicology and musical hermeneutics and in view of more recent concerns with embodiment affect and performance This authoritative and timely work challenges the prevailing conceptions of every topic it addresses language context and culture pleasure and performance and through music the foundations of understanding in the humanities The publisher gratefully acknowledges the Joseph Kerman Endowment of the American Musicological Society funded in part by the National Endowment for the Humanities and the Andrew W Mellon Foundation **For the Love of Music** John Mauceri, 2019-09-17 With a lifetime of experience profound knowledge and understanding and heartwarming appreciation an internationally celebrated conductor and teacher answers the questions Why should I listen to classical music How can I get the most from the listening experience A protégé of Leonard Bernstein his colleague for eighteen years and an eminent conductor who has toured and recorded all over the world John Mauceri helps us to reap the joys and pleasures classical music has to offer Briefly we learn the way a musical tradition born in ancient Greece embraced by the Roman Empire and subsequently nurtured by influences from across the globe gave shape to the classical music that came to be embraced by cultures from Japan to Bolivia Then Mauceri examines the music itself helping us understand what it is we hear when we listen to classical music how by a kind of sonic metaphor it expresses the deepest recesses of human feeling and emotion how each piece bears the traces of its history how the concert experience a unique one each and every time allows us to discover music anew Unpretentious graceful instructive this is a book for the aficionado the novice and anyone looking to have the love of music fired within them *Philosophy of Music* Riccardo Martinelli, 2019-10-21 Ranging from Antiquity to contemporary analytic philosophy it provides a concise but thorough analysis of the arguments developed by some of the

most outstanding philosophers of all times Besides the aesthetics of music proper the volume touches upon metaphysics ethics philosophy of language psychology anthropology and scientific developments that have influenced the philosophical explanations of music Starting from the very origins of philosophy in Western thought Pythagoras Plato Aristotle the book talks about what music is according to Augustine Descartes Leibniz Rousseau Kant Hegel the Romantics Schopenhauer Nietzsche Wittgenstein Susanne Langer Bloch Adorno and many others Recent developments within the analytic tradition are illustrated with particular attention to the ontology of the musical artwork and to the problem of music and emotions A fascinating idea which recurs throughout the book is that philosophers allow for a sort of a secret kinship between music and philosophy as means to reveal complementary aspects of truth

London Opera Observed 1711-1844, Volume IV

Michael Burden,2024-08-01 The thrust of these five volumes is contained in their title London Opera Observed It takes its cue from the numerous texts and volumes which during the seventeenth eighteenth and nineteenth centuries used the concept of spying or observing by a narrator or rambler as a means of establishing a discourse on aspects of London life The material in this five volume reset edition examines opera not simply as a genre of performance but as a wider topic of comment and debate The stories that surrounded the Italian opera singers illuminate contemporary British attitudes towards performance sexuality and national identity The collection includes only complete published material organised chronologically so as to accurately retain the contexts in which the original readers encountered them placing an emphasis on rare texts that have not been reproduced in modern editions The aim of this collection is not to provide a history of opera in England but to facilitate the writing of them or to assist those wishing to study topics within the field Headnotes and footnotes establish the publication information and provide an introduction to the piece its author and the events surrounding it or which caused its publication The notes concentrate on attempting to identify those figures mentioned within the texts The approach is one of presentation not interpretation ensuring that the collection occupies a position that is neutral rather than polemical
