Mafia Peasants And Great Estates Society In Traditional Calabria:

Mafia, Peasants and Great Estates Pino Arlacchi, 1983 The nature of traditional Mediterranean societies and the effect on them brought about in the twentieth century has long been debated but in general stem from an assumption of the relatively homogenous nature of traditional peasant society Pino Arlacchi demolishes that assumption by demonstrating that within the Italian region of Calabria there existed not one but a range of traditional societies Violence and the Great Estates in the South of Italy Frank M. Snowden, 2004-06-07 A vivid history of Apulian farm workers struggle to win the ordinary decencies of life The Israeli Mafia Dina Siegel, 2024-11-09 This book delves into a previously unexplored realm within criminological scholarship Israeli organized crime Breaking the silence that has shrouded this topic this book undertakes a comprehensive examination of the intricate socio economic and cultural landscapes that have shaped the criminal operations of a diverse array of Jewish and non Jewish criminal entities spanning from the inception of the Israeli state to the present day in 2024 Drawing upon meticulous ethnographic fieldwork conducted in Israel between 2020 and 2024 alongside rigorous media analysis interviews conducted both domestically and internationally and a wealth of visual material captured by the author during fieldwork this study offers unparalleled insights into the dynamics of Israel s underworld It examines the multifaceted activities of various criminal organizations including but not limited to drug and human trafficking protection rackets gambling enterprises and contract killings Moreover this book critically examines the responses of authorities and law enforcement agencies to the escalating influence of organized crime amidst the backdrop of major socio political upheavals in Israel ranging from wars and waves of immigration to terrorist attacks By contextualizing these criminal phenomena within broader historical and contemporary narratives this work not only fills a significant gap in scholarly discourse but also provides a nuanced understanding of the intersections between crime society and governance in the Israeli context Landownership & Power Mod Eur Martin Blinkhorn, Ralph Gibson, 2002-06 First Published in 1991 Routledge is an imprint of Taylor Francis an informa company **Mafia** René Seindal, 1998 Antonio Salvo was a mafioso but he did not traffic in narcotics he did not run weapons he did not kill anyone and he did not take part in the ordinary mafia activities Salvo was a business man one of the wealthiest business men in Sicily He took an interest in all important lines of business and had close political connections at the highest levels in Rome He represented another but not less important side of the mafia He was a central part of the far reaching network of economic and political interests that dominated Sicily through decades This book analyses the economic and political activities of the mafia on the basis of the latest source material and explains how the mafia has succeeded in surviving protecting and flourishing in post war Italy **People, Land, and Politics** Luuk de Ligt, S. J. Northwood, 2008 Recent research has called into question the orthodox view that the last two centuries of the Roman Republic witnessed a decline of the free rural population Yet the implications of the alternative reconstructions of Italy s demographic history that have been proposed have never been explored systematically

This volume offers a series of in depth discussions not only of the republican manpower and census figures but also of the abundant archaeological data It also explores the growth of cities especially Rome and the changing distribution of the population over the Italian landscape On the rural side it addresses the interplay between demographic economic and legal developments and the background to the Gracchan land reforms Finally it examines the political implications of demographic growth and large scale migration to the provinces The volume as a whole demonstrates that demography is the key to many aspects of Italy s economic social military and political history *Organised Crime in Europe* Cyrille Fijnaut, Letizia Paoli, 2007-01-21

This volume represents the first attempt to systematically compare organised crime concepts as well as historical and contemporary patterns and control policies in thirteen European countries These include seven old EU Member States Denmark France Germany Italy The Netherlands Spain and the United Kingdom two new members the Czech Republic and Poland a candidate country Turkey and three non EU countries Albania Russia and Switzerland Based on a standardised research protocol thirty three experts from different legal and social disciplines provide insight through detailed country reports On this basis the editors compare organised crime patterns and policies in Europe and assess EU initiatives against organised crime Its informed analyses and unprejudiced assessments will make *Organised Crime in Europe* an indispensable resource for scholars students practitioners and policy makers interested in understanding the complex phenomenon of organised crime and its related control policies in Europe People, Nations and Traditions in a Comparative Frame DMaris Coffman, Harold James, Nicholas Di Liberto, 2021-03-10

