The Rise of China and International Law Congyan Cai, 2019 The rise of China signals a new chapter in international relations and international law How China interacts with the international legal order namely how China utilizes international law to facilitate and justify its rise and how international law is relied upon to engage a rising China has invited growing debate among academics and those in policy circles This book for the first time provides a systematic and critical elaboration of the interplay between a rising China and international law

China's Silent Army Juan Pablo Cardenal, Heriberto Araujo, 2013-02-19 The first book to examine the unprecedented growth of China's economic investment in the developing world its impact at the local level and a rare hands on picture of the role of ordinary Chinese in the juggernaut that is China Inc Beijing based journalists Juan Pablo Cardenal and Heriberto Araujo crisscrossed the globe from 2009-2011 to investigate how the Chinese are literally making the developing world in their own image What they discovered is a human story an economic story and a political story one that is changing the course of history and that has never been explored or reported in depth and on the ground The silent army to which the authors refer is made up of the many ordinary Chinese citizens working around the world in the oil industry in Kazakhstan mining minerals in the Democratic Republic of Congo building dams in Ecuador selling hijabs in Cairo who are contributing to China's global dominance while also leaving their mark in less salutary ways With original and fresh reporting as well as top notch writing China's Silent Army takes full advantage of the Spanish speaking authors' outsider experience to reveal China's influence abroad in all its most vital implications for foreign policy trade private business and the environment

China's Use of Military Force in Foreign Affairs Markus B. Liegl, 2017-03-16 This book explains why China has resorted to the use of large scale military force in foreign affairs How will China use its growing military might in coming crisis and existing conflicts This book contributes to the current debate on the future of the Asia Pacific region by examining why China has resorted to using military force in the past Utilizing fresh theoretical insights on the causes of interstate war and employing a sophisticated methodological framework the book provides detailed analyses of China's intervention in the Korean War the Sino Indian War China's border clashes with the Soviet Union and the Sino Vietnamese War It argues that China did not

employ military force in these wars for the sake of national security or because of material issues under contestation as frequently claimed. Rather, the book's findings strongly suggest that considerations about China's international status and relative standing are the principal reasons for China's decision to engage in military force in these instances. When reflecting the study's central insight back onto China's contemporary territorial conflicts and problematic bilateral relationships, it is argued that the People's Republic is still a status seeking and thus highly status sensitive actor. As a result, China's status ambitions should be very carefully observed and well taken into account when interacting with the PRC. This book will be of much interest to students of Chinese foreign policy, Asian politics, military and strategic studies, and IR in general. Chinese Reportage Charles A. Laughlin, 2002. Explores the origins of Chinese reportage journalism in the 1930s, 40s, and 50s and develops an understanding of the aesthetics that governed the creation of this literature. **East Turkestan: The**

Genocide the World Chose to Forget Mehmet Emin Hazret, 2025-03-31. This book is not merely a narrative. It is a cry. In the vast expanse of China, to the east of maps, beyond the reach of screens, outside the glare of headlines, a people are being erased from history. By denial, by silence, by forced oblivion. They are the Uyghurs, the ancient children of East Turkestan, bearers of a civilization, a faith, a culture spanning millennia. Now their voice is being silenced, their language forbidden, their faith criminalized, their children forcibly reshaped into alien identities. When the systematic, silent annihilation of a people unfolds before our eyes, to remain silent is to lose not just one's conscience, but one's very humanity. This book was written so we do not stay silent. This book was written so we do not forget. This book was written so that one day this people may sing again. Every line you read here is either a witness's testimony, or the echo of a bullet in a child's cradle, or the tear of a mother, or the silent scream of a vanishing tongue. But every word is true. Some passages may enrage you. Some sentences may bring tears to your eyes. Some pages may make your head bow. And precisely for these reasons, this book must exist. Because tyranny wins not only when it is imposed, but when it is forgotten. Because silence in the face of a people's destruction is complicity. And because to write is to bear witness. East Turkestan is not merely a land. It is a memory. The Uyghurs are not merely a nation. They are a resistance. And this book is not merely a text. It is a test of our humanity. Read. Feel. Remember. And please, do not stay silent. **The Dynamics of China's Rejuvenation** J. Huang, 2004-06-29. The last

two and a half decades witnessed China's epoch-making economic growth and great social changes, which indicates the commencement of China's national rejuvenation after a near two centuries long stagnant or backward period. In exploring the causal dynamics of China's rejuvenation, Huang's book examines the internal and external elements from various sides in both the comprehensive way and the separate way, thus providing a convincing explanation about the driving force of China's marvellous development. **Contemporary China Review (2021 Summer Issue)** Editors: Wei Rong; William Luo; Haitian Liu, 2021-06-15.
