Base Ball Pioneers, 1850-1870 Peter Morris,William J. Ryczek,Jan Finkel,2014-01-10 By 1871 the popularity of baseball had spread so thoroughly across America that one writer observed It is as much our national game as cricket is that of the English While major league teams and athletes that played after this prophetic statement was made have been exhaustively documented and analyzed those that led the game during its pioneer

phase from 1850 to 1870 have received relatively little attention In this welcome work leading historians of early baseball provide profiles of more than fifty clubs and their players from legendary teams such as the Red Stockings of Cincinnati and the Nationals of Washington to forgotten nines like the Pecatonica Illinois Base Ball Club and the Morning Star Club of St Louis Engaging narratives bring these long ago clubs back to life stimulating more research on this fascinating era and creating a standard reference source for all who study America s national pastime **Gene Roddenberry's Star Trek** Douglas Brode,Shea T. connection between poetry and extra terrestrial space In an era defined by the vast scales of globalization environmental disaster and space travel poets bring the small scales of lyric intimacy to bear on cosmic immensity While outer space might seem the domain of more popular genres lyric poetry has ancient and enduring associations with cosmic inquiry that have made it central to post war space culture As the Cold War played out in space American institutions and media from NASA to Star Trek enlisted poetry to present space exploration as a peaceful mission on behalf of humankind Meanwhile poets from across the globe have turned to the cosmos to contest American imperialism challenging conventional ideas about lyric poetry in the process Poets including Elizabeth Bishop Adrienne Rich Seamus Heaney Derek Walcott Agha Shahid Ali and Tracy K Smith invoke the extra terrestrial to interrogate national histories alongside their craft Dazzled by the aesthetics of astronomy but wary of its imperial uses poets employ astronomical figures and methods to imagine how we might care for both ourselves and others on a shared planet