If the turn of the twenty first century was characterised by the history wars in which bitter internecine battles raged between different historical schools Jonathan Steinberg was noteworthy for his methodological pluralism His own historical work spanned diplomatic history military history the social history of war biography social history banking history political culture and genocide studies He often employed a comparative historical approach which teased out deep historical explanations by examining personalities nations and traditions simultaneously This book offers a critical appreciation of his contribution to modern historical practice with contributions by former students and colleagues whose own interests are as diverse as those of Steinberg himself

Criminal Capital Andrew Sanchez, 2016-04-14 *Criminal Capital* explores the relationship between neoliberalism criminality and the reshaping of class in modern India It discusses how the political vocabularies of urban industrial workers reflect the processes by which power is distributed across the region Based upon field research among a casualised workforce in the industrial city of Jamshedpur the book examines the links between the decline of employment security and criminality in trade unions corporations and the state The volume compares popular discourses of corruption against the ethnography of local labour politics business enterprise and debt collection and shows how corruption and criminality consolidate class power in industrial environments Using an interdisciplinary ethnographic approach this study interrogates the relationship between capitalism corruption violence and labour politics in contemporary Indian society An important

intervention in the study of Indian political economy this work will be of interest to scholars and researchers of Indian politics social anthropology economics labour relations and criminology Naples in the Time of Cholera, 1884-1911 Frank M. Snowden,1995-12-14 This is the first extended study of cholera in modern Italy setting Naples in a comparative international framework *Coping with Crisis: The Resilience and Vulnerability of Pre-Industrial Settlements* Daniel R. Curtis,2016-05-13 Why in the pre industrial period were some settlements resilient and stable over the long term while other settlements were vulnerable to crisis Indeed what made certain human habitations more prone to decline or even total collapse than others All pre industrial societies had to face certain challenges exogenous environmental hazards such as earthquakes or plagues economic or political hazards from outside such as warfare or expropriation of property or hazards of their own making such as soil erosion or subsistence crises How then can we explain why some societies were able to overcome or negate these problems while other societies proved susceptible to failure as settlements contracted stagnated were abandoned or even disappeared entirely This book has been stimulated by the questions and hypotheses put forward by a recent disaster studies literature in particular by placing the intrinsic arrangement of societies at the forefront of the explanatory framework Essentially it is suggested that the resilience or vulnerability of habitation has less to do with exogenous crises themselves but on endogenous societal responses which dictate a the extent of destruction caused by crises and the capacity for society to protect itself and b the capacity to create a sufficient recovery By empirically testing the explanatory framework on a number of societies between the Middle Ages and the nineteenth century in England the Low Countries and Italy it is ultimately argued in this book that rather than the protective functions of the state or the market or the implementation of technological innovation or capital investment the most resilient human habitations in the pre industrial period were those than displayed an equitable distribution of property and a well balanced distribution of power between social interest groups Equitable distributions of power and property were the underlying conditions in pre industrial societies that all **Agrarian Change in Late Antiquity** Jairus Banaji,2007-05-17 In a critique of Max Weber s influential ideas about the Mediterranean region in late antiquity Jairus Banaji shows that the fourth to seventh centuries were in fact a period of major social and economic change bound up with an expanding circulation of gold Immigrants in the Lands of Promise Samuel L. Baily,2016-11-15 Most studies of immigration to the New World have focused on the United States Samuel L Baily s eagerly awaited book broadens that perspective through a comparative analysis of Italian immigrants to Buenos Aires and New York City before World War I It is one of the few works to trace Italians from their villages of origin to different destinations abroad Baily examines the adjustment of Italians in the two cities comparing such factors as employment opportunities skill levels pace of migration degree of prejudice and development of the Italian community Of the two destinations Buenos Aires offered Italians more extensive opportunities and those who elected to move there tended to have the appropriate education or training to succeed These immigrants who adjusted more rapidly than their North American counterparts adopted a long

term strategy of investing savings in their New World home In New York in contrast the immigrants found fewer skilled and white collar jobs more competition from previous immigrant groups greater discrimination and a less supportive Italian enclave As a result rather than put down roots many sought to earn money as rapidly as possible and send their earnings back to family in Italy Baily views the migration process as a global phenomenon Building on his richly documented case studies the author briefly examines Italian communities in San Francisco Toronto and Sao Paulo He establishes a continuum of immigrant adjustment in urban settings creating a landmark study in both immigration and comparative history

Cousins and Strangers Jose C. Moya,1998-03-31 More than four million Spaniards came to the Western Hemisphere between the mid nineteenth century and the Great Depression Unlike that of most other Europeans their major destination was Argentina not the United States Studies of these immigrants mostly laborers and peasants have been scarce in comparison with studies of other groups of smaller size and lesser influence Presenting original research within a broad comparative framework Jose C Moya fills a considerable gap in our knowledge of immigration to Argentina one of the world s primary settler societies Moya moves deftly between micro and macro analysis to illuminate the immigration phenomenon A wealth of primary sources culled from dozens of immigrant associations national and village archives and interviews with surviving participants in Argentina and Spain inform his discussion of the origins of Spanish immigration residence patterns community formation labor and cultural cognitive aspects of the immigration process In addition he provides valuable material on other immigrant groups in Argentina and gives a balanced critique of major issues in migration studies

Barbarism and Civilization Bernard Wasserstein,2009 History City of Dust Gregg Andrews,2002-09-20 Mark Twain s boyhood home of Hannibal Missouri often brings to mind romanticized images of Twain s fictional characters Huck Finn or Tom Sawyer exploring caves and fishing from the banks of the Mississippi River In City of Dust Gregg Andrews tells another story of the Hannibal area the very real story of the exploitation and eventual destruction of Ilasco Missouri an industrial town created to serve the purposes of the Atlas Portland Cement Company In this new edition Andrews provides an introduction detailing the impact of this book since its initial publication in 1996 He writes of a new twist in the Ilasco saga one that concerns the Continental Cement Company s attempt not unlike Atlas s one hundred years earlier to manipulate the sale of a piece of land near its plant in the town He explores the uneasy relationship between preservationists and the plant s CEO and officials in St Louis the growing movement to preserve Ilasco s heritage including the building of a monument to commemorate the early residents of the town and the grassroots petition drive and letter writing campaign that stopped the Continental Cement Company s machinations **Remaking Italy in the Twentieth Century** Roy Palmer Domenico,2002 Although the unification of Italy in 1870 initially defined the nation s geographical boundaries Italians faced challenges of determining their nation s social political and cultural identity This volume examines the struggle to recast the nation according to their visions Workers of the World Steven Colatrella,2001 After examining immigrant political activity in the

context of the rise of the racist Northern League the book ends with a discussion of the possibilities that immigrant experiences are setting the stage for a new planetary working class movement BOOK JACKET Commoners J. M. Neeson, 1993 Challenging the view that England had no peasantry or that it had disappeared before industrialization this text shows that common right and petty landholding shaped social relations in English villages Their loss at enclosure sharpened social antagonisms and imprinted a pervasive sense of loss **Twentieth Century Italy** Jonathan Dunnage, 2014-09-25 Following a historically chronological approach and with a clear focus on the marked regional diversity characterising Italy this volume analyses the impact of social economic cultural and political transformation on the lives of Italians It assesses their living standards their health and education their working conditions and their leisure activities The final part of the book examines contemporary Italian society in the light of the political and moral crisis of the early 1990s
